County Manager's Letter of Introduction

To the Board of Commissioners, residents, businesses, elected officials and employees of Douglas County:

It is a pleasure to present the Fiscal Year 2017-18 (FY 17-18) Adopted Budget. The budget is a financial plan to allocate resources needed to accomplish the strategic goals and objectives of Douglas County. The FY17-18 Budget is the product of months of work by the Board of County Commissioners, elected officials, department directors and staff, as well as members of the community, businesses and other local public agencies. In the development of the FY17-18 budget, Douglas County made a renewed commitment to build upon its strong record of long-range planning and financial stability. The five-year financial forecast process for the General Fund and other major funds is a tool that provides a focus on fixing structural imbalances over the long-range, not just year-to-year. The County continues to work collaboratively with other special taxing districts and other regional entities to provide various services that meet the needs of our community in the most cost effective way.

Community involvement is an important component of the budget process as it provides a voice to our residents regarding the County's programs and educates the public on the difficult choices local elected officials are faced with, especially in the economic environment of recent years.

We continually work to improve the accessibility and quality of public information to ensure Douglas County's local government is as transparent to residents as possible. In addition to the budget document, several other important sources of information are also available, including the five-year Capital Improvement Plan, 20-year Master Plan, Comprehensive Annual Financial Report, regularly scheduled Board of County Commissioners meetings, monthly newsletters, the County Manager's blog, local media outlets and the Inside Douglas County program. Please contact the County Manager's Office at (775) 782-9821 or visit our website at www.douglascountynv.gov for additional information about our finances and important local issues. I hope this document enhances your understanding of Douglas County's FY17-18 budget.

Thank you for taking the time to review this important piece of public information.

Sincerely,

Lawrence A. Werner, County Manager

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

**Douglas County
Nevada**

For the Fiscal Year Beginning

July 1, 2016

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented the Distinguished Budget Presentation Award to Douglas County, NV for its adopted operating and capital budget for the fiscal year beginning July 1, 2016 (FY16-17). In order to receive this award, a governmental unit must publish a budget document which:

- ◇ Reflects the guidelines established by the National Advisory Council on State and Local Budgeting,
- ◇ Incorporate the GFOA's best practices on budgeting
- ◇ Meet the Distinguished Budget Presentation Award program criteria

Douglas County has received the Budget Award for twenty consecutive years. We believe our current budget continues to conform to program requirements and are submitting the Douglas County, NV FY 2017-18 Adopted Operating and Capital Budget Document to GFOA for consideration of the Distinguished Budget Presentation Award.

The funds are organized in this section according to their type and purpose. Summaries are also provided for the County's Redevelopment Agency and Towns of Gardnerville, Genoa, and Minden.

Appendix:

A resource for additional statistical information on budget related items including personnel, transfers, fund balances, reserves, and contingencies.

Glossary:

Alphabetical list of terms and acronyms used within this document and their corresponding definitions.

This document incorporates the County’s operating and capital budget, the Douglas County Redevelopment Agency, and the Towns of Gardnerville, Genoa, and Minden. Certain revenues for a number of special districts, the School District, and the State of Nevada are received by the County in trust and agency funds and passed through to each respective agency. These trust and agency funds are not included in this document.

About Douglas County

Douglas County is a political subdivision of the State of Nevada, operating under provisions of Title 20 of Nevada Revised Statutes (NRS). On November 25, 1861, Douglas County became one of the first nine counties established by the first Nevada Territorial Legislature, with the County seat located in the town of Genoa. The County was retained when the territory became a state on October 31, 1864. Douglas County is named after Stephen A. Douglas, a former United States Senator from Illinois, who opposed Lincoln in the 1860 election for President.

Douglas County is the site of some of Nevada’s earliest development. Many small communities are scattered along the base of the Sierra Nevada Mountain Range, remnants of some of the first towns in the state. A good number of these communities were established in the 1850’s as trading posts and centers of ranching and farming. Genoa, originally known as Mormon Station, is the oldest of these and was settled in 1851. In 1910, the Douglas County Courthouse in Genoa was badly damaged by fire. This disaster, along with a population decline within the town of Genoa and subsequent growth in the town of Minden, prompted the Nevada Legislature to change the location of the County seat during the 1915 session. Today, the County seat is located in the town of Minden.

Geographic Information

The County covers an approximate area of 751 square miles, and is located in the western portion of the State. Douglas County borders the State of California to the west, Lyon County to the east, and the state capital of Carson City to the north. Included within the County’s boundaries are portions of the Sierra Nevada Mountain Range, Pinenut Mountains, Lake Tahoe, Topaz Lake, and the Carson and Walker Rivers. Since statehood, the boundaries of Douglas County have only been realigned two times: between Douglas County and Ormsby County (now Carson City) in 1965, and between Douglas County and Lyon County in 1967.

Elevations within the County vary from a low of 4,625 feet on the valley floor to a high of 9,595 feet at East Peak. The proximity of the Carson Valley to the Sierra Nevada Mountains creates one of the most comfortable daily temperature ranges in the continental United States. Generally, the climate is arid, with warm summers, moderate winters, and cool evening temperatures year round.

Recreational Activities

The Douglas County Parks & Recreation Department provides many activities, services and programs for people of all ages. The Department also handles reservations for all Douglas County parks and facilities under its jurisdiction including Topaz Lake campground.

Douglas County has 11 parks and a wide variety of recreational activities to enjoy. Parks include: Kahle Community Park, Zephyr Cove Park, George Brautovich Park, Johnson Lane Park, Lake Tahoe Multi-use Park, Lampe Park, Lincoln Park, Ranchos Aspen Park, Ranchos Birch Park, Ranchos Conifer Park, School Site Park, Topaz Lake Campground, Topaz Ranch Estates Park and Stodick Park. Additional parks are supported by the towns and General Improvement Districts.

The primary program of the Parks & Recreation Department is Kids Club, a day care service for school aged children. This program is operated at every elementary school in the County. During school breaks, the department operates all day camps with trips to destinations that include Lake Tahoe, hiking trails, roller rinks, bowling arenas, etc.

Youth sports programs are very popular and include flag football, basketball and volleyball. Adult sports programs include flag football, softball and volleyball. Kahle Community Center is a very popular facility to residents and visitors and hosts a variety of activities as well as a full gym and fitness equipment.

A swim center is located on Highway 88 adjacent to Douglas High School. This facility has six pools: two outdoor pools, an indoor lap/diving pool, an indoor pool designed for tots, an indoor pool designed for the elderly, and two water slides.

Douglas County also offers a fairgrounds complex. Located off Highway 395, 2 miles down Pinenut Road, this 81-acre complex encompasses a number of wonderful features, including a rodeo arena with chutes and pens, a practice arena, 1500 seat grandstand, announcer booth, pavilion, horse barns, concession/restroom buildings, a tree farm, and a staging area. A Model Airplane Complex, a 2-acre site located directly opposite the Fairgrounds, and boasts a 60' x 400' asphalt runway with taxiways for the sport of model airplane flying.

The Douglas County Community & Senior Center opened in February 2015. The 83,225 square foot facility, located on Waterloo Lane at the Herbig Park site, includes a large gymnasium, indoor jogging track, cardio and weight equipment, racquetball courts, a climbing wall, multiple activity rooms, Community Health Nurse, Senior Day Care services, and a Senior Center with a 300 person capacity for congregate dining.

Education

Douglas County School District (DCSD) seeks to provide excellent educational opportunities to residents of Gardnerville, Minden, Genoa and parts of Lake Tahoe (from Glenbrook to Stateline) of all ages. DCSD schools provide over 6,000 students with a nurturing and rigorous learning environment. Douglas County students are successful because our employees, parents, and community members work together to provide quality education. Our mission is to ensure that all students achieve excellence in education, character and citizenship, in partnership with parents and the community. DCSD administers the academic curriculum for all primary and secondary schools within the County. Currently, DCSD oversees seven elementary schools, three middle schools, and three high schools. More information is available on the district website which is designed to make key information more accessible for virtual visitors who are currently not involved in our schools. For more information, visit <http://dcsd.k12.nv.us> and click on the link titled “Schools” on the top banner.

To meet the educational needs of Nevadans living throughout the Western Nevada College’s (WNC) five-county, 8,049-square-mile area, Western Nevada College operates three campus locations and several rural instructional centers. One of WNC campuses is located in Douglas County, at Bentley Hall in Minden. The college offers a variety of classes in the arts and sciences, technology, and workforce education. Students can earn a two-year associate degree that transfers to a bachelor’s degree in many areas. They may also prepare for technical certifications that lead directly to a career. WNC also partners with Nevada State College to offer teacher education courses that can lead to a teaching certification. WNC also offers a four-year Bachelor’s of Technology Degree in Construction Management.

Libraries

The Douglas County Public Library offers an extensive range of services, materials, technology and programs at

facilities in Minden and Zephyr Cove. The Library offers assistance from specialists in information, media and technology, programs for children, youth and seniors, an online Digital Branch, Internet access, WiFi and WiFi printing, public computers, downloadable eBooks, eAudiobooks, eMagazines, music and streaming videos. Book drops are located in Minden, Zephyr Cove Park, Topaz Ranch Estates retail center, Sunridge Drive at Fire Station No. 12, Indian Hills, and Kahle Community Park.

Taxes

Nevada Revised Statutes (NRS) limits the ad valorem tax rate to \$3.64 on each \$100 of assessed value; however, legislature has provided exceptions to that limit. The State has implemented a rate of \$0.02 outside the \$3.64 rate which gives the effective limit in Douglas County of \$3.66 per \$100 of assessed valuation. Because Douglas County has many different districts, this rate ranges from \$2.67 to \$3.66. Assessed value is 35 percent of the property's current Taxable Value, not to exceed Full Cash Value (market value). The county assessor is responsible for establishing the value of all property within their jurisdiction with the exception of property of an interstate or intercounty nature. Valuations of interstate or intercounty property is established by the Nevada Tax Commission. Examples of these properties include public utilities, airlines and railroads.

Douglas County has a base sales tax of 7.10%; however, the state of Nevada does not have any of the following taxes: State Personal Income Tax, Corporate Income Tax, and Franchise Tax on Income, Unitary Tax, Inventory Tax, Inheritance Estate, Gift Tax, Admissions Tax, and a Chain Store Tax. Douglas County does not have a business license requirement other than for a Fictitious Name Filing.

County Government

County residents elect officials to provide community leadership and administration. Currently, the County operates under a commission-manager form of government. Douglas County government includes elected officials, departments, boards, commissions, and committees.

The Board of Commissioners ("the Board"), the governing body of the County, is comprised of five members who are elected at-large by the district to serve four-year, overlapping terms. Commissioners perform this community service with limited compensation. The Chair of the Board, elected by the five members, presides over public meetings. The Board of Commissioners provides County leadership, develops policies to guide the County in delivering services and achieving community goals, and encourages resident awareness and involvement. Working in conjunction with other Elected Officials and employees. The Board represents the interests of residents in the development and implementation of financial and administrative County policies and has overall fiscal responsibility for the County. Through the establishment and implementation of County policies and programs, the Board of County Commissioners creates opportunities for residents, businesses and visitors to enjoy the quality of living in Douglas County.

The Board of Commissioners also presides as the Liquor Board, License Board, Tahoe-Douglas Transportation District Board, Water District Board, Regional Transportation Commission and the Redevelopment Agency Board. The County Commissioners hold meetings as a Board on the first Thursday of each month in the Historic County Courthouse in Minden, Nevada and on the third Thursday of each month in the Douglas County Transportation Center in Stateline, Nevada. Special meetings are scheduled as needed. Other community and public meetings are held throughout the year to obtain public input on specific matters and projects proposed within the County. Agendas for all meetings are posted at several locations, including: the Historic County Courthouse, the Minden Inn, the Judicial/Law Enforcement Building, the Douglas County Libraries, Douglas County Administration Building, Tahoe Transportation Center, the post offices in Gardnerville and Minden and the Douglas County website at <http://www.douglascountynv.gov>.

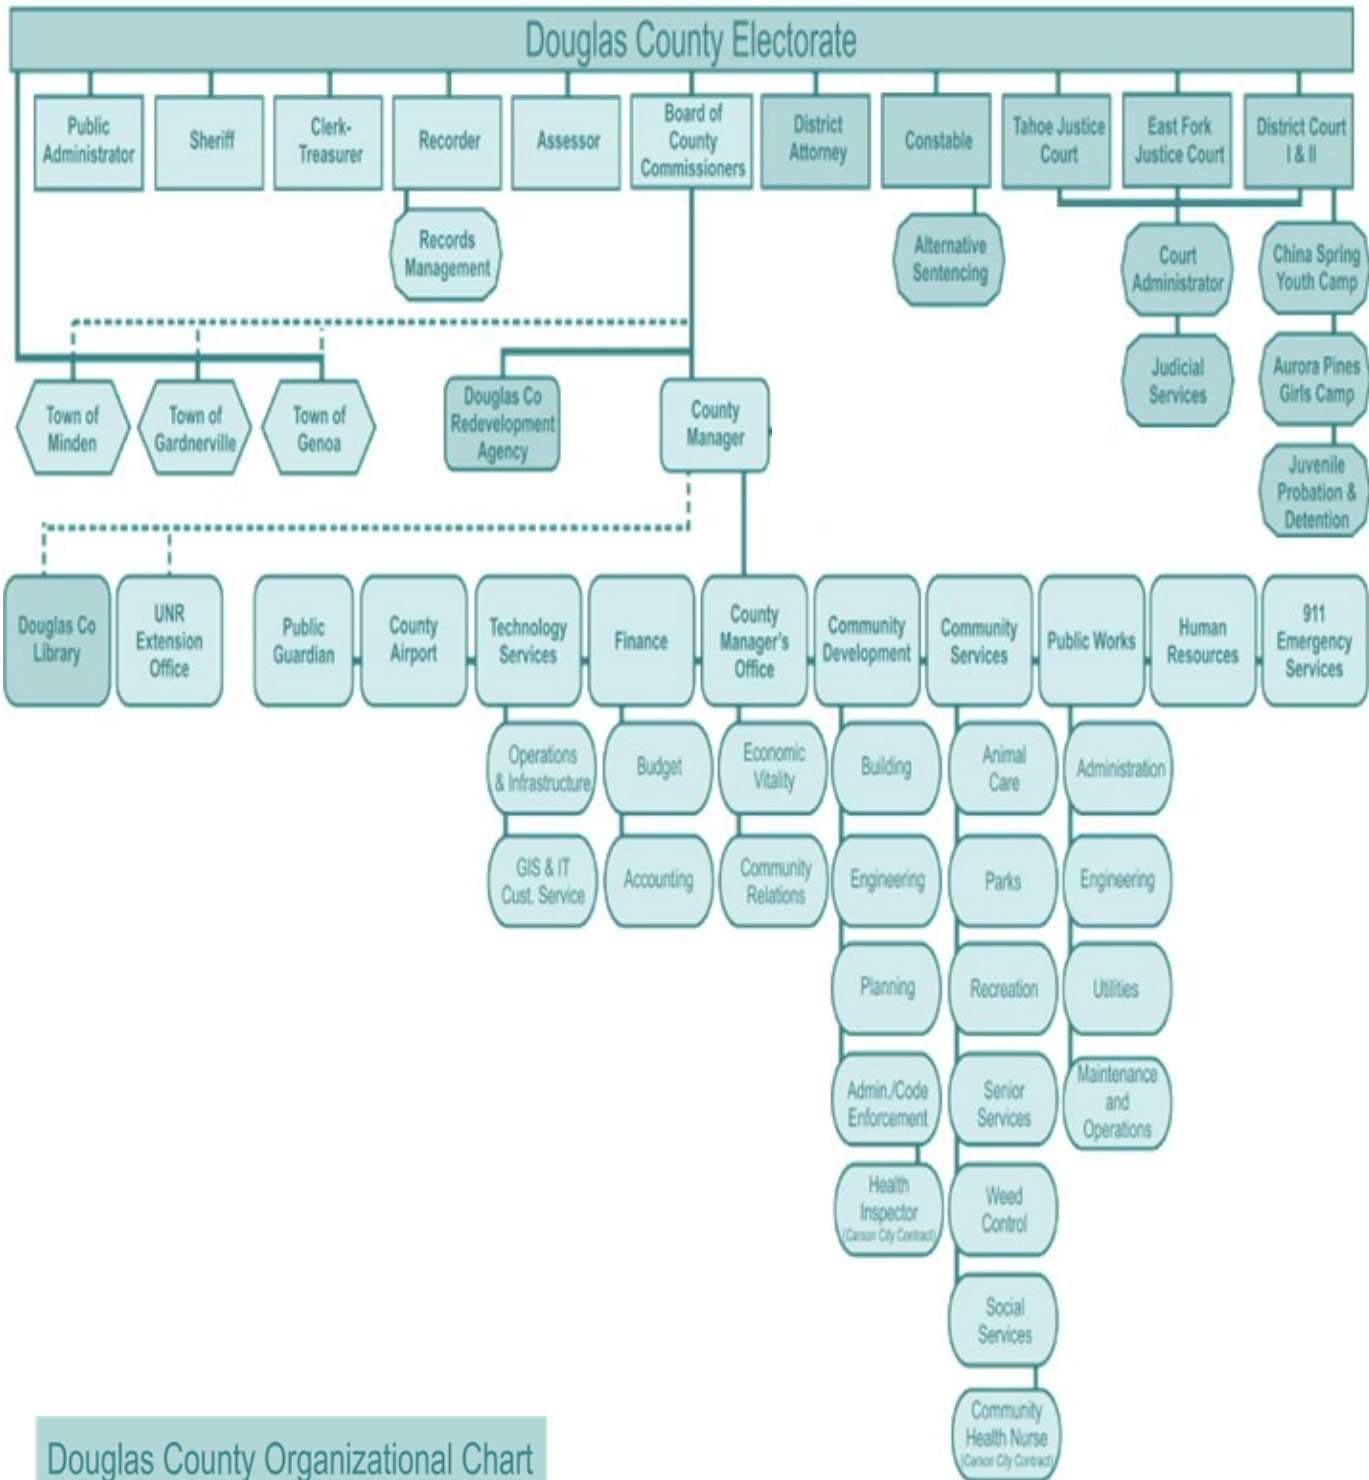

The unincorporated Towns of Gardnerville, Genoa, and Minden are governed by their own separate elected

boards in those areas for which authority has been granted to them by Douglas County. The Douglas County Library is governed by a Board of Trustees and administered by an appointed Library Director.

The various departments, boards, commissions, and committees within Douglas County provide a full range of services to residents. Services provided by the County include:

Boards and Commissions

Citizen participation on various Douglas County boards and commissions serve two important purposes: (1) Residents are directly involved in their local government and can positively impact the future of their community and (2) The Board of Commissioners receives timely input and information regarding issues and potential impacts.

The boards and commissions listed below serve in an advisory capacity to the Board of Commissioners within their respective areas of county policy (except the Law Library Board and the Library Board of Trustees). Members are appointed by the Board of Commissioners for specified terms. Members are unpaid volunteers who devote innumerable hours of their personal time to these community services. Anyone living within the County's boundaries may serve on these advisory boards and commissions, although certain membership conditions may apply. Contact the County Manager's Office for additional information about serving Douglas County in this capacity or the following volunteer boards and commissions.

Advisory committees for the County are generally standing bodies established by the Board and appointed by the Board to provide ongoing citizen input to major policy areas. Some committees are established as required by the Nevada Revised Statutes (NRS) and have duties prescribed by law. Appointments vary in length and terms are staggered to provide for continuity. The responsibilities of the members generally include:

- ◇ Provide on-going recommendations to the Board and staff concerning specific program areas.
- ◇ Hold public meetings to solicit community input on current issues.
- ◇ Identify issues which the advisory committee feels should be addressed by the Board or staff.

Policy Making

In keeping with Douglas County's philosophy of citizen involvement, the Board appoints citizens to committees to assist in formulating County policy, as well as carrying out responsibilities delineated in NRS. The strength and success of the Douglas County government is to a large degree reflective of the quality of services performed by these volunteers.

Committees within the County structure that serve in an advisory capacity to the Board are:

Airport Advisory Committee

Provide advice on policy matters concerning the management and development of the Minden-Tahoe Airport property. There are 7 members who serve 2-year terms.

911 Surcharge Advisory Committee

Develop a 5-year Master Plan to enhance or improve the telephone system for reporting an emergency in the County and to oversee any money allocated for that purpose. There are 5 members who serve 2-year terms.

Board of Equalization

Serve to address property tax appeals by county residents. There are 5 members who serve 4-year terms.

Carson Water Sub Conservancy District

Provide advice and recommendations for water issues and projects impacting Douglas County and the Carson River drainage area. There are 5 members who serve 4-year terms.

Douglas County Advisory Board to Manage Wildlife

Provide recommendations to the State Board of Wildlife Commissioners for setting fishing seasons, hunting, and trapping, and other wildlife matters in Douglas County. There are 5 members who serve 3-year terms.

Genoa Historic District Commission

Review proposed building changes or development plans within the district. There are 5 members who serve 2-year terms.

Law Library Board

Govern and manage the law library of the District Court. There are 7 members who serve 2-year terms.

Library Board of Trustees

Governing authority for the Douglas County Library, the Board has statutory responsibility for the operation of the Library and provide direction on policy matters pertaining to the operation, expansion, and level of service provided by the Douglas County Library. There are 5 members who serve 4-year terms.

Parks and Recreation Commission

Provide advice on policy matters pertaining to Douglas County parks resources and recreation activities. There are 7 members who serve 2-year terms.

Planning Commission

Provide advice on land use planning matters, review development applications for compliance with county plans/ordinances, and provides oversight in the Master Plan process. There are 7 members who serve 4-year terms.

Regional Transportation Commission

Provide advice regarding existing and future transportation needs and issues in Douglas County. There are 3 members who serve 2-year terms.

Senior Services Advisory Council

Provide advice regarding the operation of the senior center, the senior nutrition program, and other senior programs. There are 9 members who serve 2-year terms.

Water Conveyance Advisory Committee

Provide representation to irrigation or ditch associations and representation to both forks of the Carson River and the impact of development on the irrigation/ditch systems within Douglas County. There are 5 members who serve 2-year terms.

Policy Direction for Budget Development

Budget Message

A message explaining the principal budget items, revenue and appropriation highlights summarizing major issues affecting the budget, and outlining challenges Douglas County faces.

FY 2017-18 Budget Summary

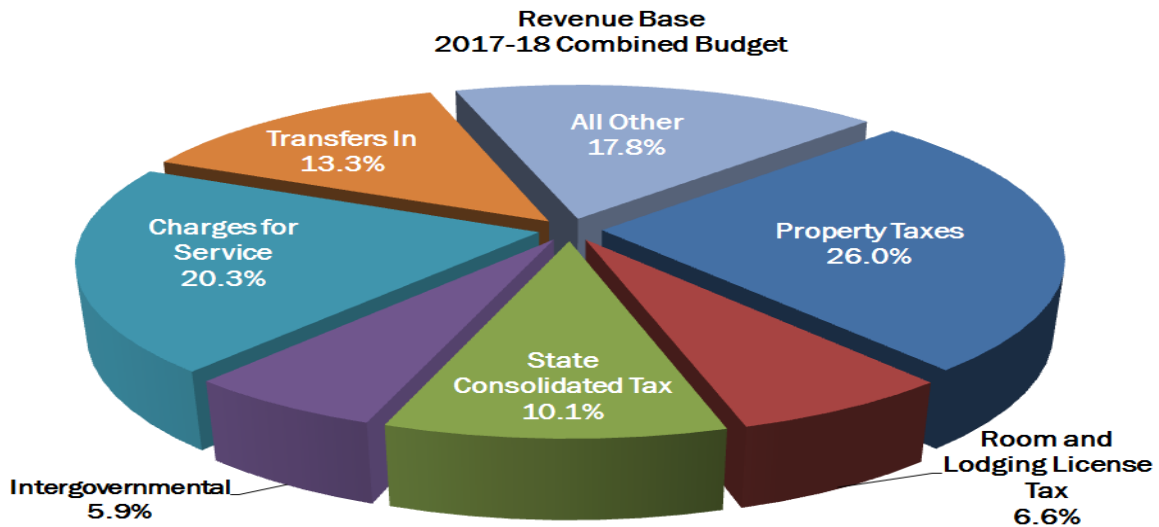

The adopted budget for fiscal year 2017-2018, represents Douglas County and its component unit agencies: the Douglas County Redevelopment Agency and the Towns of Gardnerville, Genoa and Minden. The financial resources for Douglas County and these agencies are budgeted and accounted for in 53 separate funds (accounting entities) within the County’s general ledger. The agencies developed their budgets based on the Douglas County Board of Commissioners’ policy to present structurally balanced budgets. The FY 2017-18 adopted budgets for all agencies total is \$185,752,781, including depreciation, fund balances and reserves.

Total Budget By Organization	2017-18 Adopted
Douglas County	163,956,169
Redevelopment Agency	8,046,548
Town of Gardnerville	3,886,947
Town of Genoa	590,766
Town of Minden	9,272,351
Total	185,752,781

In this budget document you will find summarized and detailed reports highlighting both resources (revenues) and appropriations (expenses) across all funds and agencies. Discussed in these reports are the sources of County revenues and appropriations for both operating and non-operating budgets for capital improvements, debt service and other non-operating costs.

A stable and diversified revenue base is necessary to ensure the County has the resources to provide continued quality public services. The fiscal year 2017-18 Budget consists of operating and non-operating revenues totaling \$122,077,194. Of all operating revenue, 59.6% comes from three sources: Property Tax (26.0%), Charges for Service (20.3%), and Transfers In (13.3%). These three main sources of revenue are dependent on a healthy, growing economy. The need for a strong revenue base extends beyond the County's General Fund and touches the heart of all public policy decisions and public services. The ability to pay for public infrastructure and services without overburdening the taxpayer is a constant challenge and the County is continually working to further strengthen and diversify its revenue base.

For the FY 2017-18 board designated was eliminated to fund projects and for this reason, transfers in has a 105.2% increase from prior year. This variance will be apparent through the document as it touches several funds.

The County based its revenue estimates for the 2017-18 budget on information provided by the Nevada State Department of Taxation, Department Directors, Elected Officials the Finance Division, economic conditions, and historical trends. As the economic recovery continues, County revenues have stabilized in most areas, and we expect an increase of 1.7% in operating revenue in total across all funds and agencies.

In the State of Nevada, annual growth in property taxes is capped by a formula tied to the consumer price index and rolling average changes in assessed values. For fiscal year 2017-18, growth in property taxes on existing residential and commercial properties are capped at 0.2%. Newly constructed properties are not subject to the cap the first year they are placed on the tax roll. Overall, property taxes are projected to increase 3.0% based on this combination of existing and new property. In the General Fund property tax revenue is budgeted to increase 3.7% in FY 2017-18. All three towns of Gardnerville, Genoa and Minden are budgeted to see an increase of 5.9%, 2.5% and 4.2% respectively.

Other Taxes are budgeted to decrease by \$47,789 or 1.4% from prior year due to a change in budgeting method of Park Residential Construction Funds taxes.

State Consolidated taxes are projected to increase 1.3% per the State of Nevada's allocation, which is calculated using a formula based on tiers, rural guarantees, stabilizing factors, consumer price index and other factors. Sales tax dedicated to parks, airport, library and seniors (P.A.L.S) are budgeted to increase 2.0%, to bring this budgeted revenue in line with the State's projections.

Charges for Services are projected to decrease by 1.4%, greatly due to a decrease of water usage within the County. Although water fees have not been reduced, the County water usage has decreased due to drought conservation. Licenses and Permits revenue is also projected to decrease 1.5%. The majority of this is due to a decrease of utility operator fees.

Intergovernmental revenue are projected to increase by 4.1% overall due to non-recurring grants not received in prior year. This is greatly due to the projected increase in Intergovernmental revenue by \$540,708, 1175.4% for the Town of Gardnerville. This increase is the result of being granted the Community Development Block Grant (CDBG) for FY 2017-18, which was denied in prior years.

Both Room Taxes and Transient Lodging License Taxes (TLLT) are expected to increase 6.0%, each to bring these budgeted revenues in line with actual trends. Gaming revenues are projected to increase by \$129,800, 10.5%, which is slightly up from recent years, the majority of which is budgeted in General Fund. As the economy continues to recover, tourism is growing in Douglas County and resulting in higher gaming revenue.

Other Financing Sources are projected to increase 87.8%; primarily due to loan proceeds that will be used to fund capital improvement projects in various utility funds.

Total appropriations in the 2017-18 Budget equal \$140,050,262, excluding ending fund balances and reserves. The expenditure side of the budget is where the County's priorities are defined by setting forth the community services and programs to be supported by the County's available, yet limited resources. Some of the most significant challenges facing the County going forward are funding for needed infrastructure improvements to roads, utility systems, storm water drainage and flood control, as well as the revitalization of Main Streets in the Towns and Lake Tahoe areas, and investing in our high performing workforce, while maintaining the County's long-term financial strength and stability.

Operating Expenses

The operating budget of Douglas County includes all expenditures related to the costs of services, such as staffing, supplies, services, County-funded grants, and other miscellaneous expenses.

Personnel Services

As an organization that provides services to the community, the County’s Personnel Services costs – which consist of wages, salaries and benefits – represents the largest single category of expenditures in the budget. Personnel Services account for \$49,682,690 or 35.5% of total expenditures, representing an increase of \$1,485,235 or 3.1% over the prior year. This increase is due to the County’s focus on organizational sustainability during budget development. Per direction from the Board of County Commissioners, the County has implemented a Cost of Living Adjustment (COLA) of 2.0% for all staff as well as the re-implementation of merit increases, based on performance, effective July 1, 2017.

There is a net change of 0.83 addition to Full Time Equivalents (FTE) from prior year, throughout the entire County, including the Redevelopment Agency and Towns. This is due to a adding new positions and reducing positions related to the Child Support Department which was eliminated in FY 2017-18. This change also takes into account various positions which were either promoted form part-time to full-time or temporary positions whose hours were reduced. A key positions which was added in FY 2017-18 is the Assistant County Manager position within the County Manager’s Office.

Services & Supplies

The Services and Supplies budget totals \$33,188,160 or 23.7% of total appropriations. Services and supplies include operating expenses such as utilities, materials, insurance, repairs, vehicle maintenance and professional services. Services and Supplies increased by \$1,766,836, or 5.7% over the prior year. This increase is due to an increase in software maintenance as well as other multi-year contracts costs.

Non-Operating Expenses

The non-operating budget of Douglas County includes all expenditures related to the capital projects, debt service, and depreciation. The non-operating budget excludes contingency, ending fund balances and reserves.

Capital Outlay/Projects

The Capital Outlay/Projects Budget totals \$26,371,564 or 18.8% of total appropriations, an increase of \$7,926,107 or 43.0%. The increase is due to funding for capital improvement projects, including critical facility improvements and equipment replacements, in some cases with the use of reserves. Some of the larger projects that are being funded include North Valley Wastewater Treatment Upgrades, Jacks Valley Road Reconstruction, Tillman Lane Reconstruction and Pinenut/Dump Road Reconstruction, Centerville Lane Reconstruction, and Replace Walley's Well.

Debt Service

Debt service payments total \$4,560,896 or 3.3% of total appropriations, representing an increase of \$275,656 or 6.4% over the prior year resulting from a new Highway Revenue Bond issued in November 2016.

Transfers Out

Transfers Out payments total \$16,280,542, or 11.6% of total appropriations. Transfers Out represent amounts distributed from one fund to finance activities in another fund. Transfers Out increased by a net \$8,320,071 or 104.5% as a result of reallocating reserves to fund capital projects and disbursing Board Designated funds per Board direction.

Depreciation

To comply with accounting standards the County must account for the depreciation of assets. While this cost is accounted for, it is not fully funded. For budget purposes, depreciation is shown as both an expense and revenue. Depreciation totals \$4,262,258 for FY 2017-18.

Contingency

In certain funds, such as the General Fund and Special Revenue Funds, an amount ranging from 1.5% to 3.0% of expenditures is set aside as contingency. The County budgets contingency to meet the costs of unforeseen events such as equipment failures or in response to emergencies that may occur during the fiscal year. A total of \$1,242,834 is budgeted for contingency in FY 2017-18.

Fund Balance/Reserves

Budgeted ending fund balance and reserves for FY 2017-18 totals \$44,459,685. This represents an increase of \$302,393, or 0.7% .

Reserves must be included when discussing total appropriations. Reserves are accounted for in two ways: appropriated reserves and ending fund balance. Appropriated reserves are funds committed to potential projects or new projects identified during the year. The County uses this one-time source of funding primarily in the capital construction and enterprise funds as specific capital projects and/or if the full cost of the project is often not known at the time of budget preparation. This is the largest category of reserves, totaling \$38,114,668 in the 2017-18 Budget.

Ending fund balance is non-expendable, as it is there to provide cash flow for the year and serves as a beginning balance for the next year. Ending fund balance is set by policy at 8.3% of operating expenses, which represents funding for 30 days of operating expenditures and is not considered a resource by the State under NRS Section 354 et seq. Budgeted ending fund balance for 2017-18 totals \$6,345,017.

Summary of Funds

Overall expenses, including contingency, for all County funds, excluding the Towns and the Redevelopment Agency, are predicted to increase by \$20,227,753, or 16.7% for the 2017-18 fiscal year primarily due to planned capital improvements in the enterprise and capital construction funds.

General Fund

The General Fund is the largest single County fund, with an operating budget of \$49.6 million in fiscal year 2017-18. The General Fund accounts for the financial resources required to provide a variety of public services including public safety and law enforcement, judicial and courts services, property assessments, clerk, treasury and elections, public documents and records, planning, building and planning services, administration and financial management and other important public services. The County’s goal continues to be to ensure structural balance and long-term financial stability in the General Fund so that ongoing revenues are sufficient to pay for the cost of these services. For FY 2017-18, General Fund revenues are budgeted to increase by \$1,509,420, or 3.5%.

Challenges in developing the fiscal year 2017-18 General Fund Budget included:

- ◇ Funding investments in employees including negotiation of new labor contracts
- ◇ Funding new requests submitted by departments
- ◇ Funding investment in infrastructure (roads and facility maintenance)

General Fund Solutions:

- ◇ Budgeted \$265,995 or 18% of the total growth in General Fund revenues for investment in employees:
 - Implemented an on-going COLA and merit based salary adjustment for County employees
- ◇ Funded departmental requests using Priority Based Budgeting to reallocate resources
- ◇ Continued to invest in infrastructure, maintaining transfer out for road improvements

Special Revenue Funds

Special revenue funds budgeted in FY 2017-18 total \$42.8 million. These budgets include a variety of funds used to account for programs paid for by legally restricted revenue sources that can only be utilized for specified purposes, such as social services, 911 emergency dispatch services, tourism promotion, senior services, recreation, parks, library, airport, redevelopment and road maintenance.

Proprietary Funds

The FY 2017-18 budgets for the Proprietary Funds total \$27.3 million. These funds include the motor pool internal services fund, and enterprise funds such as water and sewer utilities. The County funds its utilities operations with the revenues from customers who pay for services, and operates them similar to a private business.

Capital Project Funds

Capital Project funds budgets for FY 2017-18 total \$18.7 million. These budgets account for revenues and expenses associated with the construction of major capital facilities (other than those financed by proprietary funds). The funds include the Ad Valorem Capital Projects, County Construction and Regional Transportation Funds. Several critical capital projects have been funded in FY 2017-18 using reserves from the General Fund.

Debt Service Fund

The FY 2017-18 Debt Service Fund budget totals \$2.6 million. This fund accounts for the accumulation of revenues and the payment of long-term debt principal and interest for non-enterprise fund debt.

Conclusion

County agencies and departments have worked collaboratively to develop a balanced fiscal year 2017-18 budget. The County staff continue to be dedicated to the welfare of Douglas County and its residents and is committed to providing high quality, professional and cost effective services.

Budget Overview

An overview of the annual budget development process including budget guidelines, strategic goals, budget directives, and an explanation of County financial policies. Also included are an evaluation of the County's financial condition and a concise portrayal of the FY 2017-18 adopted budget by Agency.

The Budget Overview provides a concise portrayal of the fiscal year 2017-18 Douglas County budget. This section provides a description of what the budget is, how it is developed, the budget calendar, budget monitoring, and definitions of the major revenue and expenditure categories to aid in understanding the budget.

The Budget: A Policy & Planning Guide

The budget is the County's financial plan for the year ahead. It is a planning tool that matches the services and programs desired by residents with the resources needed to provide those services. Although it is important to express the budget in monetary terms for common denominator purposes, a budget should also be looked upon as more than a financial plan. The budget represents public policy: how both legislative and administrative controls are defined and established. Budgeting is the organizing of human resources, equipment, materials, and other resources for carrying out public policy.

The budget is also a management tool as it provides a work program designed to accomplish the organizational objectives of county government. The budget provides management with the scope of services to be performed and the capital improvements to be made during a fiscal year. The budget incorporates a variety of long-range plans, including the County Master Plan and five-year plans for parks, utilities, buildings, and transportation systems.

All counties in Nevada are required to adopt a budget annually. Chapter 354 of the Nevada Revised Statutes provides the legal framework governing the County's budget. The effective period of a budget is one fiscal year: July 1 to June 30. Certain services are required by State law and many revenues are restricted for specific purposes.

The budget is organized on the basis of departments, programs, and community needs within funds. A fund is a collection of accounts that record resources together with related requirements for a specific type of activity or objective. The County maintains hundreds of revenue and expenditure accounts within 54 funds. Douglas County's funds are described in detail in the Fund Summaries section.

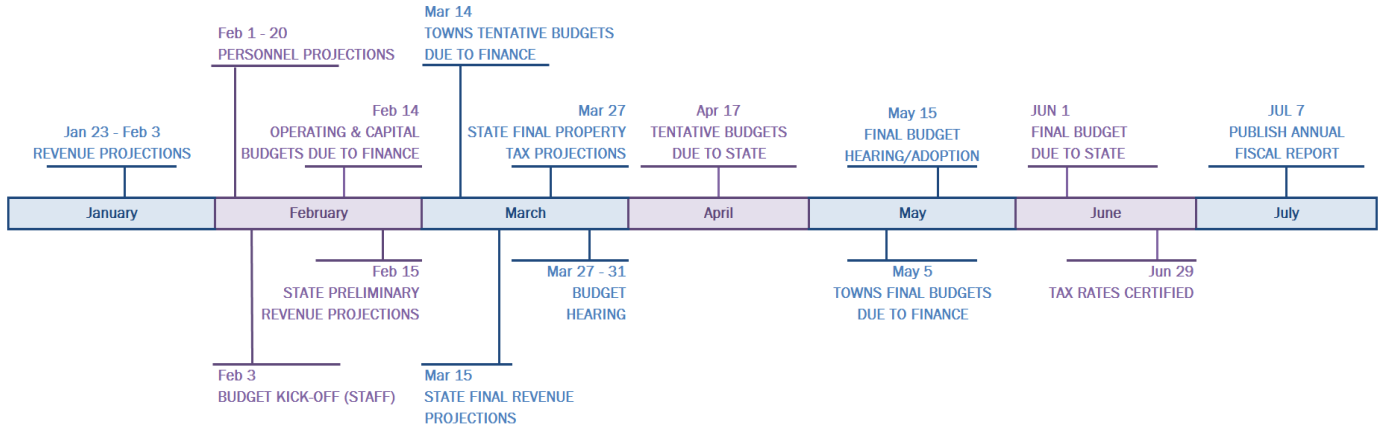

Developing the Budget

Budget development begins by preparing estimates of incoming revenues and beginning fund balances for the next fiscal year. Accurately estimating revenues is very important in order to properly account for anticipated expenditures for the next fiscal year. These expenditures are developed based on Board of Commissioner policies and objectives, Federal, State, and local laws and regulations, known cost factors, and economic conditions. Once all anticipated expenditures have been estimated, the challenge becomes adjusting the expenditures to match estimated revenues. This process may involve reallocating some expenditure appropriations depending on Board of Commissioner priorities or mandated services. Fund reserves may also be available.

Prior to April 15 of each year, the County is required to submit to the State Department of Taxation the tentative budget for the next fiscal year, which commences on July 1. The tentative budget contains the proposed expenditures and the means of financing them. After reviewing the tentative budget, the State Department of Taxation is required to notify the County upon its acceptance of the budget.

Following acceptance of the tentative budget by the State Department of Taxation, the Board is required to conduct a public hearing on the third Monday in May. The Board is required to adopt and transmit the final adopted budget to the State on or before June 1. The Nevada Tax Commission certifies the property tax rates on June 26.

Below is the implementation calendar for Douglas County’s FY 2017-18 budget.

Budget Implementation and Monitoring

The budget process does not end with the adoption of a completed budget; it continues throughout the fiscal year. Once the budget is adopted it must be implemented, closely monitored, and professionally managed. Monthly budget reports, quarterly reports, and various accounting checks and balances are utilized to this end.

Revenues are constantly monitored throughout the year to detect any fluctuations. If at any point, revenues are not sufficient to support planned activities, the County Manager will report to the Board of Commissioners with recommendations for dealing with the situation. If unforeseen expenditures arise planned activities may be postponed or cancelled, transfer of monies from other expenditure accounts may be required, or contingency accounts maybe used, as the County cannot exceed its budgetary spending limits.

The County Manager is authorized to transfer budgeted amounts within functions or funds, but any other transfers must be approved by the Board of Commissioners. Increases to a fund’s budget other than by transfers are accomplished through formal action of the Board.

With the exception of monies appropriated for specific capital projects or Federal and State grant expenditures, all unencumbered (un-promised) appropriations lapse at the end of the fiscal year. Information on how the budget may be augmented (amended) and a discussion of reserves and contingencies is included in the Appendix.

Certain large expenditures, notably capital projects, equipment, and vehicle purchases are timed to coincide with the receipt of revenues from specific sources to enhance cash flow. Through the budget process and ongoing activity, the Board of Commissioners oversee the financial operation of the County and set forth community priorities and policies to be implemented by the County Manager. The County Commissioners have overall fiscal responsibility.

Budgetary Basis

The budget is prepared on a line-item (account) basis by fund and department using historical trends and management experience. Every revenue and expenditure account is reviewed when preparing the budget.

The County's annual operating budget is prepared in conformity with Generally Accepted Accounting Principles (GAAP). The County's accounting system is organized and operated on a fund basis. As previously mentioned, funds are established for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, legal restrictions or limitations. All governmental funds are accounted for using the modified accrual basis of accounting in which revenues are recognized when they become measurable and available to finance expenditures of the fiscal period. Expenditures, except for un-matured interest on long-term debt, are recognized in the accounting period in which the liability is incurred. Sales and use taxes, motor vehicle fuel taxes and privilege taxes are considered "measurable revenue" when they are received by the County. Ad Valorem taxes are considered measurable and available if received by the County within 60 days after year-end.

The accounting records for enterprise and internal service funds are maintained on a full accrual basis. Accordingly, revenues are recognized in the accounting period earned and expenses are recognized in the period incurred. Trust and agency funds are accounted for on a cash basis (these funds are not included in this document).

Budget Guidelines

- First:** Develop a budget that reflects the priorities of the Board of County Commissioners, Elected Officials, Department Heads and the Community within our financial ability.
- Second:** Identify specific program and policy issues that require Board action. Inherent in this is the need to maintain necessary and mandated public services and, at the same time, establish a sound financial base for the County's future.
- Third:** Build a consensus supporting the implementation of policy guidelines and specific budgetary direction. This requires "giving and taking" by each department as we work to achieve what is best for the community and the County as an organization.
- Fourth:** Give full disclosure of financial information and ensure it is understood. To be credible, there must be an effort to present the County's financial picture as accurately as possible to the organization and community.
- Fifth:** Have open and honest discussions regarding expenditure requests. As an organization and as individual managers, we are obligated to be able to explain the need for any requested expenditure.
- Sixth:** Openly discuss issues, be creative, and develop alternatives. We need to recognize that our own personal or department priorities need to be integrated with the priorities of the entire organization, as we all work for the same organization and public constituency.

FY 2017-18 Budget Directives

The proposed budget should be prepared in compliance with these general directives, must adhere to the County's Financial Policies, and be consistent with the direction given by the Board of Commissioners.

Balancing Funds

- ◇ The General Fund and each applicable Special Revenue Fund shall be balanced, with operating expenditures equal to or less than projected operating revenue
- ◇ Enterprise and other restricted funds are to have the full cost (direct and indirect) of providing services supported by each fund

Revenues

- ◇ County will maximize its General Fund (operating) Property Tax Rate
- ◇ County will continue to recover General Fund costs for services provided from the Towns and Federal grants where feasible through its Cost Allocation Plan
- ◇ County will budget revenues responsibly, based on recent trend data, as well as information provided by the State and Departments and other economic data

Personnel Costs

- ◇ No new personnel should be included in budgets unless justified and endorsed by the County Manager, vetted through priority based budgeting and approved by the Board
 - Budgets are to remain at or below FY 2016-17 authorized personnel unless approved by the Board
 - All personnel requests are due to County Manager by February 20, 2017
- ◇ County staff who are being compensated at a rate under the minimum of the new range based on the compensation study will receive an increase to minimum if financially feasible
- ◇ Personnel budgets will be based on county labor contract agreements or resolutions approved by the Board
- ◇ The County will evaluate health insurance premiums in conjunction with efforts to reduce and stabilize health insurance costs
- ◇ The County's costs toward the State's retiree health insurance plan are to be borne by the fund from which the retiree was paid while an employee of the County

Services and Supplies (Operating Budget)

- ◇ No increase in total departmental Services and Supplies budgets from the current year (FY16-17) total adopted budget should be included in budgets
 - Requests for authorization to increase the total adopted budget above the FY 2016-17 adopted amount are due to the County Manager by February 24, 2017

- ◇ Departments should review line items that have been historically over budgeted and under expended
- ◇ Departments should review priority based budgeting for possible cost savings or revenue maximization

Capital Outlay/Projects

- ◇ Capital outlay/projects are assets acquired for use in operations and have an estimated life of longer than a year.
- ◇ Do not include capital outlay items in operating budget within the General Fund
- ◇ Provide a detailed explanation in the narrative portion of the budget and complete a Capital Improvement form and submit to the Finance as outlined in the Capital Improvement Plan Manual.

General

- ◇ Departments are to review and update their department programs, strategic goals and objectives as they are preparing their budgets
- ◇ Develop a plan to fund asset replacement and maintenance in order to address increasing equipment and facility needs

General Fund 5-Year Financial Projections

Local and national economic conditions have a significant impact on County finances and capacity to address public service needs. While property taxes are a relatively stable revenue source, Douglas County relies on other major revenue sources – fees, State revenue sharing, sales taxes, gaming, and interest earnings – whose viability depend directly on changing economic conditions. The demand for certain services is also driven by economic conditions. Inflationary and interest rates influenced by worldwide and national economic conditions impact the County’s financial status and projections. State and local economic conditions will greatly impact the County’s budget as expenditures continue to increase beyond the constraints of current revenue. As a result, projections of local economic conditions are a major element in the annual budget process.

A five-year General Fund projection model is prepared in order to get a clear picture of the County’s future fiscal condition. The fiscal projections are not designed to be exact, but to give a realistic picture of what we may be facing. Looking forward five years, there are a number of unknowns that may impact the budget. The projections are useful in identifying potential future problems and allowing time to take the necessary corrective actions. In other words, effectively plan for and manage resources to offset anticipated problems in a timely and well thought out manner.

Revenues that grow at a slower rate than the cost of providing services present a real challenge to maintaining financial stability. The FY 2017-18 budget incorporates a number of actions to slow the growth of operating

expenditures. Continuing with this approach has helped to eliminate a long-term, structural deficit of our General Fund budget.

The information presented here will serve as a means of measuring success in implementing solutions. This is a working model based on trends and assumptions. As we work through each budget process, the trends will be updated and the assumptions modified. The model is a very useful budgetary planning tool.

General Fund Projections

The projections are based on a number of revenue and expenditure assumptions, historical trends and estimates provided by the State of Nevada, and two broad assumptions: first, it is assumed that the current mix and level of services are maintained; and second, that no new major revenue sources are implemented.

Assessed Valuation for Douglas County is estimated at \$2,894,489,426 for FY 2017-18 and property tax revenue for Douglas County, Douglas County Redevelopment Agency, and the Towns is estimated at \$31,729,094. Ad valorem property tax revenues are capped at 0.02% growth for the residential, commercial, industrial and multifamily. Property tax revenue growth exceeding the cap is abated. Our forecast assumes an increase of 3.0% in property tax collections in FY 2017-18. Ad valorem property tax revenue growth for fiscal year 2018 through fiscal year 2022 is projected to increase at an average rate of 3.0% annually.

State Consolidated Tax (CTX) revenues are estimated to increase by 1.2% in FY 2017-18. An average growth rate of 2.0% is estimated in future fiscal years. Each component of State Consolidated Tax is outlined as follows.

- ◇ **Basic City County Relief Tax (BCCRT)** – This tax is ½% of the 6.85% statewide sales/use tax rate. In-state sales are distributed to the county where the sale was made and out-of-state sales are distributed to the counties and cities based on a population formula.
- ◇ **Supplemental City-County Relief Tax (SCCRT)** – The SCCRT tax is the County's guaranteed portion of CTX revenue. This revenue is 1.75% of the 6.85% statewide sale/use tax rate and is distributed back to the County based on a statutory distribution formula. The first tier formula factors In and Out of State tax collections, Consumer Pricing Index (CPI), and population. This tax will change depending on the change of the three factors mentioned above, in the prior two fiscal years. Change in SCCRT distribution is the difference in State tax collections or the difference in population and CPI, whichever is the lowest.
- ◇ **Cigarette and Other Tobacco Products Tax Revenue** – This tax made up of 40 mills per cigarette and 30% of other tobacco products manufacturers wholesale price. Of this, 5 mills per cigarette is distributed to eligible local governments (less administrative fee). Cigarette Tax and Liquor Tax revenue is estimated to increase during FY 2017-18.
- ◇ **Liquor Tax Revenue** – This tax is made up of a tax charged by the content volume and other fees. Liquor tax is estimated to increase due to past trends.
- ◇ **Real Property Transfer Tax (RPPT)** – This tax is \$1.95 per every \$500 of value on real property transfers.
- ◇ **Government Services Tax (GST)** – This tax is collected by the Department of Motor Vehicles and is based on the value of motor vehicle at the time of registration. The fee is 10% of lease charges.

Gaming Revenue is estimated to increase by 12.9% in FY 2017-18, a minimal increase of 1.0% average for the next four years. These revenues are based on licensing of machines, not gaming wins or revenue.

Overall Licenses & Permit revenues will incur a 2.4% decrease in FY 2017-18, and continue to increase at an average rate of 2.0% annually. In FY 14-15 the County went through a revision of the liquor license code increased building activity has led to an increase in building permits, which are projected to continue.

Charges for Service will increase by 0.2%, then remain constant at an increase of 2.0% through FY 2020-21.

Fines and Forfeitures revenue are mostly driven by court operations. Fines and Forfeitures anticipated to remain constant for FY 2017-18 and increase at an average of 1.5% annually for FY 2017 - 2021.

Miscellaneous revenue will increase in 2.5% due to increased investment earnings. Interest revenue is the biggest source of revenue in Miscellaneous revenue.

Transfers in will have an increase of 339.3% due to program cost increase associated with Public Guardian.

Personnel Services expense forecast is based on the adjustment of the County's pay grades and corresponding increases to wages as a result of a COLA implementation. Another factor is labor contracts for the three Douglas County labor groups. The County built in a salary adjustment in anticipation of new agreements which includes a merit increase based on performance. Personnel Services expense is budgeted to increase 0.9% for FY 2017-18.

Services and Supplies expense forecast is based on the State impacts passed down to the County for Rural Child Protective Services. Services and Supplies is estimated to have an average minimal increase of 0.5% annually and 10.0% for FY 2017-18.

Capital Outlay and Projects will see a significant decrease in FY 2017-18 amount to 51.1% due to decrease in planned projects in maintenance. Funding for these projects are via various sources including fund reserves. Additionally, the General Fund budget includes funding for the purchase of vehicles for the Sheriff's Department totaling \$305,000 annually for the County Sheriff's department, accounted for in Capital Outlay/Projects.

Please refer to the Capital Budget section for a detailed break-down.

The General Fund budget also includes contingency of 2.0% and a Fund Balance of 8.4% of operating expense.

Douglas County Budget Policies

Financial Policies

Primary among the responsibilities that Douglas County has to its citizens is the care of public funds and wise management of government finances while providing for the adequate funding of the services desired by the public and the maintenance of public facilities. These financial management policies, designed to ensure the fiscal stability of the Douglas County government, have been designed to provide guidance for the development and administration of the annual operating and capital budgets. These financial policies address revenues, operating budget, capital improvements, and accounting.

Financial Objectives

- ◇ Protect the policy-making ability of the County Commissioners by ensuring that important policy decisions are made proactively and are not dictated by financial problems or emergencies.
- ◇ Enhance the policy-making ability of the County Commissioners by providing accurate information on program costs.
- ◇ Assist sound management of the County by providing accurate and timely information on the County's financial condition.
- ◇ Provide sound principles to guide the important decisions of the County Commissioners and of management which have significant fiscal impact.
- ◇ Set forth operational principles which minimize the cost of government and financial risk.
- ◇ Employ revenue policies that prevent undue or unbalanced reliance on certain revenues, which distribute the costs of government services fairly, and which provide adequate funds to operate desired programs.
- ◇ Provide essential public facilities and maintain the County's infrastructure.
- ◇ Protect and enhance the county's credit rating and prevent default on any debt issue of the County.
- ◇ Insure the legal use of all county funds through a sound system of administrative policies and internal controls .

Achieving Financial Policy Objectives

To achieve and maintain the aforementioned objectives, the Finance Division, at the direction of the County Manager, will conduct an annual analysis of projected financial condition and key financial indicators. This analysis will be presented in the form of regular operating reports, special financial reports, and within the annual Adopted Operating and Capital budget document. This analysis will be reviewed by the County Manager and the County Commissioners prior to and during the budget process.

It is the focus of this analysis to:

- ◇ Identify areas where the County is already reasonably strong in terms of protecting its financial condition;

- ◇ Identify existing or emerging problems in revenue sources, management practices, infrastructure conditions, and future funding needs.
- ◇ Forecast expenditures and revenues for the next 5 years, with consideration given to such external factors as State and Federal actions, economic conditions, and management options based on best practices by other local governments
- ◇ Review management actions taken during the last budget cycle;
- ◇ Review County Commissioner actions taken during the last budget cycle.

Further, the prior year Comprehensive Annual Financial Report, which includes the County's audited financial statements, also serves as a valuable resource to evaluate financial performance.

Revenue Policies

Statements dealing with taxes and the means whereby the County raises revenue to fund operations.

Section 1. Fund Balance

- ◇ To maintain the County's credit rating and meet seasonal cash flow needs, the budget shall target a designated ending fund balance of at least 8.3% of estimated annual operating expenditures for the General Fund and Special Revenue fund types. This designated ending fund balance is not an available resource, and shall be exclusive of all reserves not anticipated to be readily available for use in emergencies and contingencies.
- ◇ For funds other than the General Fund and Special Revenue fund types, the Chief Financial Officer (CFO) shall analyze each fund to determine or verify the appropriate fund balance. The CFO shall take into account cash flow requirements, future capital needs, and significant revenue and expenditure trends as well as reserve policies. The County Commissioners shall amend or approve the recommended appropriate fund balance through adoption of the annual budget.
- ◇ In the event the total fund balance is higher than an appropriate level, the difference may be budgeted for the following types of expenditures and uses:
 - Designated reserves and contingency accounts; see Section 2. Contingency and "Reserves Policy"
 - One-time capital expenditures which do not significantly increase ongoing County costs;
 - Other one-time expenditures such as employee lump sum payments, services, supplies and capital outlay; and
 - Ongoing or new County programs provided such action is considered in the context of Commissioners approved multi-year projections of financially sustainable revenues and expenditures
- ◇ Generally, the fund balance levels are dictated by:
 - Cash flow requirements to support operating expenses;
 - Relative rate stability from year to year for enterprise funds;
 - Susceptibility to emergency or unanticipated expenditure;
 - Credit worthiness and capacity to support debt service requirements;
 - Legal or regulatory requirements affecting revenues, disbursements, and fund balances; and
 - Reliability of outside revenues.

If, at the end of a fiscal year, the fund balance falls below 8.3% of budgeted operating expenditures in the General Fund and Special Revenue fund types, then the County shall develop a plan to restore the fund balance the following fiscal year, but not longer than within the five-year planning period.

Section 2. Contingency

- ◇ As defined in NRS 354.506, a Contingency account is an account showing assets or other resources which have been appropriated to provide for unforeseen expenditures or anticipated expenditures of an uncertain amount.
- ◇ NRS 354.608 places a limit on the maximum amount that may be appropriated for such a contingency account. The limit is 3% of the money otherwise appropriated to the fund, exclusive of any amounts to be transferred to other funds.
- ◇ Therefore, to meet emergency conditions, the budget shall provide for an appropriated contingency of 1.5% to 3.0% of estimated annual operating expenditures. The General Fund and all Special Revenue fund types shall maintain a contingency. The contingency shall also be exclusive of reserves not anticipated to be readily available for use in emergencies or designated for capital expenditures. Any unused contingency shall be carried forward to the next fiscal year to fund that year's contingency requirement.

Where correction of a fund balance deficit causes the contingency to fall below 1.5% of estimated annual operating expenditures, then the County shall develop a plan to restore the fund balance the following fiscal year, but not longer than within the five-year planning period .

Section 3. Sources of Revenue

- ◇ The County will strive to develop and maintain a diversified and stable revenue system to shelter the government from short-run fluctuations in any one revenue source and ensure its ability to provide ongoing services.
- ◇ Restricted revenue shall only be used for the purposes legally permissible. Programs and services funded by restricted revenues will be clearly designated as such.
- ◇ Certain intergovernmental revenues (i.e. State and Federal Grants) shall be used to finance only those capital improvements that are consistent with the capital improvement plan and the County's priorities, and whose ongoing operation and maintenance costs have been included in operating budget forecasts. Intergovernmental revenue or grants that are restricted for specific operating purposes will be expended consistent with those restrictions.

Section 4. Revenue Collection

- ◇ The County shall manage its revenue collections by actively pursuing collection of all revenues owed to the County using best practices in revenue collection methods as well as legal actions as required.

Section 5. Fees-Licenses, Permits & Misc. Items

- ◇ All fees for licenses, permits, fines, and other miscellaneous charges other than Parks & Recreation fees shall be set to recover the county's expense in providing the attendant service. These fees shall be reviewed and reported to the Commissioners on a regular basis. Fees regulated by State law shall be set accordingly.

A Revenue Manual listing all such fees and charges of the County shall be maintained by the Finance Division and updated as needed.

- ◇ Fees for the direct costs of containment and cleanup of hazardous materials will be assessed to the responsible party for all hazardous material responses by the County or EF Fire and Paramedic District.
- ◇ Utility user charges for each of the county utilities will be based on the cost of providing the service (i.e., set to fully support the total direct, indirect, and capital costs) and established so that the operating revenues of each utility are at least equal to its operating expenditures, reserves, debt coverage and annual debt service obligations.
- ◇ Staff shall conduct a comprehensive rate review on a regular basis for water, wastewater and any other utility funds for Commissioners review.
- ◇ The Community Services/Park and Recreation Department will strive to recover costs by generating revenues through special programs, special recreation levies, fees, charges and donations. Fees and charges shall be assessed in an equitable manner in accordance with the Department's Programs and Facilities Manual.
- ◇ The Community Services/Park and Recreation Department shall conduct a regular comprehensive review of rates. The Park and Recreation Commission and the Senior Services Advisory Council shall recommend any alterations or adjustments necessary in specific fees and/or charges to reflect service demand changes, and the ability of users to support the demand.
- ◇ Through an aggressive volunteer recruitment program, the Community Services/Park and Recreation Department shall seek to minimize the subsidy required for partial and minimum fee support programs.
- ◇ Solicitation of funds through donations, fund raising events, non-traditional sources, and various other modes shall be encouraged by the Park and Recreation Commission and the Senior Services Advisory Council. Funds donated for any special purpose shall be earmarked for that purpose.

Section 6. Grants

- ◇ The County shall pursue all grant opportunities; however, before accepting grants, the County will consider the current and future administration, operating requirements and implications of either accepting or rejecting the monies.
- ◇ In reviewing potential awards of grants, the Department Director shall notify the CFO for evaluation of each grant offer and make their recommendation to the County Manager after considering:
 - The amount of the matching funds required and available;
 - In-kind services that are to be provided;
 - Length of grant and consequential disposition of service (i.e., is the County obliged to continue the service after the grant has ended); and
 - The related operating expenses including, administration, record keeping, and auditing expenses
- ◇ The Board of County Commissioners shall approve acceptance of grants. Only grants that have been awarded and accepted by the Board of County Commissioners shall be included in the annual adopted budget. Grants awarded and accepted by the Board of County Commissioners after the adoption of the annual budget may be augmented into the budget by providing notification to Finance.

- ◇ Once the grant has been accepted and approved by the Board of County Commissioners it is the responsibility of the department to ensure:
 - Compliance with grant regulations in accordance to the Office of Management & Budget (OMB) Circular A-133, OMB Circular A-87, and Cost Principles of State, local and Indian Tribal Governments.
 - Copies of all reimbursement requests are sent to Finance
 - Finance is notified of all reimbursement requests including any pending requests for grant expenditures by July 25th for the previous fiscal year ending June 30th in preparation of the "Single Audit".

Section 7. Donations and Bequests

- ◇ Gifts, donations and/or bequests given to the County for the use of any of its departments or divisions and accepted shall be used solely for the purpose intended by the donor. Unrestricted gifts will be expended on the recommendation of the County Manager, Elected Official or related advisory board, if applicable. Gifts of real property or equipment must be approved by the Board of County Commissioners.
- ◇ Gifts and donations will be evaluated to determine what, if any, obligations are to be placed upon the County. Gifts and bequests will be considered as "over and above" basic County appropriations.
- ◇ "Gift Fund" expenditures shall carry the approval of the Elected Official, Department Head, or related advisory board before execution by county staff.
- ◇ Gifts, donations and bequests shall be audited in accordance with County accounting principles.

Section 8. Federal Funds

- ◇ Federal funds shall be actively sought. The county will use these funds to further the applicable stated national program goal. Because Federal funds are not a guaranteed revenue source and are intended for a specific purpose, they will not be relied upon as an alternative source for ongoing operating funds unless specifically approved.
- ◇ Use of one-time Federal funds should generally be designated for one-time expenditures such as capital improvement projects.
- ◇ Use of Federal funds shall not have a negative effect on the General Fund.

Section 9. Transfers

- ◇ To the maximum extent, feasible and appropriate, General Fund transfers to other funds shall be defined as payments intended for the support of specific programs or services. Amounts not needed to support such specific program or service expenses shall revert to the General Fund's fund balance, unless Commissioners direct the transfer to be used for other purposes.
- ◇ Transfers from the General Fund shall be made quarterly throughout the fiscal year, unless cash flow requirements dictate otherwise.
- ◇ Intra-fund and inter-fund transfers shall follow State of Nevada requirements, as outlined in NRS 354.606 and 354.6117.

Operating Budget Policy

Statements dealing the expenditures of the operating budget.

Section 1. Structurally Balanced Budget

- ◇ The County shall maintain a structurally balanced budget, where recurring revenues equal or exceed recurring expenditures. The County shall balance recurring operating expenditures with recurring revenues reasonably expected to continue year to year.
- ◇ Recurring expenditures are operating costs that are funded each year, such as, salaries, benefits, services, supplies and asset maintenance costs. Non-recurring expenditures are one-time costs such as acquisitions or replacements of capital assets.
- ◇ Property taxes are an example of recurring revenue, while a settlement from a lawsuit or certain grants are examples of non-recurring revenue.
- ◇ Revenues that have both recurring and non-recurring components require judgment in determining how much of the source is truly recurring. For example, building permit revenues rise in a period of high growth in the community, but can be volatile as economic conditions change. The County will review its revenue portfolio to identify revenues with potentially volatile components and avoid over reliance on these revenue sources in its budget projections.
- ◇ The County shall maintain reserves at their desired policy levels. Using reserves to balance the budget shall only be considered in the context of a plan to return to structural balance. The plan to return to structural balance must include a specific length of time for replenishing the fund balance and remediating the negative impact of any other short-term balancing actions that may be taken.

Section 2. Pay-As-You-Go

- ◇ The County shall conduct its operations from existing or foreseeable revenue sources. Achieving pay-as-you-go funding requires the following practices: current direct and indirect costs for operations and maintenance will be controlled and will be funded with current revenues. Sound revenue and expenditure forecasts will be prepared annually for all operating funds as part of budget discussions.
- ◇ The County shall prepare a full Cost Allocation & Recovery Plan, compliant with the Federal Office of Management and Budget (OMB) Circular A-87 annually to provide accurate and complete estimates of indirect service costs. The Cost Allocation Plan will be updated annually during budget development.
- ◇ Costs attributable to the mandates of other governmental agencies shall be included in the annual budget.

Section 3. Budget Performance Reporting

- ◇ The CFO shall submit regular operating reports to the County Manager and Board of County Commissioners comparing actual revenues and expenditures with budgeted revenues and expenditures.
- ◇ Where practical, the County shall develop and employ performance measures to be included in the budget.

Section 4. Maintenance, Repair & Replacement Goals

- ◇ As a goal, all equipment replacement and maintenance needs for the next five years will be projected and the projection will be updated each year. A maintenance and replacement schedule based on this projection will be developed and potential funding sources identified.
- ◇ Replacement of capital outlay items shall be planned to increase efficiency and productivity considering the availability of funds. When possible, replacement plans shall be timed at stable intervals so as not to spend excessively in one year and restrictively in the next

Section 5. Maintenance of Capital Assets

- ◇ The budget should provide sufficient funds for the regular repair and maintenance of all Douglas county capital assets. The budget should not be balanced by deferring these expenditures.
- ◇ Future maintenance needs for all new capital facilities will be identified during the Capital Improvement Program process. Significant maintenance and operating cost increases or decreases will be reflected in the five-year financial plan.

Section 6. Personnel Services

- ◇ The County shall strive to pay competitive market rates of salaries, wages and benefits to its employees. The funding of competitive market rates will be balanced against the County's ability to fund short and long-term costs and to maintain quality public services.
- ◇ The County shall periodically conduct a comprehensive total compensation survey of public sector employers as necessary and this survey shall be the basis for determining prevailing market rates.
- ◇ The County's work force, measured in FTE (full time equivalent) shall not fluctuate more than 3% annually without corresponding changes in program service levels or scope.
- ◇ In establishing pay rates, a cost analysis of rate increases will be conducted and shall include the effect of such increases on the County's share of related fringe benefits and unfunded liabilities (including non-salary related benefits).
- ◇ Long-term costs of changes in benefit packages shall be estimated and fully disclosed to the county Commissioners before negotiated labor agreements are affirmed.
- ◇ No new personnel should be included in the base budget.

Section 7. Services & Supplies

- ◇ In developing the annual operating budget, total departmental Services & Supplies budgets are not to increase from the current year's total adopted budget. If an increase in an account appropriation is needed, departments should reduce a subsequent account's budget by the same amount. Requests to increase the total adopted budget above the prior fiscal year's levels are to be made via a memorandum sent to the County Manager outlining and justifying the request.

Section 8. Capital Outlay/Projects

- ◇ Capital asset acquisitions and/or projects are to be budgeted in the Capital Outlay/Projects budget line items and the five-year Capital Improvement Plan as follows:

<u>Asset Type</u>	<u>Threshold</u>	<u>Budget Account #</u>
Land & Improvements	Capitalize All	562-000
Buildings & Improvements	\$50,000	562-000
Infrastructure & Improvements	\$50,000	562-000
Vehicles, Machinery & Equipment	\$10,000	564-500
Assets Paid For With Federal Funds	\$5,000	

- ◇ Asset acquisitions that are capital in nature, but below these thresholds, should be budgeted as follows:

<u>Budget Account Name</u>	<u>Budget Account #</u>
Small Equipment Expense	533-802
Small Projects Expense	533-817

- ◇ Major Repairs and Maintenance of capital assets are defined as outlays that do no more than return a capital asset to its original condition, regardless of the amount, and should be budgeted as follows:

<u>Budget Account Name</u>	<u>Budget Account #</u>
Repairs & Maintenance-Major	532-118

Section 9. Use of Interest on Investment Earnings

- ◇ The amount of interest on investment earnings fluctuates depending on both the interest rate and the amount invested. It is not advisable for the County to rely on this source of revenue to fund ongoing operations given the significant fluctuations in investment earnings. Therefore, the amount of investment earnings that can be budgeted to fund operations for the next fiscal year is limited to the estimated investment earnings that would be generated from the lowest interest rate and lowest investment amount in the preceding five fiscal years by fund. Any amount in excess can only be used to fund one-time purchases or placed in an appropriate reserve account for future one-time purchases.

Section 10. Budget Management

The Budget will be managed in accordance to State of Nevada Local Government Budget Act contained in the Nevada Revised Statutes (NRS 354.470-354.626) and in the Nevada Administrative Code (NAC 354.400-354.600).

Definitions:

- **Budget:** is a plan of financial operation embodying an estimate of proposed expenditures and expenses for a given period and the proposed means of financing them.
- **Budget Functions:** are the following mandatory categories: General Government, Judicial, Public Safety,

Public Works, Sanitation, Health, Welfare, Culture and Recreation, Community Support, Debt Service, Intergovernmental.

- **Budget Augmentation:** is a procedure for increasing appropriations of a fund with the express intent of employing previously unbudgeted resources to carry out the increased appropriations.
 - **Budget Transfer:** is a procedure for transferring budgeted resources within a function, or between functions, funds or contingency accounts.
- ◇ Department Directors and Elected Officials shall manage their budgets responsibly and be accountable for compliance with NRS 354.626, which requires that no governing body or member thereof, officer, office, department or agency within the County may, during any fiscal year, expend or contract to expend any money or incur any liability, or enter into any contract which by its terms involves the expenditure of money, in excess of the amounts appropriated in the budget for that function, with the exception of bond repayments, medium-term obligation repayments and any other long-term contracts expressly authorized by law.”
 - ◇ Budget Augmentations: If anticipated resources actually available during a budget period exceed those estimated, the budget may be augmented. Budget Augmentations to increase the appropriations of a fund when actual resources exceed those previously budgeted must be approved by a resolution of the governing body at a regularly scheduled meeting. Budget augmentations become effective upon filing of the resolution with the Department of Taxation. The Finance Division presents budget augmentations to the governing body for approval three times annually, or as necessary.
 - ◇ Budget Augmentations for Grants-In-Aid, Gifts or Bequests: Budget Augmentation resulting from grants, gifts or bequests previously approved by the governing body may be approved by Department Directors or Elected Officials designated to administer the budget of that function.
 - ◇ Budget Amendments Due to Legislative Action: An amended budget due to legislative actions to increase or decrease the revenues or expenditures of a local government not anticipated in the local government’s final adopted budget, may be filed within 30 days of adjournment of the legislative session with the Department of Taxation.
 - ◇ Budget Transfers Within a Function: Transfers within a Function may be approved by the Department Director or Elected Official designated to administer the budget of that function upon consultation with the Finance Division.
 - ◇ Budget Transfers Between Functions, Funds or Contingency Accounts: Budget transfers between functions, funds or contingency accounts must be approved by the Governing Body via resolution, at a regularly scheduled meeting and recorded in the official minutes of the meeting.
 - ◇ Budget Appropriations: Budget appropriations shall lapse at the end of the fiscal year and shall revert to the available balance of the fund from which appropriated per NRS 354.620. Exceptions include encumbered budget for carryover purchase orders and/or carryover projects.

Capital Improvements Policy

Policies relating to the five year capital improvement programs and special funds necessary to address particular needs of the community

Section 1. Capital Improvement Plan

- ◇ A five-year Capital Improvement Plan (CIP) shall be developed and presented annually by staff to the Commissioners. This plan shall contain all capital improvements from all funds and departments of the county. The first year of the plan shall reflect the next year's capital budget.
- ◇ A high priority shall be placed on repair or replacement of capital assets before such items have deteriorated to the point of becoming hazardous, incur high maintenance costs, are negatively affecting property values, and/or are no longer functionally serving their intended purposes.
- ◇ Capital improvements constructed in the County shall be based on construction standards that minimize construction costs, while assuring that accepted useful life and minimum maintenance costs will result.
- ◇ The five-year Capital Improvement Plan includes the following two separate components, which will be budgeted as outlined in the Operating Budget Policy, Section 8., Capital Outlay/Projects:
 - Capital Asset Acquisitions and Projects
 - Major Repair and Maintenance

Section 2. Intergovernmental Assistance

- ◇ Certain intergovernmental revenue (i.e. State and Federal grants), specifically approved for capital projects by the grantor agency, shall be used to finance only those capital improvements that are consistent with the capital improvement plan and local government priorities, and whose operations and maintenance costs have been included in operating budget forecasts.

Section 3. Operations and Maintenance Impacts

- ◇ As a goal, standards of maintenance to adequately protect the County's capital investments shall be developed and periodically updated. The annual budget should be prepared to meet established maintenance schedules.
- ◇ Future operating budget impacts for new capital facilities will be analyzed as part of considering a proposed capital project, in accordance with State law.

Section 4. Financing

- ◇ Within the limitations of existing law, various funding methods may be used to finance capital improvements and acquisitions, including pay-as-you go funding and debt financing when appropriate. Capital improvement projects proposed for inclusion in the budget will be accompanied by a financing plan utilizing appropriate revenue sources, and in accordance with the County's debt management policies.
- ◇ Upon completion of capital projects, the CFO shall certify any unspent funds from the project. The most restrictive project revenues shall be used first so that unused funds will have the fewest restrictions on future use. Unspent capital project funds, except bond funds, shall be returned to their original source. If there are unspent funds from a bond issue, those monies will be allocated according to stipulations in the bond indenture.
- ◇ Interest earnings from capital improvement financing sources shall be separately accounted for within the capital construction fund and will be allocated to capital projects as a funding source through the CIP process unless otherwise dictated by grant or bond requirements .

Section 5. Capital Improvement Project Management

- ◇ Departments will assign a project manager to each capital project or acquisition within their department.
- ◇ The project manager will participate in a project kick-off meeting with the appropriate County staff, including, but not limited to:
 - Finance
 - Engineering
 - Public Works
 - Community Development
 - Technology Services

Procurement Policy

Policies relating to any procurement of supplies, services and equipment

Section 1. Authority

- ◇ The Nevada Revised Statutes authorizes the Commissioners to “...expend money for any purpose which will provide a substantial benefit to the inhabitants of the County.”
- ◇ The Nevada Revised Statutes assign the responsibility for all procurement actions and the expenditure of such funds to the governing body.
- ◇ The County Manager may, with the approval of the Commissioners, retain such assistants and other employees as are necessary to the proper functioning of his office.
- ◇ Under the Nevada Revised Statutes, the Commissioners may designate “authorized representatives” including the County Manager and such assistants and employees with the authority and responsibility to perform procurement actions.

Section 2. Purchasing Policy and Practice

- ◇ The Douglas County purchasing function is a decentralized operation in which each department is permitted to purchase the goods and services needed to accomplish its mission in accordance with applicable laws, policies and procedures, and requisite approvals.
- ◇ The Board of County Commissioners have delegated to the County Manager, Department Directors and Elected Officials the authority to manage and administer the purchasing function within established guidelines, policies and state law.

Section 3. Review and Approvals

- ◇ The expenditure of funds for procurement will be in accordance with County budget policies and procurement policy #300.19
- ◇ The County Manager may approve purchases and contracts up to \$50,000 if funding has already been

approved within the current year's budget. Procurements in excess of \$50,000 must be approved by the Board of County Commissioners.

- ◇ The Commissioners must approve all leases involving County real property and equipment if lease payments exceed \$50,000 over the term of the lease .

Accounting Policy

Policies relating to the procedures that the County utilizes in accounting for its financial transactions.

Section 1. Accounting System, Standards, and Financial Reporting

- ◇ The County's accounting and reporting system shall demonstrate the following characteristics:
 - Reliability, accuracy, consistency, timeliness, efficiency, responsiveness
 - Be in conformance with all legal requirements.
- ◇ The County's accounting system and its financial reporting practices shall be maintained in such a way to conform to generally accepted accounting principles (GAAP) and with the requirements of the Governmental Accounting Standards Board (GASB).
- ◇ The County shall provide for an independent annual audit of its financial statements, by a qualified Certified Public Accounting firm. Each annual audit must be concluded and the auditor's report submitted to the governing body no later than five months after the close of the fiscal year.
- ◇ The County shall publish the auditor's report together with the financial statements in a Comprehensive Annual Financial Report prepared within the format and guidelines of the Government Finance Officers Association presented in a public meeting of the governing body held not more than thirty days after the report is submitted to it as required in NRS 354.624. The General Purpose Financial Statements shall include but not be limited to:
 - An explanation of the nature of the reporting entity,
 - A management's discussion of the financial results of the activities conducted by the County,
 - Comparison of actual activity to adopted budget,
 - An explanation of the County's fiscal capacity,
 - Disclosure of short and long term liabilities of the County,
 - Capital assets reporting,
 - Cash policies and compliance reporting, and
 - Accounting policies, controls and management responsibilities,
 - Historical financial, statistical and demographic data.

The County's financial statements receive an unqualified opinion from the independent auditors each year.

- ◇ Accounts receivable due to the County shall be recorded in accordance with GAAP and collection of delinquent accounts pursued in accordance with administrative policies.

Section 2. Fund Structure

- ◇ The County shall establish, by Commissioners resolution, and maintain only those funds that are necessary by law and for sound financial administration. Each fund shall be structured and categorized appropriately in a manner consistent with GAAP and GASB standards, to maximize the County's ability to audit, measure and evaluate financial performance.

- ◇ The fund structure will be reviewed annually and recommendations for changes to improve compliance with accounting standards, Commissioners’ policies, financial planning, and resource allocation and service delivery by the CFO will be made to the County Manager as necessary.

Reserve Policy : Existing Reserves
Governmental Funds

Section 1 . Unappropriated Reserve

- ◇ County’s unrestricted fund balance. There is no reserve level established for this account, although it is recommended that these reserves are intended for specific needs, such as planned capital projects.

Funds: General Fund, Special Revenue Funds, Capital Project Funds

Section 2. Board Designated

- ◇ This reserve is located in the capital section of the budget in the line item Board Designated. It is part of the County’s unrestricted fund balance in the General Fund and Special Revenue Funds. Per NAC 354.410, local governments cannot augment a general fund or special revenue fund budget using reserves. Board Designated allows the county to use reserves for specific needs during the year as outlined in the adopted budget.

Funds: General Fund, Special Revenue Funds

Section 3. Interfund Loan Reserve

- ◇ This reserve is to provide cash flow for larger capital projects in the County’s Capital Project and Enterprise funds, until reimbursable funding sources are requested and received. Use of these funds are by resolution for temporary (less than a year) loans approved by the Board of County Commissioners per NRS 354.6118

Funds: General Fund

Section 4. Equipment Reserves

- ◇ These reserves are set aside for future equipment replacement. The types of equipment that these reserves may replace include computer-related hardware and software, telephone systems, radios, appliances, HVAC, pumps, etc.

Funds: Room Tax Fund, 9-1-1 Fund, County Construction

Section 5. Loss Provision Reserves

- ◇ These reserves are for claims in excess of the County’s property and liability coverage and/or uncovered claims and settlements. The recommended level for these reserves is 5 -7 years’ worth of deductible and non-covered claims.

Funds: Risk Management Fund

Section 6. Unemployment Reserves

- ◇ These reserves are to cover the County in the event of a large-scale reduction in force or an excessive amount, and duration, of paid unemployment benefits.

Funds: Risk Management Fund

Section 7. Unfunded Liabilities Reserve

- ◇ These reserves are to cover unfunded liabilities, such as pension and other post-employment benefits. The County shall perform analysis of these unfunded liabilities as necessary to determine the appropriate level of reserve.

Funds: Risk Management Fund

Section 8. Operating Reserve

- ◇ These reserves are established in the County's Internal Service Funds to provide cash flow for operations or to meet decreases in anticipated revenues or increases in service delivery costs.
 - For the Risk Management Fund, operating reserves are established to ensure the continuation of risk management programs
 - For the Self Insurance Dental Fund, operating reserves were established to provide a method to keep rates (i.e. monthly charges for County services) stable between rate studies/increases. Reserves are created when rates (charges) generate revenues in excess of expenses and used when rates (charges) generate revenues less than expenses – thus requiring a rate increase.
 - For the Vehicle Maintenance/Motor Pool Fund, operating reserves are established to ensure that adequate funds are available to ensure the County's fleet of vehicles and equipment are properly maintained and the delivery of County services are not interrupted.

Funds: Risk Management, Self- Insurance Dental, Vehicle Maintenance/Motor Pool Fund

Section 9. Vehicle Replacement Reserves

- ◇ These reserves are established in the County's Vehicle Maintenance/Motor Pool Fund to set aside funding for the replacement of County vehicles. Reserve levels are determined by the planned timing of vehicle replacements with annual charges to funds used to build reserves for future replacement.

Funds: Vehicle Maintenance/Motor Pool Fund

Section 10. Bond Reserves

- ◇ These reserves are comprised of the unspent proceeds of bonds (debt), including related interest earnings. Bond proceeds and the interest earned on these proceeds are maintained in restricted accounts until expended.

Funds: Ad Valorem Capital Projects Fund and other funds when debt is issued

Section 11. Extra-ordinary Maintenance Fund Reserves

- ◇ This reserve is set aside specifically for extraordinary maintenance, repair or improvement of facilities and equipment repairs, maintenance or improvements should not be incurred more than once every five years to maintain operating condition. The Extraordinary Maintenance Fund was established in FY 98-99 under NRS 354-6105.

Funds: Extra-ordinary Maintenance Fund

Section 12. Stabilization Fund Reserves

- ◇ This reserve is set aside only for expenses incurred because of a natural disaster causing severe damage to property or injury to or the death of persons. The balance in this fund may not exceed 10 percent of the expenditures from the general fund for the previous fiscal year. This reserve was established under NRS 354-6115.

Funds: Stabilization Fund

Section 13. Eastside Reserves

- ◇ This reserve is set aside for the development of the eastside of the airport and as a debt service reserve.

Funds: Airport Fund

Section 14. Parts Tires/ Inventory Reserves

- ◇ This reserve represents the value of parts inventory held in stock at the end of the previous fiscal year. A physical inventory count is taken at each fiscal year end and the value of the inventory on hand is adjusted using average cost basis.

Funds: Motor Pool/ Vehicle Maintenance Fund

Debt Management Policy

The objective of Douglas County’s debt management policy is to maintain the County’s ability to incur present and future debt at the most beneficial interest rates in amounts needed for financing the adopted Capital Improvements Program without adversely affecting the County’s ability to finance essential County services.

Section 1. General Policies

- ◇ The County will conduct its debt management functions in a manner designed to maintain or enhance its existing credit ratings. Effective communication will continue with bond-rating agencies concerning the County’s overall financial condition.
- ◇ Debt issuance will be utilized by the County only in those cases where public policy, equity and efficient use of limited resources favor debt over cash financing. Decision criteria considered shall include the following:
 - Debt shall be self-supporting whenever possible. Self-supporting is the use of revenue bonds, special

assessments, or other capital improvement charges. This may include dedicated tax revenue approved by the voters.

- Debt shall be primarily used to finance capital projects with a relatively long life expectancy, i.e., ten (10) years or greater.
 - Debt shall be issued in such a way so that the term of the financing does not exceed the useful life of the asset.
- ◇ Debt issued for water, sewer and other purposes for which operating and capital needs are supported by user fees shall be in the form of revenue bonds secured by the appropriate user fees. User fees shall be adequate to support operating requirements and revenue bond covenants for each purpose (i.e. water user fees support only water and sewer user fees support only sewer).

Section 2. Management

- ◇ It shall be the responsibility of the Chief Financial Officer and his/her staff to maintain all necessary files associated with the issuance of county debt to ensure proper accounting, timely payment of debt service and compliance with debt covenants and continuing disclosure requirements.
- ◇ The Chief Financial Officer shall review the fiscal impact of any new debt with the County Manager before Commissioner action to authorize a project involving the issuance of debt. The fiscal impact review should include, at a minimum, an estimate of the debt service to be required at the time of long-term debt issuance and a calculation showing the impact of this additional cost. The fiscal impact review shall provide information on any projected user fee rate increases in the case of revenue bond financing.

Enterprise Fund Policies

The objective of Douglas County's Enterprise fund policies is to fund and manage enterprise funds within m Douglas County with the full cost (direct and indirect) of providing services supported by each fund.

Section 1. General Policies

- ◇ It shall be the policy of Douglas County to establish enterprise funds for all County owned utilities and, to the extent possible given rate considerations, fully recover all direct and indirect costs under its control through user fees, connection fees and related charges. The goal is for each utility to establish water user rates, connections fees and related charges sufficient to provide for payment of general operations and maintenance expenses, capital improvements, annual depreciation, annual debt service, and to establish and maintain reserves necessary to ensure the financial stability of each fund. The Board may utilize other available funding sources in accordance State law to assist the enterprise funds with operating and capital needs to keep rates at levels deemed acceptable to the Board.
- ◇ Cash reserves are a necessary and appropriate part of prudent utility management practices. The County maintains separate accounting for operating, capital, and other cash reserves, as described below. Reserve levels are established for each type of reserve.

Section 2. Operating Reserve

- ◇ Operating reserves provide a cushion to ensure sufficient working capital to meet daily and periodic expenses. Reserve levels are generally expressed in number of days of cash operating expenses, with the minimum requirement varying with the expected risk of unanticipated needs. The funding level shall be a

minimum of 60 days with a goal of 90 days (25%) of annual O&M expenses.

Section 3. Capital Project Reserve

- ◇ Capital reserves hold capital-related revenues (such as connection charge revenue), and transfers from the operating fund designated for capital construction projects. The capital reserve is intended to mitigate the impact of unanticipated capital costs on rates. The County's goal is to fund the capital reserve at 2.0% of the total (original) cost of utility capital assets.

Section 4. Emergency Reserve

- ◇ Emergency reserves provide funding for minor equipment failures. These reserves are not intended to cover the costs of system-wide failures resulting from catastrophic events; a more common practice is to carry insurance for such purposes. The minimum balance will be \$50,000 with a goal of \$75,000.

Section 5. Debt Proceeds Reserve

- ◇ Debt proceed reserves provide for the unspent proceeds of the debt, including related interest earnings. Debt proceeds and the interest earned on these proceeds will be maintained in restricted accounts until expended.

Section 6. System Replacement Reserve

- ◇ System replacement reserves (annual depreciation) provide for the replacement of aging and failing infrastructure to ensure sustainability of the system for ongoing operations. Consistent with common industry practice, the County uses depreciation expenses as the benchmark for the appropriate level of funding from rates. Annual depreciation is a non-cash expense intended to recognize the consumption of utility assets over their useful lives. Collecting the amount of annual depreciation expense through rates helps to ensure that existing ratepayers pay for the use of the assets serving them (rate equity), with cash flow funding a portion or all of the eventual replacement of those assets.
- ◇ It is not appropriate to use system replacement funds received from existing customers for system expansion. Funds for the expansion of the system should come from contributed capital from new development, connection fees, assessments or other sources so that those benefiting directly from the improvement contribute the funds for its construction.
- ◇ For all existing assets, the County's goal is to fund system replacement at 20% annually until 100% of annual depreciation expense is funded. Annual depreciation funding for new assets will be 100% from the date of system acquisition or acceptance (notice of completion of offer of dedication).

Section 7. Debt Service Coverage

- ◇ The coverage test is based on a commitment made by the County when issuing bonds. Annual coverage equal to or above the debt service payment is a requirement of bond issues and some other long-term debt. Failure to comply with minimum annual coverage requirements can lower the County's bond rating and jeopardize its ability to sell revenue bonds in the future. Higher coverage levels can result in more favorable bond terms.
- ◇ The minimum required coverage factor assuming debt financing through the Nevada State bond Bank is 1.0

- meaning no additional cushion above the level of annual debt service is required. However, the County's goal is to set rates sufficient to maintain a coverage factor of at least 1.23. This practice enhances the County's creditworthiness and improves its financial position should the County ever require debt financing from selling its own revenue bonds, which typically require a factor around 1.25 to 1.35. Excess revenues generated to meet the internal policy can be used to fund capital projects or to help build other under-funded reserves.

Section 8. Rate Making Policy and Procedure

- ◇ Each year in January the Public Works Director and staff shall present a report to the Douglas County Board of County Commissioners detailing the prior fiscal year's actual revenues and expenses in each of the enterprise funds. This report shall address the fiscal condition of the fund and make recommendations to the Board for changes in rates to achieve the stated financial policies. Any rate changes shall be heard at public hearing in February of that year with implementation effective July 1 of the new fiscal year.

Section 9. General Authority

- ◇ Nothing contained within this policy prohibits the Board of County Commissioners from deviating from the County's financial policies and funding goals, as they find reasonably necessary, to address economic conditions as part of any rate-setting process provided, however, any change does not violate state law, existing bond or loan covenants, or generally accepted accounting practices.

County Services

Douglas County provides a variety of services to residents, business and visitors through numerous departments. Most departments are comprised of two or more divisions, which account for particular activities or programs. The section is divided into four categories: Elected Offices, Ninth Judicial District Court, County Commissioner Directed Departments, and County Manager Departments.

The County Services section presents each Department/Division of Douglas County in the following format:

Mission Statement

A brief representation of the Department’s overall goal, ethics and culture.

COUNTY COMMISSIONERS

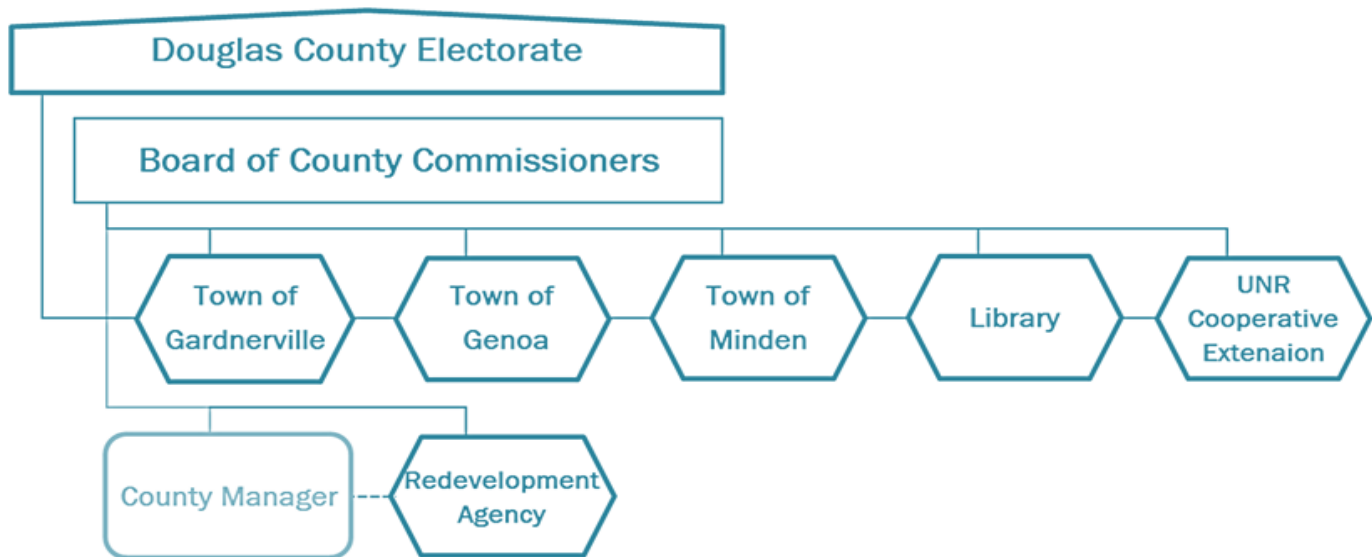

A community to match the scenery!

Douglas County Board Chairman, Barry Penzel

Working together with integrity and accountability, the Douglas County team is dedicated to providing essential and cost-effective public services fostering a safe, healthy, scenic, and vibrant community for the enjoyment of our residents and visitors.

Organization Chart

The Board of Commissioners, the governing body of the County, is comprised of five members who are elected at-large by district to serve four-year, overlapping terms. The five members of the Board reside in different districts throughout the County, but are elected at-large and represent the entire County. The Board establishes policies for the County that are implemented by employees under the direction of the County Manager and those working collaboratively with the Board. In addition to its overall County policy making role, the Board Members also serve on a number of local, regional and statewide boards and committees.

Staffing and Budget

Staff support for the Board is provided by the County Manager’s Office. The General Fund provides full funding for the Board.

- ◇ Re-established weekend urine testing of defendants one day per month which increases offender accountability and requires each DCDAS employee to schedule and participate in pairs

Strategic Objectives

Alternative Sentencing

- ◇ Effectively promote the JustWare management system to each court as an effective system to adequately manage offenders in real time
- ◇ To replace or opt-out of DAS' current contract with Seimen's Laboratories and use Thermo-Fischer as laboratory provider to save money and promote efficiency
- ◇ Research and promote sponsorship for a legislative bill supporting heart/lung benefits for peace officers employed more than five years by local probation departments
- ◇ Officers will flex their weekly schedule to conduct compliance checks during weekends at least one day per month to promote offender compliance and accountability

Annual Goals

Alternative Sentencing

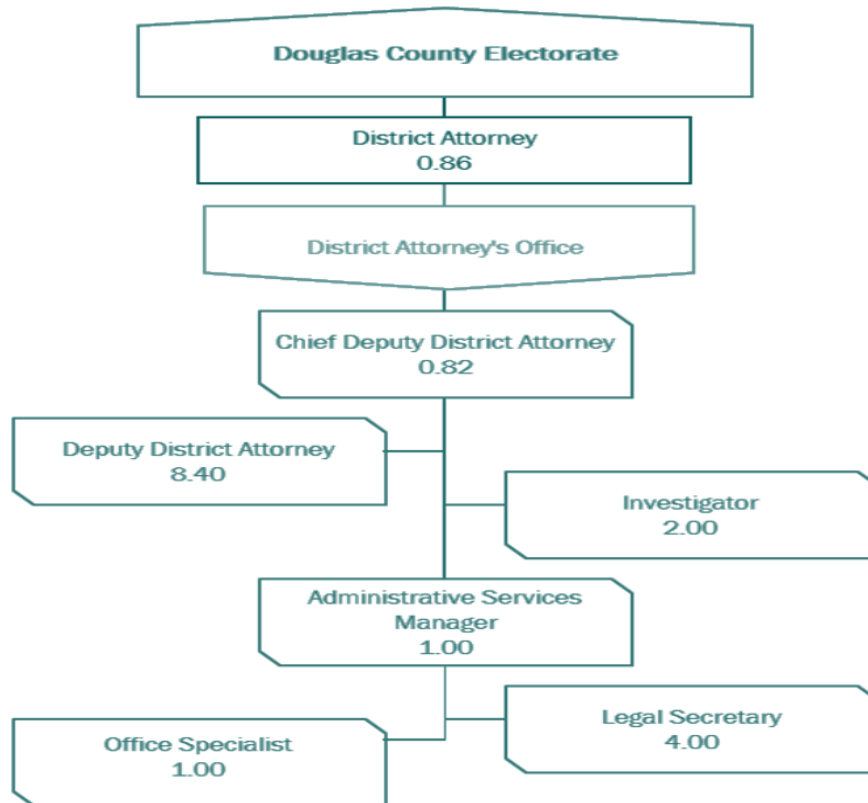

- ◇ Ensure that all field supervision officers are supported with back up at all times while conducting probation compliance checks to enhance officer safety
- ◇ Increase oversight of pretrial and sentenced offenders in the field through efficient scheduling of zone coverage and using swing shifts and working one weekend day each month
- ◇ Explore options for fine or fee remittance for defendants through collection agencies or small claims adjudication
- ◇ Provide training opportunities to enhance officer and support staff methodology to sustain a state-of-the-art skill set

DISTRICT ATTORNEY'S OFFICE

The mission of the District Attorney's office is to pursue justice through the fair and ethical prosecutions of criminal offenders, to seek justice for victims of crime, to create a safer community through positive partnerships with law enforcement and other community members, and to earn and hold the trust and respect of the citizens that we are privileged and honored to serve.

Organization Chart

The District Attorney's office consists of: (1) A Civil Division which provides legal guidance and support for the Board of County Commissioners, elected officials, departments, and boards and commissions pertinent to conducting the business of Douglas County; (2) A Criminal Division which prosecutes felonies, gross misdemeanor and misdemeanor crimes committed within the jurisdictional boundaries of Douglas County, and; (3) An Investigation Division which provides prosecution support to the Deputy District Attorneys assigned to prosecute crimes committed within the jurisdictional boundaries of Douglas County

The District Attorney’s Carson Valley office is located in the Douglas County Judicial and Law Enforcement Building at 1038 Buckeye Road, Minden, Nevada and the Lake Tahoe office is located in the Douglas County Administration Building at 175 Highway 50, Stateline, Nevada.

Staffing and Budget

The District Attorney (DA) is an elected position. Staffing for the DA’s office includes 18.33 full-time equivalent (FTE) staff positions and is funded within the General Fund. There is a decrease in FTE positions from FY 2016-2017 to FY 2017-18 due to the elimination of the Child Support Division as those services are now being provided by the State of Nevada’s Child Support Enforcement Program.

Staffing and Budget

Judge Thomas Perkins and Judge Richard Glasson are the Justice Court Judges for East Fork Justice Court and Tahoe Justice Court, respectively. The Justice Courts are supported by the County’s General Fund. There were no position or FTE changes in the Justice Courts.

In addition to finding from the General Fund, the Justice Courts have three Justice Court Administrative Assessment Funds which provide revenue for facilities and technology. These fees are collected with fines and held in separate capital accounts. The revenues collected for fines, fees and administrative assessments exceed the budget of each court, although a portion is paid to the State of Nevada and other entities as directed by NES to support their operations. Staffing levels have a direct relationship with the ability of the Justice Courts to collect fines, fees and administrative assessments.

NRS 4.020 requires one justice of the peace for each 34,000 population of a township, or fraction thereof. The population of the East Fork Township has exceeded this number for many years, and the caseload is comparable or more than that of townships in adjacent counties with comparable or larger populations. The Justice Courts have taken an aggressive approach toward combining, consolidating and coordinating their operations when possible, and anticipate that this effort will continue so long as the basic statutory and constitutional functions of these courts are not impaired.

PUBLIC ADMINISTRATOR

To provide timely and compassionate care to those individuals as appointed by the Judicial Courts.

Organization Chart

Staffing and Budget

The Public Administrator is an elected official and receives associated County benefits. The pay, as provided for in Nevada Revised Statutes, is a tiered percentage of the estate, when there are funds available. There is a decrease in the FTE count for the Public Administrator department because In January 2016, the Public Administrator and Public Guardian positions were separated and are no longer one position. The Public Guardian now reports to the Board of County Commissioners through the County Manager.

Ninth Judicial District Court

These offices are directed by state elected District Court judges. All offices abide by County policies and budgets are approved by the Board of County Commissioners.

DISTRICT COURTS

COURTS: *Our mission is to provide a fair and impartial system of justice while:*

- ◇ *Providing quality customer service*
- ◇ *Ensuring access to justice*
- ◇ *Supporting the judicial process with pride, honesty and integrity*
- ◇ *Promoting the public trust and confidence in the judicial system*

PUBLIC DEFENDER: *To provide effective representation of indigent persons charged with committing crimes within the jurisdictional boundaries of Douglas County, as mandated by the United States and Nevada Constitutions, statutes and case law.*

The Ninth Judicial District Court (“the Court”) is comprised of two departments with two District Judges, two Judicial Executive Assistants, a Senior Law Clerk and a Law Clerk. The District Court judges, Judge Young and Judge Gregory, are employees of the State of Nevada. Their salaries, benefits and retirement are State funded.

Other Departments that fall under the Court are China Spring Youth Camp/Aurora Pines Girls Facility, Juvenile Probation, Juvenile Detention, Special Master/Arbitration Master, CASA (Court Appointed Special Advocates) and SAFE (Special Advocates for Elders). The Public Defenders’ budget is also under the auspices of the Courts. This budget provides for the County’s four contract attorneys who provide legal services for indigent adult and juvenile offenders in Douglas County.

In addition to providing indigent legal services for adult and juvenile offenders, the Court must provide interpreters for non-English speaking offenders, as well as psychological and substance abuse evaluations, and investigative services for indigent offenders. The Court must also provide legal counsel, interpreters, and psychological and substance abuse evaluations in some non-criminal cases.

The Ninth Judicial District Court, Department I and Department II, preside over all criminal (felony and gross misdemeanors) cases; civil (amounts in controversy in excess of \$15,000) cases; juvenile proceedings; probate matters; guardianship cases; adoptions; UIFSA (child support); paternity; divorce, annulment, custody and other domestic proceedings in Douglas County. The Western Nevada Regional Drug Court and the DUI Court also fall under the purview of the District Courts. The Court also hears appeals from the lower courts and other

Administrative bodies as well as Judicial Reviews of the same. Additionally, the Court presides over the Grand Jury when one is in session.

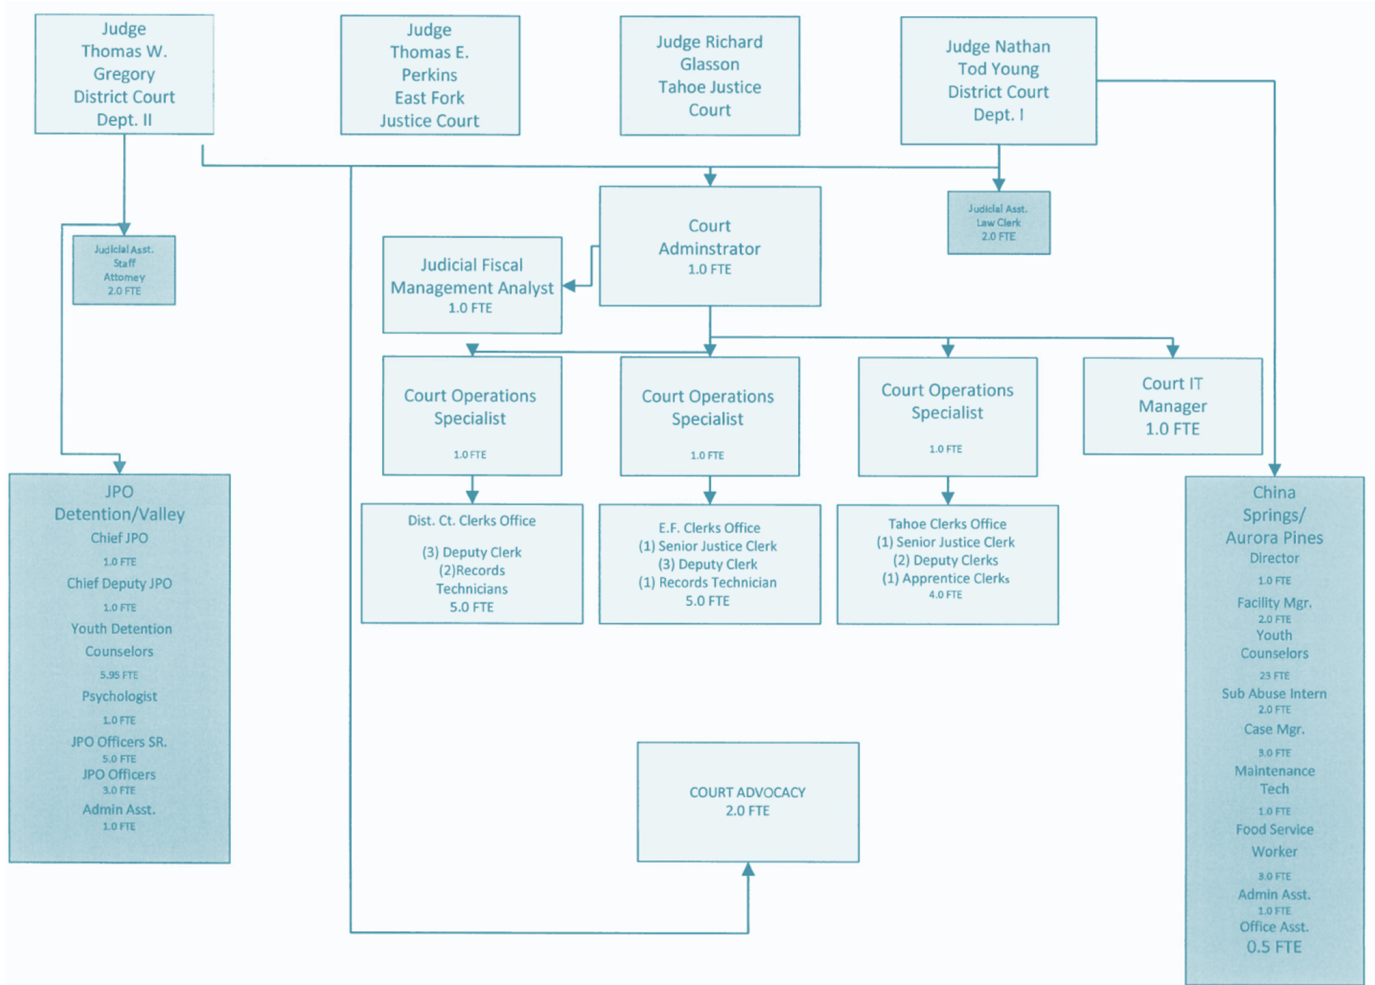

The District Court Clerk's office is supported by the County's General Fund. The Clerk's support two district court departments, Drug and DUI court, the arbitration program, and provide case management for Civil, Probate, Juvenile, Child Support, Paternity, Divorce, Criminal Felony and Gross Misdemeanor, and Adoption cases filed in the Ninth Judicial District Court. The Clerk's office is responsible for jury management, records retention, case management, document imaging and clerking of hearings and trials for the District Court Judges of Douglas County. They currently manage 4,347 active open cases, are actively scanning cases from 1933 to the present and maintain all cases ever filed in Douglas County.

The Public Defender program is responsible for the representation of indigent adults charged with committing misdemeanor, gross misdemeanor and felony offenses within the jurisdictional boundaries of Douglas County. This includes providing representation to juveniles alleged to be delinquent or in need of supervision where the Court orders the appointment of an attorney in accord with NRS 62D.030. In addition, representation is provided for a child, parent or other person responsible for a child's welfare when that parent or other person is alleged to have abused or neglected that child and the Court orders the appointment of an attorney pursuant to NRS 432B.420. The appointed attorney represents indigent defendants in the Ninth Judicial District Courts, the East Fork Township Justice Court and the Tahoe Township Justice Court. If the presiding judge determines a defendant is able to pay for part of his/her defense, the defendant is assessed an amount to reimburse the County for providing representation.

When representing an indigent person, the attorney's duties include, but are not limited to:

- ◇ Counseling and defending the person at every stage of the proceedings, including revocation of probation or parole;
- ◇ Conducting interviews;
- ◇ Performing or supervising the performance of necessary investigations;
- ◇ Conducting necessary preparation;
- ◇ Appearing at all Court hearings concerning the assigned matter including, but not limited to, detention hearings, preliminary hearings, arraignments, pre-trial writ or motion hearings, trials and sentencing hearings as required to provide a full professional defense of the matter, and;
- ◇ Representing the indigent person in the assigned matter on any appeal to the Ninth Judicial District Court or Nevada Supreme Court whether based upon a preliminary matter or final judgment subject to the limitations of NRS 180.060(4).

Organization Chart

The District Court Clerks Office is located at 1038 Buckeye Road, Minden NV. Filing office hours are Monday through Friday 8:00 a.m. – 5:00 p.m.

Staffing and Budget

Judge Tod Young and Judge Thomas Gregory are state elected to serve as District Court Judges. The State of Nevada pays the salaries of the two District Court Judges. Their staff is paid by Douglas County.

District Court I has a staff consisting of 2 employees, including a Judicial Executive Assistant and a Senior Law Clerk for a total of 2.00 FTE. District Court II has a staff consisting of 2 employees, including a Judicial Executive Assistant and a Law Clerk for a total of 2.00 FTE. In FY 17-18, the Courts recently developed the Court Appointed Advocates division to include both CASA and SAFE programs as one division, which involved a reclassification of staff to two full time position and contract services and resulted in an additional 0.25 FTE increase within the Court Appointed Advocates’ Division.

The Public Defender program is provided on a contractual basis by four private attorneys pursuant to the provisions of Chapter 260 of the Nevada Revised Statutes. The Public Defender program also utilizes conflict attorneys. Cases are assigned to the contracting attorneys on a rotating basis. The Board of County Commissioners awards public defender contracts based on recommendations from the District Court Judges and the District Attorney’s Office. The FY 17-18 budget is supported entirely by the General Fund.

JUVENILE PROBATION & JUVENILE DETENTION SERVICES

Under the jurisdiction of the Ninth Judicial District Court the Douglas County Juvenile Probation Department commits to the prevention and treatment of delinquent behaviors with a strong emphasis on community protection and the needs of youth and families. The mission of the Douglas County Juvenile Detention Facility is to provide a safe and secure temporary holding facility for youth adjudicated, pending adjudication/disposition, or Court ordered within the Juvenile Court. Policy ensures the appropriate detention of youth in a secure setting in compliance with Nevada Revised Statute and the state wide Juvenile Detention Alternative Initiative.

Outdoor intervention / wilderness program

The outdoor intervention/wilderness program of the Juvenile Services division has been an imperative program in helping prevent and treat juvenile delinquent behavior for 30 years. JPO uses the natural surroundings of the Carson Valley and the Sierra Nevada Mountain range as a catalyst for behavior change in addition to providing meaningful, community service assignments.

Juvenile Probation Officers serve the court by:

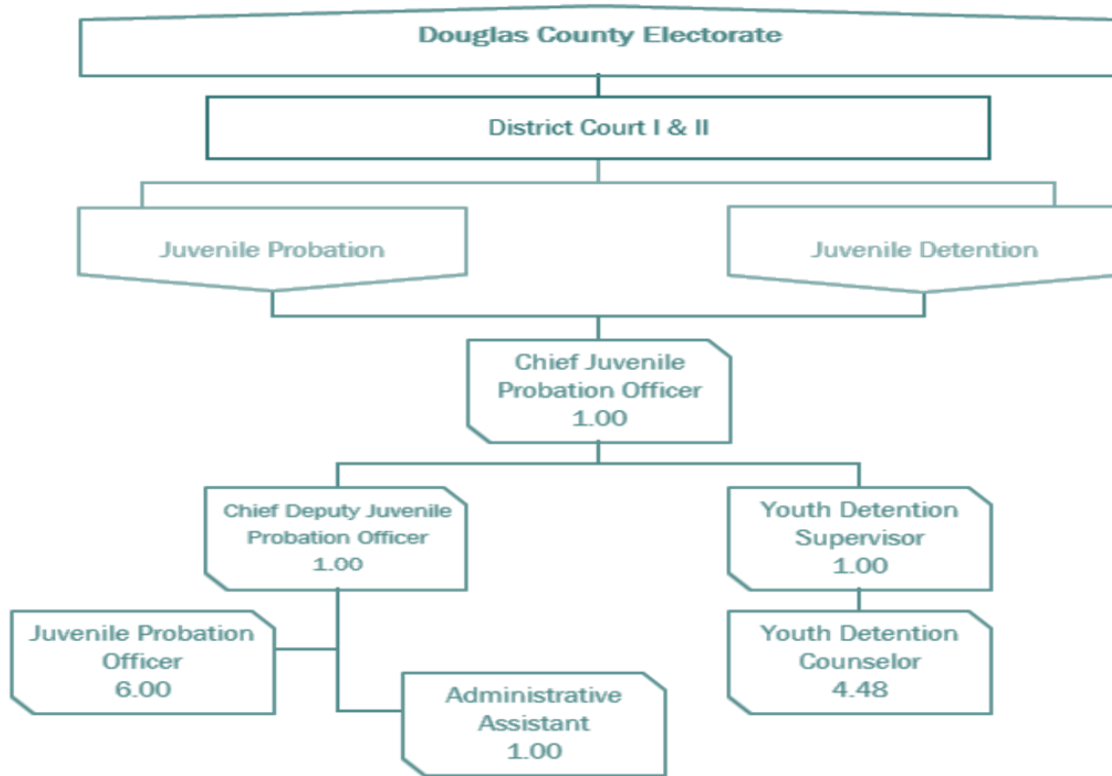

- ◇ Assessing offenders for appropriate levels of supervision.
- ◇ To providing multiple opportunity for offenders to develop skills and competencies.
- ◇ Supporting victim's rights.
- ◇ Providing structure and accountability to the delinquent caseload.
- ◇ Coordinating Referral services.
- ◇ Reintegrating youth into their community.
- ◇ Providing the necessary level of intervention to protect the community.
- ◇ Enforcing all court-ordered sanctions.

The juvenile probation department delivers a strength based accountability driven probation system while offering support and assistance to youth and families at any level of concern

Juvenile detention is a public safety service involving 24 hour supervision of juvenile detainees in a secure detention environment. Other services provided through the juvenile detention system include:

- ◇ Acute Mental Health Intervention
- ◇ Life Skills
- ◇ Physical Education
- ◇ School
- ◇ Visitation

County Commissioners

Directed Departments

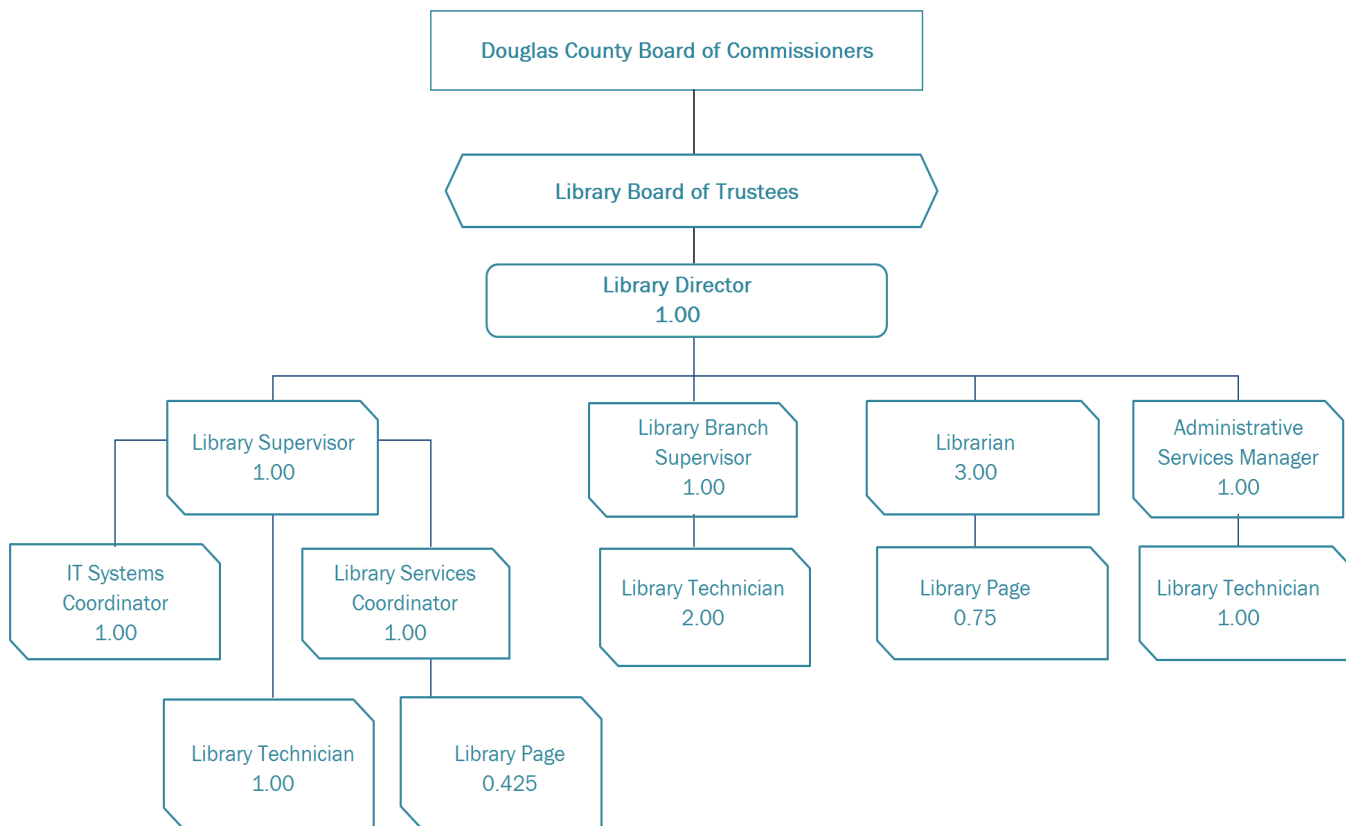

The departments here are directed jointly by the Board of County Commissioners and the County Manager. The Board of County Commissioners serve as the Governing Body over the departments included in this section, with the exception of the Library. The Library Board of Trustees, appointed by the Board of County Commissioners, is the governing authority for the Douglas County Library.

DOUGLAS COUNTY PUBLIC LIBRARY

To provide a wide range of library materials, services, and programs to meet the informational, recreational, and cultural needs of the residents of Douglas County.

Organization Chart

The Douglas County Public Library (DCPL) consists of the main library in Minden, the Lake Tahoe Branch Library at Zephyr Cove, a Satellite Library at China Spring Youth Camp, dormitory and classroom collections at China Spring Youth Camp and Aurora Pines Girls Facility, and a reading and reference library at the Lake Tahoe Juvenile Detention Facility. The main library handles administration, acquisitions, cataloging and fiscal

management. Services such as children’s programs, teen activities, adult programs, meeting rooms, and Interlibrary Loan are offered at both the main library and the branch library. Reduced public hours are in place due to budget shortfalls that went into effect July 1, 2008. Public hours are 50 hours per week in Minden and 32 hours per week at Lake Tahoe. The Library owns approximately 140,000 items: books, magazines, newspapers, DVDs, books on CD and MP3, microforms, and downloadable media. The Library owns 3.03 items per capita, which is below the national average of 3.97 items per capita, and above the Nevada average of 2.17 items per capita. For library materials, the Library spends approximately 70% of the national average per capita. Subsequent to budget reductions of FY08-09, library staffing levels are the same as 1988 levels.

Public Services

The Library offers an extensive range of services, materials, programs, and technology at both public facilities, including reference and referral in person, by telephone and by email to assist residents in accessing information required; free meeting room space to community organizations; programs for children, youth and adults; downloadable eBooks, eAudiobooks, eMagazines, and music; delivery of materials to homebound residents; borrowing materials not available locally; exhibit and display space for community announcements, art, and displays; orientation sessions for students and other youth groups; a variety of electronic databases accessible from the library, school, home or work; public-use typewriters and computers and printers for word processing and desktop publishing; public access to the Internet; wireless connectivity and wireless printing; individual instruction in Internet searching, email, and mobile technology; services for jobseekers; technology for patrons with visual disabilities.

Technical Services

The library staff perform a number of support operations that provide further service to the public, including selecting and acquiring of new materials, many of which are suggested by the public; cataloging and processing of materials so that materials may be identified using the online catalog and then located on the shelves; recovery of overdue materials to protect the taxpayers’ investment in materials; and ongoing collection evaluation to ensure that materials provided are relevant to the needs of the community.

County Manager Departments

The departments included in this section are under the authority of the County Manager. The County Manager adheres to the policy direction provided by the Board of County Commissioners in the administration of these departments.

COUNTY MANAGER DEPARTMENT

The County Manager Department strives to provide quality service to the members of our community, leadership and coordination in the development of our County, and management excellence in the County's financial health, capital projects, and human resources.

COUNTY MANAGER'S OFFICE: The County Manager's Office creates opportunities for employees to enhance their knowledge and abilities; to be proactive in meeting community needs; to be problem solvers; to be innovative; to exemplify excellence in professional standards and achievements; and to demonstrate a commitment to the values of public service. The success of Douglas County is vested in employee accomplishments, directed and supported by effective leadership and vision. Together, we create a better future by transforming vision into reality.

ECONOMIC VITALITY: The Economic Vitality Division is responsible for implementation of the Economic Vitality Strategy and Action Plan and working with new and existing businesses to connect them to needed economic development services and resources.

FINANCE: To provide professional accounting financial reporting and to promote operational efficiencies in accordance with prescribed law, Commissioner policy and prudent financial management. To provide quality financial-related services to internal and external customers in order to enhance the effectiveness and fiscal integrity of all County services and programs.

GENERAL SERVICES: To provide quality service and necessary equipment for all Douglas County divisions to function efficiently.

HUMAN RESOURCES: To provide quality services and support in employment, training, employee relations, performance management, benefits, compensation and safety beyond the expectations of all employees, enabling them to better serve our external customers, the citizens of Douglas County. It is our mission to develop a culture of teamwork and quality in our day-to-day operations, create an atmosphere which fosters employee engagement, challenges, fun and safety, to increase participation in county activities while seeking knowledge, enthusiasm, and an improved quality of life for ourselves, co-workers and the community, and to commit to acting openly, equitably and consistently in our pursuit of uncompromising quality.

PROJECT MANAGEMENT: To provide effective project management through proven and effective methods to maximize resources and ensure successful project delivery.

PUBLIC GUARDIAN: To provide timely and compassionate care to those individuals as appointed by the Judicial Courts.

Overview

The County Manager's Office oversees the General Services Division, which provides countywide mail services. This includes mail pick-up and delivery, maintenance of equipment and supplies used by multiple departments, including the postage scale and meter, and facsimile machines. Countywide printing, postage and county memberships are also provided through General Services.

The Human Resources Manager oversees major components of the County's Self Insurance and Risk Management programs, including Worker's Compensation administration, return to work program, and policies and procedures. Various positions within the Human Resources Division as well as the County Manager and Chief Deputy District Attorney are paid with the Self Insurance and Risk Management programs budget.

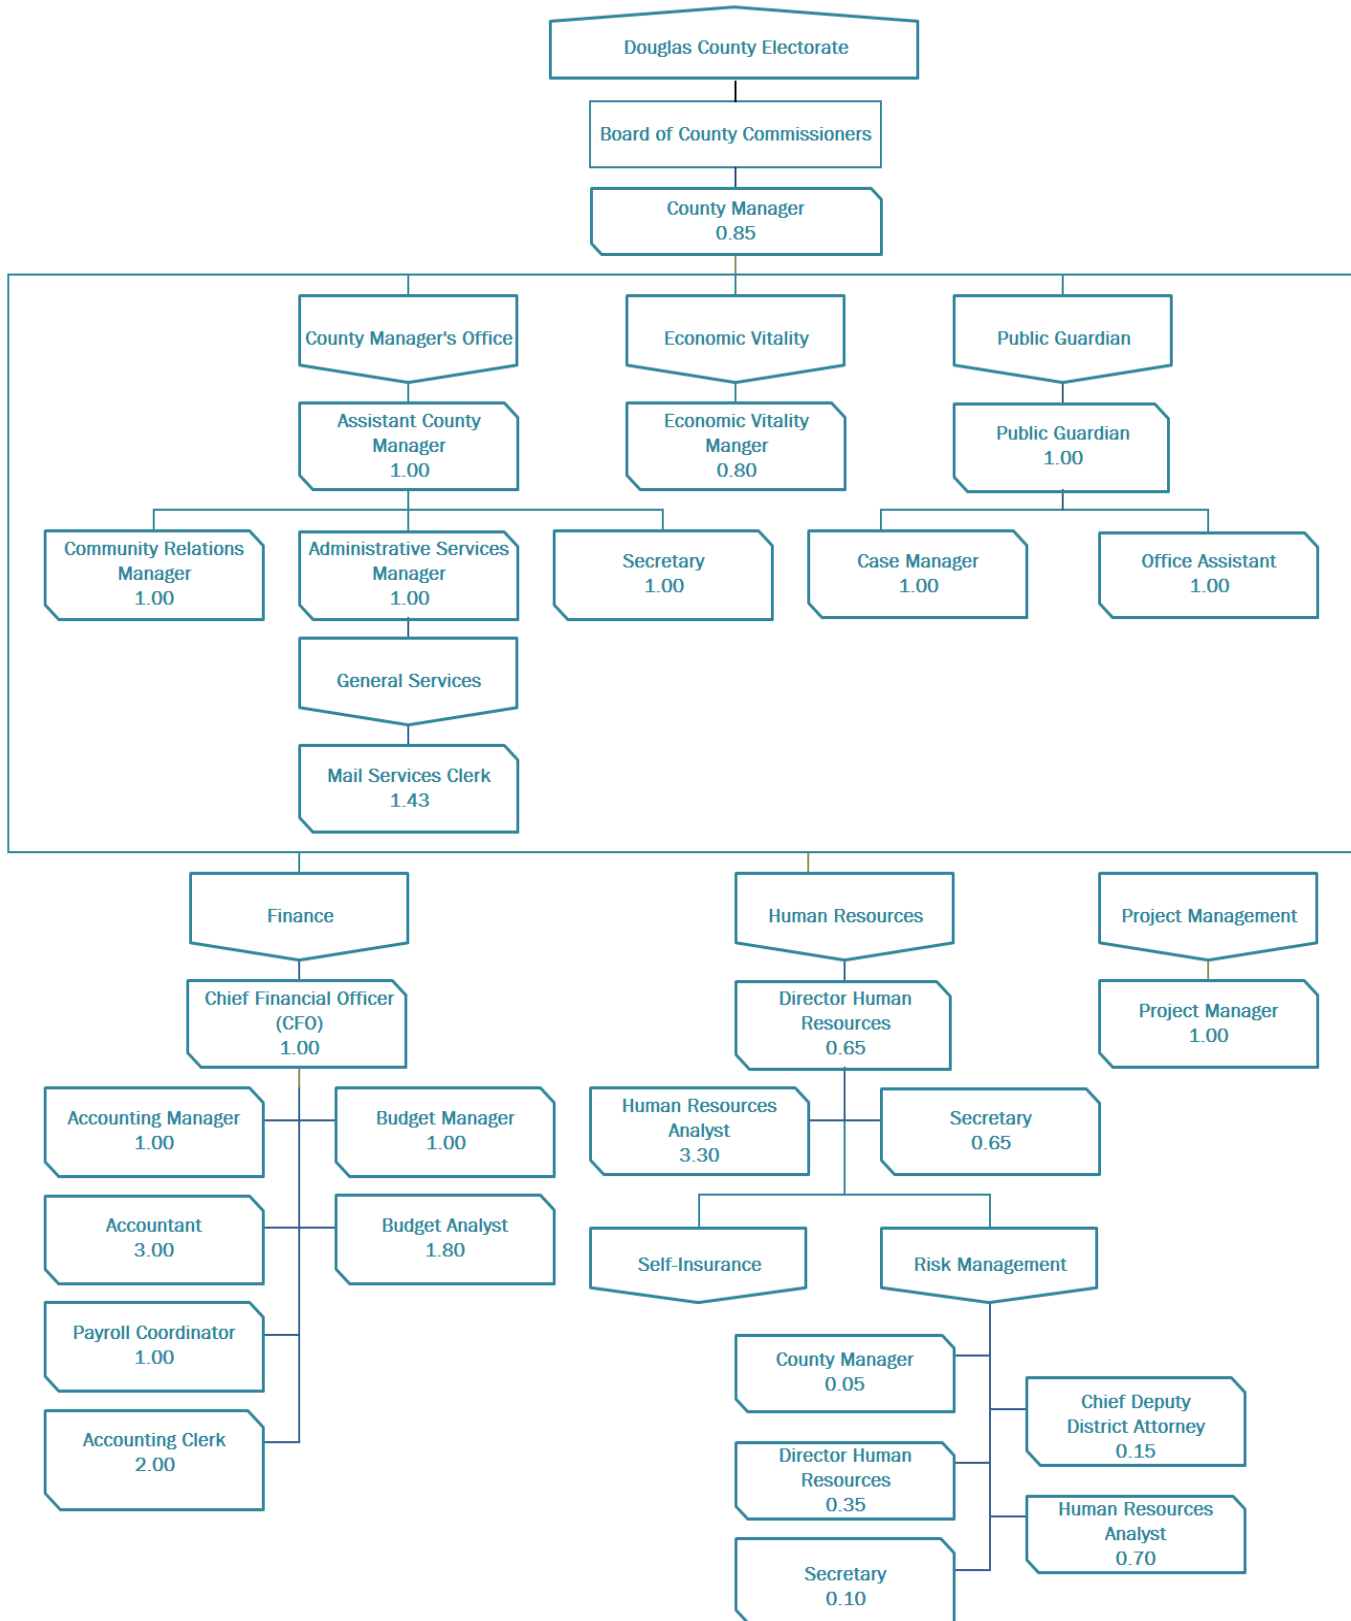

The Economic Vitality Division was established 2010, strives to "Create a Community to Match the Scenery" by implementing 8 priority projects. All projects are accomplished by public/private/non-profit teams, and led by mostly private sector champions.

Program work is focused in three areas: Creating Distinctive Downtowns, Capitalizing on Outdoor Recreation and Developing a Thriving Climate for Business & Learning.

The County started the in house project management in 1999. Since 2011 The County has utilized project management by requesting assistance from the School District. In July 2015 the County rehired the Project Manager. The rehire was evidence that the need for project management exists. Project management enables the County the ability to deliver projects in the most efficient way and provides representation to protect the County and maximize resources. The County has entered into Cooperative Agreements with the School District and the East Fork Swimming Pool District to utilize the County Project Manager. This shared use re-allocates the cost of the work providing the County a more efficient method in providing Project Management.

The Public Guardian Division is appointed by the Board of Commissioners. The In FY2015-16 the role of Public Guardian and Public Administrator were separated. This process was made possible at the request of the Public Guardian and through Priority Based Budgeting.

911 EMERGENCY SERVICES

*An Accredited Center of Excellence from the International Academy of Emergency Dispatch (IAED)
Since April 2015*

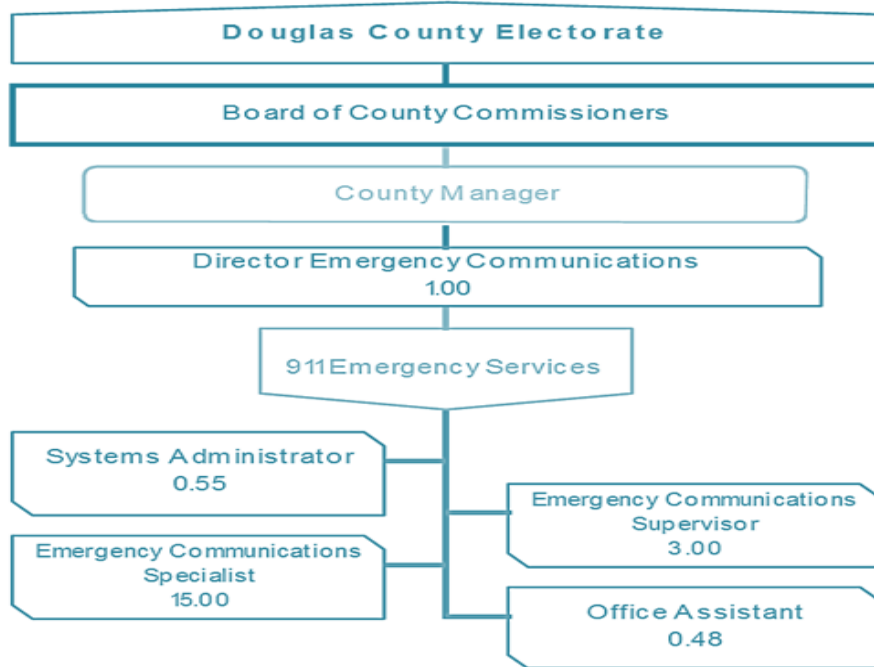

911 Emergency Services, first to respond, first on scene. To continually strive to provide and ensure professional services with equality, respect and dignity. Our standard is excellence and our model of success is teamwork.

9-1-1 Emergency Services is the Public Safety Answering Point (PSAP) for Douglas County Nevada and Alpine County California. The department is a direct reporting unit to the Douglas County Manager. We are a consolidated regional Emergency Communications Center responsible for answering and processing emergency and non-emergency calls for service for eight primary agencies which are:

- ◇ Alpine County Sheriff's Office
- ◇ Bear Valley Public Safety
- ◇ Eastern Alpine Fire/Rescue
- ◇ East Fork Fire & Paramedic Districts
- ◇ Douglas County Sheriff's Office
- ◇ Kirkwood Public Utility District (Fire)
- ◇ Tahoe Douglas Fire Protection District
- ◇ Washoe Tribe Police Department

Organization Chart

The 911 Emergency Services Department consists of one department which provides for answering and processing 911 and non-emergency calls for service and radio dispatching those calls to law enforcement, fire, and Emergency Medical Services. 9-1-1 Emergency Services is also the after-hours contact for all county residents reporting a water or sewer emergency.

The Emergency Operations are a 24 hour a day division.

Staffing and Budget

The 911 Emergency Services Department has a total of 20.03 FTE, with no position of FTE change for FY 17-18. The department is funded partially by a four and three quarter cents (\$.0475) property tax and user fees assessed against Douglas County Sheriff’s Office, Alpine County California, Washoe Tribal Police, East Fork Fire Protection District and Tahoe Douglas Fire District. The E-911 system is funded partially by a .25 cent surcharge on land-based access lines to the local exchange and a \$2.50 surcharge on trunk lines to the local exchange per month, a .25 cent surcharge for each telephone number assigned to a customer by a supplier of mobile telephone service per month.

Major Accomplishments

- ◇ Identified by DHHS Grants Management Unit as exemplifying best practices for a rural agency and recommended for a site visit by DPBH Deputy Directors.
- ◇ Rebranding of social services to expand beyond low income to providing education and case planning to the community at large and affiliate agencies via multidisciplinary team model.
- ◇ Successfully transitioned administration of Community Health Clinic to Douglas County and steadily resumed revenues generated by the program.
- ◇ Successfully opened the Adult Day Club with enrollment now up to 14 total and average attendance between 6-8 per day.
- ◇ Represented NV Association of County Human Service Administrators in negotiating state mandated interlocal contracts for Developmental Services, Elder Protective Services.

Strategic Objectives

- ◇ Provide assistance and direction to all clients who present for help as mandated by NRS and Douglas County policy.
- ◇ Develop direct services and programs that improve self-sufficiency of low income residents.
- ◇ Meet all grantor requirements by implementing targeted case management practices.
- ◇ Mitigate high cost medical expenses by administering a community health program, adult day club, and

participating in community efforts to decrease emergency room dependence.

- ◇ Monitor programs legislatively transferred from the State to the County in the most fiscally and programmatically prudent manner.

Annual Goals

- ◇ Research and explore all reasonable grant opportunities for the expanded department. Perform within all grant guidelines and successfully pass all audits.
- ◇ Increase responsiveness to frail, homebound, disabled, at risk individuals referred by outside entities for intervention. Maintain adult mutli-disciplinary team model.
- ◇ Scrutinize applications and associated reports for all programs legislatively mandated to the counties from the State. Confirm compliance on all programs.
- ◇ Build the Community Health Nurse clinic services to expand beyond Family Planning.
- ◇ Utilize the Board of Health as an educational opportunity and oversight body for healthcare provisions in the county.

MINDEN-TAHOE AIRPORT

The Minden-Tahoe Airport provides high quality airport services and facilities to support safe, efficient, aeronautical services consistent with the rural character of the community. We focus on maintaining a self-sustaining Airport that enhances economic growth through innovative approaches and proven industry standards

Organization Chart

The Minden-Tahoe Airport is a premiere general aviation community airport that supports a wide variety of aviation activities, including small aircraft and sport aviation. The Airport represents an important part of our community’s economic vitality, outdoor recreation focus and emergency service needs. The Airport is home to 22 businesses, of which 21 are aviation-oriented commercial operators. The Airport maintains more than 160 T-hangar tenants and 124 land leaseholders, as well as 422 based aircraft (103 of which are gliders). Major aviation services offered directly by the County include Airport land leases, hangar space rental, and tie-down rental.

Staffing and Budget

Airport contract staff consists of the Airport Manager, an Airport Operations Specialist, an Office Manager and three Maintenance Technicians. All Airport employees work for ABS Aviation Management (ABS). ABS was awarded a management contract for the Airport in February 2010, that resulted in more than \$50,000 in cost savings to the Airport. The Airport operating budget is derived from revenue that it generates from leases, tie-down fees, T-hangar rentals and land leases. The Airport also receives Federal grants that funded 93.75% of the cost of important airport improvement capital projects, with the remaining 6.25% matched with Airport funds. No part of the Airport budget comes from the County’s General Fund.

The airport fund for FY 2017-18 is \$1,264,149, an increase of 15.5% from prior year. The airport fund does not have any FTE allocation as all staff for the department are contract staff.

Major Accomplishments

- ◇ Installed an 8 mile fence around the entire 1000 acres of the Airport. Including eight automated gates and 15 secure access gates. The first time in 75 years of County ownership that the airport was completely fenced.

- ◇ Replaced antiquated electrical wiring that was more than 40-years old that serves airfield lighting.
- ◇ Completely refurbished the equipment in the main electrical vault providing for a significant safety improvement.
- ◇ Installed all new High Intensity Runway Lights (HIRL) on the primary runway.
- ◇ Conducted three separate youth programs. These programs introduce the youth to aviation careers and emphasize the importance of education.

Strategic Objectives

- ◇ Major step forward in preparing the Airport East side for development. Through the public bid process selected a contractor to install the basic utilities needed for growth and expansion of airport structures which will further the ability of the airport to remain financially self-sustaining.
- ◇ The Aviation Roundup is scheduled as an odd year event. This event is well received by the community and brings national and international accolades to the region.
- ◇ Maintain a strong economic position while providing the County with an airport that supports various protections to our residents through aeronautical activities to include firefighting.
- ◇ Remain a partner and asset for economic vitality.
- ◇ Continue our efforts to diversify revenue sources.

Annual Goals

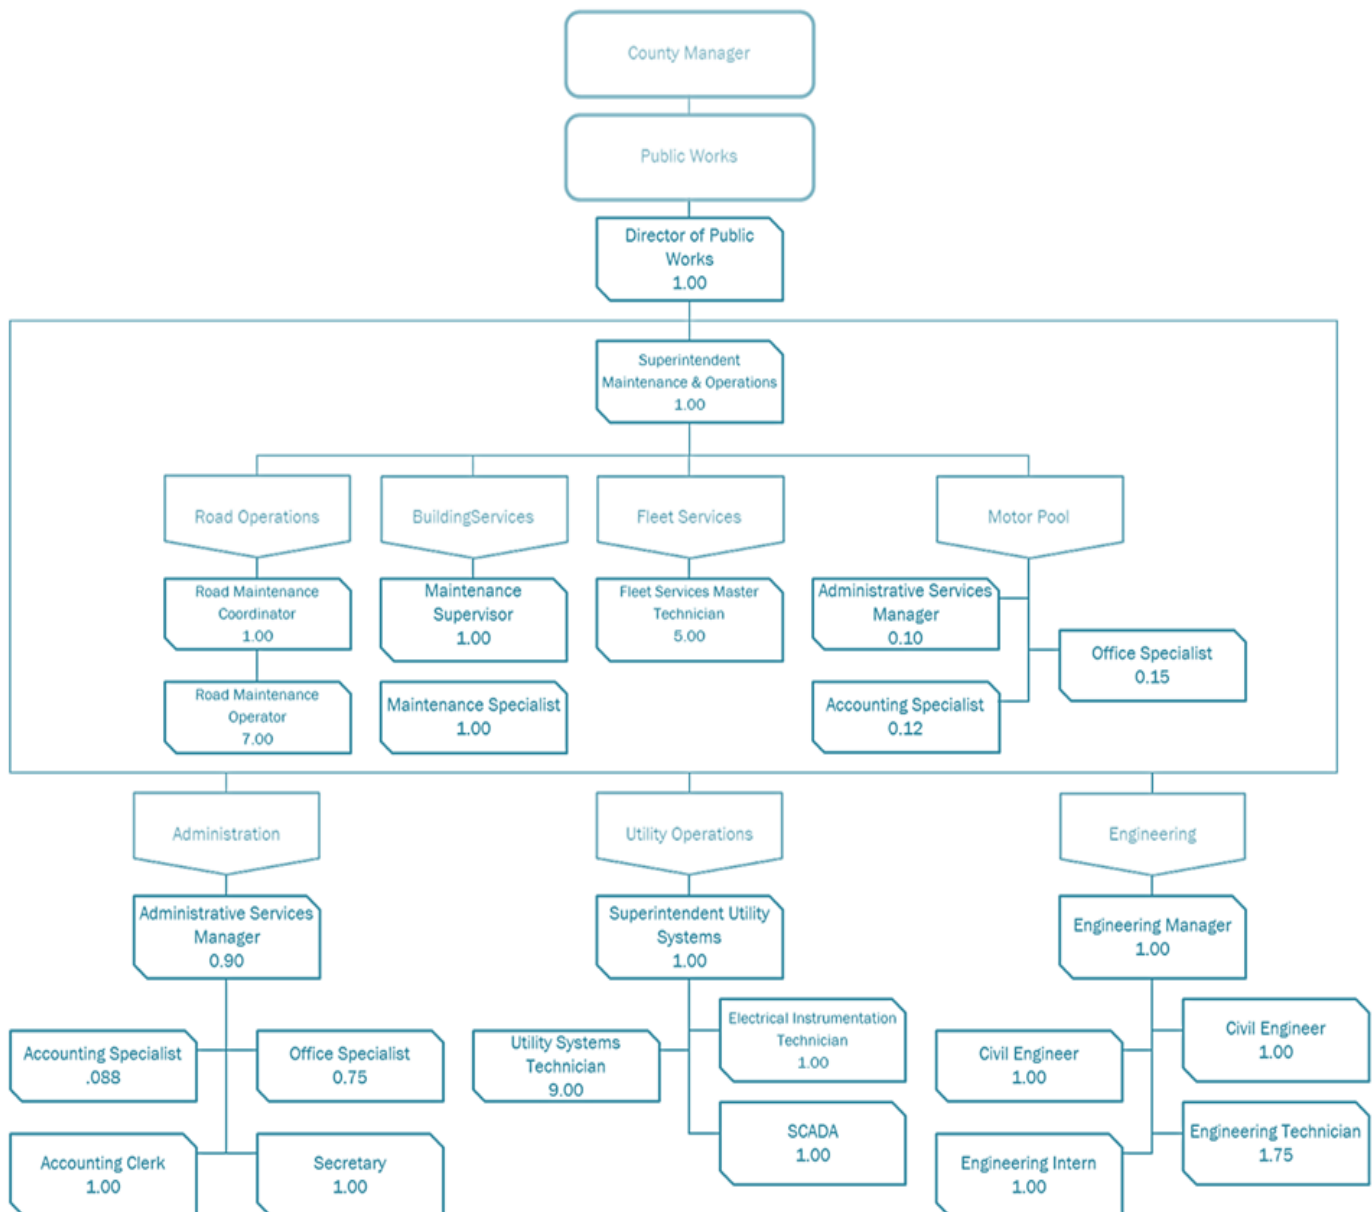

- ◇ Maximize our ability to obtain grants.
- ◇ Continue to identify and coordinate our various special events with a focus on area youth and community good will.
- ◇ Build on our success of new private and commercial developments through land leases and hangar rentals.
- ◇ Maintain and improve airport infrastructure.
- ◇ Continue to improve our efforts to be a good community asset through interaction and presentations at various local organizations and social organizations.

PUBLIC WORKS

To provide the highest quality public health, safety, and welfare to our residents.

Organization Chart

Public Works consists of the following divisions: Administration, Engineering, Building/Fleet Services, Utilities, and Road Maintenance. This Department was created in February 2008 as a result of a reorganization of Community Development and other miscellaneous departments. The Department contributes to the health, well-being, and convenience of citizens, visitors, business, and industry by operating and maintaining public roads, water, wastewater, and drainage facilities for long-term service. The Department also provides efficient and high quality maintenance in the areas of fleet services and County buildings.

Services Include:

- ◇ Building Services ◇ Engineering ◇ Fleet / Motor Pool
- ◇ Road Maintenance ◇ Sewer Utility ◇ Solid Waste
- ◇ Storm Water Management ◇ Water Utility ◇ Wellhead Protection

The Department is led by the Public Works Director who reports to the County Manager. Administrative staff provides technical, accounting, and clerical support for the various divisions. Engineering staff provide design, public facilities planning, contract administration, and construction management services for Public Works capital projects. Staff salaries and benefits are distributed throughout the various divisions and funds.

Staffing and Budget

The Public Works Department is funded within the following funds: General Fund, Carson Valley Water Utility Fund, Lake Tahoe Water Utility Fund, Motor Pool/Vehicle Maintenance Fund, Regional Water Fund, Regional Transportation Fund, Road Operating Fund, Sewer Utility Fund, Solid Waste Management Fund, Douglas County Water District, Tahoe-Douglas Transportation District Fund, and Ridgeview Water Fund. There is a 0.73 FTE change within the Public Works departments for the 2017-18 fiscal year due to the addition of an Engineering Technician.

TECHNOLOGY SERVICES

The Douglas County Technology Services Department is dedicated to being a leader in providing innovative, high quality and responsive technology services that meet the business needs of Douglas County departments and residents.

GEOGRAPHIC INFORMATION SYSTEMS & CUSTOMER SERVICE: The Douglas County GIS & IT Customer Service Division is dedicated to providing responsive customer solutions to its GIS customers and IT customers Countywide .

INFRASTRUCTURE & OPERATIONS: The Douglas County Infrastructure & Operations Department is dedicated provide pro-active, responsive, and high quality information technology services that meet the business needs of Douglas County .

TELECOMMUNICATIONS: The Douglas County Telecommunications Division is dedicated to providing professional, high quality and responsive communications services to Public Safety agencies and County departments .

The Technology Services Department (TSD) serves as the County’s primary resource for technology guidance and is responsible for the planning, development, coordination, and support of the county’s use of information technologies and enterprise data systems. It is comprised of two divisions;

- ◇ Geographic Information Systems (GIS) and IT Customer Service
- ◇ Operations and Infrastructure

The primary function of these two divisions is to provide internal technical support to County departments, elected officials, and partnering entities. TSD staff consults with personnel in these departments to ensure County technology needs are effectively identified, clearly understood, properly prioritized, and efficiently

implemented and maintained moving forward.

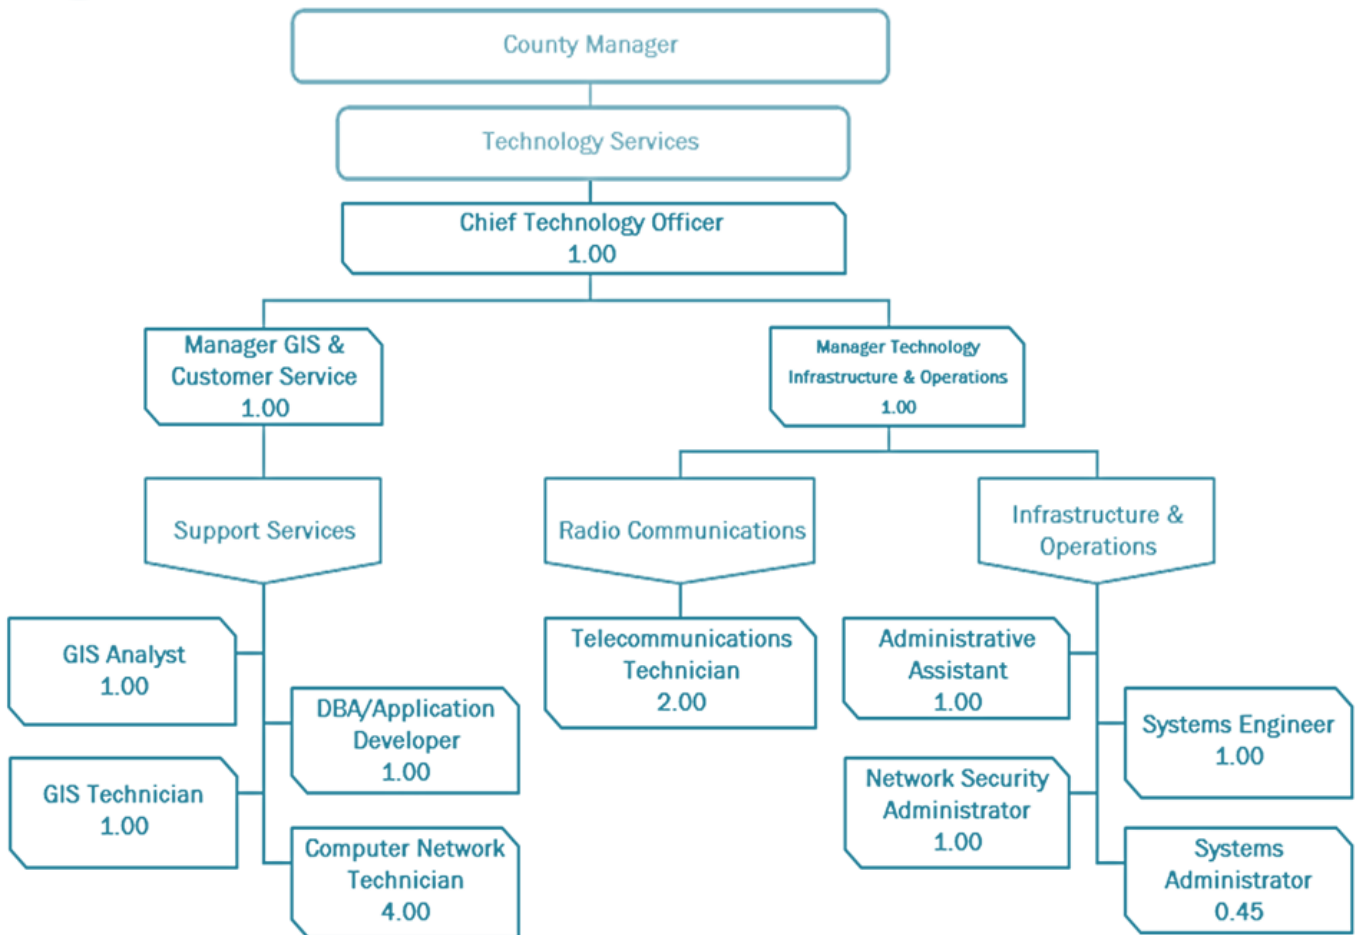

We serve to ensure that Douglas County makes the best use of its technology funding in three primary ways; 1) providing a governance structure that reviews requests for equipment and software purchases, 2) facilitating the implementation of new technologies, and 3) assisting the County Manager with technology policy recommendations.

The Technology Services Department has created a vision for its next five years of service to Douglas County. The Department's Strategic Plan, 2017 document is a clear road map toward the future and serves as a guide for improvement to services and new projects.

The services provided by the Technology Services Department are mostly provided to Douglas County government entities. A complete list of them exists in our Service Catalog. This document offers a comprehensive look at what we do and who we serve every day.

In collaboration with elected officials, departments, and partnering entities, the following are areas of general responsibility for the two divisions of the Technology Services Department.

Organization Chart

The Technology Services Department consists of three divisions: Telecommunications, Infrastructure & Operations, and GIS & IT Customer Service. Information about each division is provided in this section.

The Department was reorganized during 2014 to more appropriately respond to the technology needs of County

departments. The reorganization aligned Department functions with a front-office and back-office design along with a division dedicated to public safety communications. There is a renewed emphasis on utilizing technology to meet business needs and several new and important initiatives that are in process to improve technology services for Douglas County, including the formation of an IT governance structure to establish technology standards, utilize industry best practice methodologies and prioritize technology projects based on enterprise value.

The GIS & IT Customer Service Division serves County GIS and IT customers with responsive and highly effective service. For its GIS customers, the Division develops and maintains a Countywide spatial database to provide up-to-date mapping and analysis services to increase efficiency, improve accuracy, reduce redundancy, and provide analytical tools for County departments, residents, business, as well as visitors to the County. For its IT customers, the Division maintains an effective HelpDesk function and desktop support services to help employees have productive technology tools to perform their responsibilities. Office technology solutions include PC's, laptops, peripherals and software applications.

The I&O Division serves as the County's resource for information technology support and is responsible for guiding the planning, development, and coordination of the County's servers, switches, network security and network system maintenance. The Division is responsible for engineering solutions that best meet the County's technology application and system requirements. The Division consults with personnel in Elected Offices and departments to ensure that County technology needs are identified, understood, and effectively implemented.

The Telecommunications Division serves as the County's resource for public safety communications, working closely with various public safety agencies including 911 Communications, Douglas County Sheriff, East Fork Fire, Tahoe Douglas Fire and Washoe Tribe. The Telecommunications Division also manages the County's data network infrastructure, telephones, cell phones and audio/video services.

Staffing and Budget

The Department reports to the County Manager. The Department has no FTE change for the 2017-18 fiscal year. The FY 17-18 total operating budget is \$2,589,717 for all divisions.

Card Access Departments and facilities in Douglas County use card reading systems on doors, and gates to control access to buildings and secure areas. The system is centrally-maintained by the Technology Services Department. Access can be restricted by day of the week and time of day, and can be set up to provide access on an individual basis, by department or group list. (Supports the Accounts and Access Services Program)

**Network/
Application User
Accounts** Enterprise Access accounts are administered by the Technology Services Department. This service provides individual and group accounts with authentication mechanisms for access (and limited access) to file shares, applications, and other Douglas County resources. Departments can take advantage of single/simplified sign-on by accessing most network-based resources using their County username and password. This provides a simple procedure for applications to securely authenticate users without additional infrastructure costs or complexity. Enterprise Access is a core foundation service which enables Departments to reduce their infrastructure and operating costs by utilizing a common, standardized, and secure directory. (Supports the Accounts and Access Services Program)

Remote Access County staff can be provided remote access to the County's network if the requirements of their position make such accommodations necessary. The Technology Services staff works with departments to determine the most appropriate type and level of access for their situation. (Supports the Accounts and Access Services Program)

Public Safety Radio Maintenance and operation of the County's Public Safety Radio Communication network. The primary purpose of this radio network is to enable interoperable mobile radio communications for Public Safety entities such as Douglas County 911 Dispatch, Douglas County Sheriff's Office, East Fork Fire Protection District, Tahoe Douglas Fire, and other regional first-response agencies. The public safety radio network rides along a VHF narrow-banded infrastructure built on a series of repeater sites, in-building repeaters, in-vehicle repeaters, and voted receivers. The network facilitates communication from Dispatch to First Responders, tactical frequencies for First Responders, and inter-operability channels for communication with regional agencies. (Supports the Communications & Collaboration Program)

Telephone Standard telephone services including voicemail, caller ID, call transfer and call forwarding with single or multiple extensions. Auto-attendant menus, hunt groups and multi-party conferencing are also available. Circuits for FAX and modem services can also be provided. (Supports the Communications & Collaboration Program)

Cellular Devices Procurement of commercial cellular services with unlimited data to meet Douglas County's mobile communication requirements. Negotiation of government pricing with no long-term contracts for voice and data plans. Handles administrative duties of the government account and facilitates the replacement and repair of end-users County-issued devices. (Supports the Communications & Collaboration Program)

**Audio/Visual &
Meeting Services** Provides assistance in all aspects of Audio / Video needs. Assistance with initial design to meet requirements and budget for audio sound systems, large format TV monitors, with multi-input platforms, Live Streaming, digital signage, and projectors, for use in conference and meeting rooms, training rooms, including special meeting participation events. (Supports the Communications & Collaboration Program)

A reliable and secure system supporting calendaring and communication capabilities while reducing costs. The services administered include anti-virus, and anti-spam ensuring data and communications are kept secure within the County-managed infrastructure.

Email and Calendars

Douglas County’s Microsoft platform provides integration to allow access to email and calendaring tools from the desktop, tablet and phone. The platform provides robust tools to facilitate meeting scheduling, enable auto-reminders, communal email account distribution groups, and access to countywide distribution groups. The combination of these tools allows streamlined email and calendaring work flows. (Supports the Communications & Collaboration Program)

File Sharing and Storage

File Storage services use the Douglas County network file system to provide access to centralized shared files. Access is provided throughout the Douglas County network, which can be extended outside of Douglas County via the use of the VPN and/or Global Protect service.

The File Storage service enables collaboration and is a good way to have secure and sharable file storage for groups and departments within the County network. The File Storage service may also be used for safe and secure long-term storage of large, rarely accessed data sets. (Supports the Communications & Collaboration Program)

Douglas County has deployed "Go Anywhere" FTP solutions to provide for secure file and data sharing between County offices and external entities.

Extranet

This internal service provides a more secure and controlled alternative to Drop, Drop Box, Google Drive, etc. and is the recommended standard for moving large files as opposed to the older method of utilizing external drives for file sharing. (Supports the Communications & Collaboration Program)

Service Center

The TSD Service Center is the first point of contact for all County employees. TSD staff will provision new technology services as well as resolve technical issues associated with County-owned computer equipment, desktop or networked applications, peripheral equipment or any network issues. (Supports the Enterprise Productivity Support Program)

Hardware support is available for Douglas County owned and TSD approved end user devices (desktop computers, laptop computers, mobile tablet computers, monitors, docking stations, external media drives and system printers) under warranty and accessing Douglas County’s business systems.

Hardware Support

Technology Services ensures users have access to County applications they need to perform their job functions from their devices as well as ensure peripheral devices function as intended. End user support covers the configuration, installation, connectivity, maintenance, troubleshooting, break/fix and upgrades of qualified devices. (Supports the Enterprise Productivity Support Program)

Software and Applications

Purchase software and licenses of common software and Enterprise applications supporting business functions and operations. This service includes the assurance that approved software can and will function in the environment provided. This includes consultation as to operating system compatibility, and assistance in identifying the most current version available. (Supports the Enterprise Productivity Support Program)

Cartographic services consist of design, construction, and production of maps and other cartographic products. This includes printing and delivery of hardcopy cartographic products based on target audience and media requirements. Hardcopy formats include single sheet maps, map series, map books, and other custom requests based on the needs of the user.

Cartographic GIS Services

These services also include cartographic design and production of digital maps. Such products may be accessed through Web-GIS applications, mobile-ready sites, and configurable online mapping templates. These can allow for data-collection and/or contribution by the user, as well as crowd-sourcing during large events and emergencies.

The GIS Office produces maps and mailing labels required for public noticing. This TSD service also extends to the public and non-county entities. (Supports the Geographic Information Systems (GIS) Program)

Spatial Analysis Services

Spatial analysis services extract meaning from static data to provide a greater level of understanding of information within a spatial context. These services extend to using aerial photography and/or satellite imagery to extract quantitative and qualitative data for areas of interest. Analysis is then available for facilitating more informed decision-making, better understanding of issues, and improved reaction and response times. (Supports the Geographic Information Systems (GIS) Program)

Spatial Data Services

The core function of spatial data services is to provide access to geo-spatial data and tools to Douglas County's staff and citizens by hosting, maintaining, creating, and distributing data. This is done via analysis, digitization, and/or field collection. As the County's geo-spatial data repository, the GIS Office is regularly contacted by county and non-county entities for data distribution. (Supports the Geographic Information Systems (GIS) Program)

GIS Support Services

Support services include a broad array of data management responsibilities such as maintaining the digital land-base for the County Assessor's Office, zoning and land use data for Community Development, utility data for Public Works, Spillman data in support of 911 dispatch, and data for hazard response services. Includes procuring and deploying of ArcGIS licenses, providing online tools and data, and data viewers that can be formatted to fit mobile and desktop devices. (Supports the Geographic Information Systems (GIS) Program)

Broadband Services

Douglas County provides network connectivity and Internet access between County managed facilities. (Supports the Infrastructure Services Program)

Application Hosting

Managed Application Hosting within the County's Data Center, including the hosting infrastructure, management of resources, and supporting the application. (Supports the Infrastructure Services Program)

Managed Server Hosting

Douglas County entities can locate servers in the County's Data Center leveraging security and environmental controls for virtualized and/or physical servers. (Supports the Infrastructure Services Program)

Database Hosting

Technology Services provides a SQL Server environment that hosts multiple databases for applications supported by the Department and County entities. (Supports the Infrastructure Services Program)

Security Awareness Training

Provides resources, current information, and industry standard practices available to County departments and staff in order to elevate awareness of threats and their counter-measures. (Supports the Infrastructure Services Program)

LAN/WAN Services	Local Area Networks (LAN) and Wide Area Networks (WAN) provides data connectivity to County facilities and offices. TSD also provides consulting services to ensure that departments are utilizing best practices in network security as well as ensuring appropriate network usage in general. General advice, recommendations, and best practices for maintaining a safe network environment. (Supports the Infrastructure Services Program)
Networked Printers	Approved network printers are assigned via the County's print server. This allows for remote tracking of printers and their usage, and includes service and maintenance contracts for print services. This service allows the County to manage printer costs and provides robust printer features. (Supports the Print Management Program)
Multi-Function Printers (MFPs)	Facilitate the sharing of large multi-function printers, copiers, and scanners centrally located in departments. These large units are under third-party contracts for service and maintenance. (Supports the Print Management Program)
Large Format Printing	Production of hardcopy prints for all common sizes and on all common media. Special requests will be fielded, but must be pre-approved. Large quantities may require client to provide media and replacement ink. (Supports the Print Management Program)

Major Accomplishments

- ◇ Developed five year technology strategic plan for Douglas County which was approved by the Board of Commissioners.
- ◇ Co-Location of fiber with NDOT to Sunridge Communications Tower to enhance data and communications on the Quad County network.
- ◇ Completed the modernization of the network to include high availability. Replaced our Mobile Device Management solution to enable better end user functionality. Implemented Dell's backup and recovery appliance to ensure continuity of operations.
- ◇ Replaced and upgraded the out of support Centracom radio dispatch console for 911 Emergency Services which can also support regional demand.
- ◇ Replacement of Douglas County's Regulatory GIS viewer and Flood Zone GIS viewer with a new updated format.

Strategic Objectives

- ◇ Leverage new technologies to ensure responsive and efficient communications in support of County business processes and to ensure timely communications with its community.
- ◇ Improve, redesign, and eliminate labor-intensive County business processes through technology solutions and regular interactions to understand business requirements and improve business outcomes.
- ◇ Maintain, operate and upgrade the Information and Communications Technology infrastructure in a manner that provides end users with consistent, reliable and secure access to the applications, data and technology systems they need to perform their business functions.
- ◇ Ensure resources are available to service the County's technology needs by aligning to industry best practices; benchmarking against both private and public sector technology providers; and, automating

routine tasks.

- ◇ Support the County's decision making capabilities by deploying enterprise grade solutions that enable data collection and analytics, information visualization, and transparent, robust reporting.

Annual Goals

- ◇ Complete migration of telephone system to Shoretel VOIP
- ◇ Improve network and broadband services to the Town of Genoa
- ◇ Improve network and broadband services to the Town of Gardnerville
- ◇ Address CJIS, PCI and Financial Audit Findings
- ◇ Develop a comprehensive Geospatial Plan for Douglas County
- ◇ Expand the Department's catalog of web-based and mobile geospatial resources for internal Douglas County departments and the general public
- ◇ Create the framework for a new County data warehouse.
- ◇ Implement formal project management methodologies and portfolio monitoring
- ◇ Integrate business analysis methods to improve processes and systems support for HR, Finance and County Manager applications and systems

Redevelopment Agency

The Douglas County Redevelopment Agency is focused on the implementation of the Redevelopment Plan to enhance opportunities to expand the economic base of the County and working cooperatively with property owners to revitalize the Redevelopment area.

Programs Offered

The Redevelopment Agency's work is guided by the goals and policies outlined in the Redevelopment Area Plan. The Plan recognizes the importance of the Redevelopment Area to residents, business interests, and visitors alike. It acknowledges that in order to continue to improve the quality of life and attractiveness of the Redevelopment Area there are complex tasks which require participation and coordination by the public sector through the auspices of the Douglas County Redevelopment Agency. This Plan provides the Agency with the powers, duties and obligations authorized or required in the Nevada Community Redevelopment Law in order to implement and further the program generally formulated in this Plan for the redevelopment of the Redevelopment Area. The term "redevelopment," as used in the Nevada Community Redevelopment Law and this Plan means the planning, development, re-planning, redesign, clearance, reconstruction or rehabilitation, or any combination of these, of all or part of the Redevelopment Area, and the re-planning, redesign or original development of undeveloped areas. Because of the long-term nature of this Plan, the Agency retains flexibility in order to respond to market and economic conditions, property owner and developer interests, and opportunities presented for redevelopment.

The purposes of the Community Redevelopment Law that will be attained through the Redevelopment Plan include the following:

- ◇ The elimination of blight conditions in the Redevelopment Area, including, among others, inadequate public streets and utilities, inadequate recreational facilities, obsolete or aged building types, substandard additions with inadequate ventilation and light, lots of irregular form, shape or size, impaired investments and economic maladjustment.
- ◇ The assembly of land into parcels suitable for modern, integrated development with improved pedestrian and vehicular circulation in the Redevelopment Area.
- ◇ The re-planning, redesign and development of undeveloped areas which are stagnant or improperly utilized.
- ◇ The strengthening of the economic base of the Redevelopment Area by the installation of needed site improvements to stimulate new commercial development.
- ◇ The expansion of employment opportunities.
- ◇ The preservation of the public health and safety and the maintaining of adequate public services, utilities and recreational facilities.
- ◇ The provision of opportunities for participation by owners in the improvement of their properties.
- ◇ The provision of adequate land for parking and open spaces.

The goals of the Redevelopment Agency plan include the following:

- ◇ Promote new, and replacement of deficient, public improvements to complement and invite private development, which are modern and cost effective to maintain.
- ◇ Encourage the elimination of environmental and physical manifestations of blight and deterioration of structures and lack of public improvements within the Redevelopment Area to improve the health, safety, and general welfare of residents and visitors alike.

- ◇ Diversify the commercial opportunities in North Douglas County through the creation of new and the replacement of deficient public utilities and improvements, consolidation of properties and improvements of traffic circulation within commercially zoned properties.
- ◇ Preserve the presence of the natural landscape and open space areas by improving public utilities to improve the clustering of development, dedication of open areas and possible creation of access points which may improve access to public lands and related facilities.
- ◇ Increase the range of experiences to be had in the Redevelopment Area, by providing residents and visitors with more shopping, employment and recreational opportunities within the Redevelopment Area.
- ◇ Improve the outdoor environment with greater access to public lands to increase opportunities for enhanced outdoor activities and improvement of park facilities.
- ◇ Preservation, through rehabilitation and retrofitting, among other means, of structures, facilities and properties which are historically or culturally significant by reason of architectural, economic or social contributions to Douglas County and the State of Nevada.
- ◇ Improve public infrastructure and long range planning through the development and implementation of regional water and sewer systems to address existing deficiencies and to serve future residential and commercial development.
- ◇ Enhance the level of fire protection for residents and businesses through the planning and implementation of community water systems with increased storage and fire flow capacity to protect the public health, safety and welfare of the Redevelopment Area.
- ◇ Improve public rights-of-way and other related facilities to reduce or eliminate the threat of property damage due to excessive drainage to better protect the public health, safety and welfare of the Redevelopment Area.
- ◇ Support the orderly and coordinated development and improvement of the Redevelopment Area in such a way as to maximize private and public sector cooperation and to minimize impediments to ensure and enhance economic stability and growth.
- ◇ Promote implementation of the goals and policies of the Master Plan to assure retention of the historic/ rural character of existing residential areas, provide for coordinated development efforts to maintain a high quality of life for residents, employees, visitors and businesses in the Redevelopment Area.
- ◇ Encourage the provision of sufficient office, retail and other business uses to enhance the Redevelopment Area's attractiveness and economic viability for private development.
- ◇ Promote the removal of conditions endangering life, safety, public health, welfare and economic viability of the Redevelopment Area.
- ◇ Promote the strengthening and improvement of the economic base of the Redevelopment Area specifically, and the community as a whole, by encouraging investment in projects, improvements and programs which enhance the economic vitality and desirability of real and other property in the Redevelopment Area.

- ◇ Promote participation by the community in the continued improvement of the Redevelopment Area.
- ◇ Promote the establishment of methods and programs to protect the quantity and quality of ground and surface water in the Project Area. Promote the establishment of groundwater re-charge within the foothill area.

Staffing and Budget

The Redevelopment Agency is staffed through the County Manager’s Office and the District Attorney’s Office. A portion of time is allocated to the Agency for the County Manager, District Attorney, Chief Deputy DA - Civil and Deputy Attorney. The Agency’s budget for FY 17-18 is \$8,046,548.

The County Manager has responsibility over the management of the Agency. The Board of County Commissioner serves as the Agency Board. FTE change of 1.24 for FY 17-18 is due to reallocation of staff time dedicated to the Redevelopment Agency.

Capital Budget

The Capital Budget section includes important definitions and graphs showing capital projects by type, fund, and financing sources.

The Capital Budget is a plan for capital project expenditures to be incurred over one year. It is part of the overall budget adopted each year by the Board of Commissioners. Staff provide planning, engineering, and contract management for the capital projects. Actual construction is performed almost exclusively by outside contractors. The Capital Budget represents the first year of the County's 5-year Capital Improvement Plan (CIP). The total FY 17-18 Capital Budget is \$21,076,141.

The Capital Improvement Plan (CIP)

The CIP is a plan for capital expenditures to be incurred over a defined period of future years. Douglas County prepares a 5-Year CIP. The CIP identifies capital projects needed in the community, prioritizes projects, estimates beginning and ending dates for each project, and identifies project financing. The FY 2018-22 total CIP budget is \$157,580,252.

The CIP is a planning tool that provides for current and future infrastructure required to maintain a safe, attractive, and viable residential and business community. Strategies are developed to match community needs with funding sources, as each year there are more projects than available funding. The CIP is continually updated and approved annually by the Board of County Commissioners. The identification and prioritization of capital projects occurs through a review of infrastructure needs by staff, Governing Board policy, and citizen requests. Public health and safety and the protection of the community's existing infrastructure are the two most important factors during project prioritization. There are two types of capital expenditures: Capital Projects and Capital Outlay.

Capital Projects

Capital projects are expenditures of a non-recurring nature that have a useful life of 2 years or longer and a cost of \$25,000 or more. Capital projects are major expenditures of public funds, over and above annual operating expenses for the purchase, construction, or replacement of the physical assets of the community. Projects that meet this definition of a capital improvement include:

- ◇ New and expanded facilities for the community (e.g. Sewer plant expansion).
- ◇ Large-scale rehabilitation or replacement of existing facilities (e.g. Road Rehabilitation).
- ◇ Equipment for any public facility or improvement when first constructed or acquired (e.g. fire engines/ambulances).
- ◇ The cost of engineering or architectural studies and services relative to the project. (e.g. Judicial/Law Enforcement Building).
- ◇ The acquisition of land for a community facility such as a park, road, sewer line, etc.
- ◇ The construction of a new building or building addition (e.g. Minden Jail expansion, Fire Station remodel).

Capital project costs include all expenditures related to the planning, design, construction and equipment necessary to bring a facility on line. This can include reimbursement of the project manager's time through a charge to a capital project account.

Capital Outlay

Capital outlay, within the County's operating budget, includes such things as furniture, equipment, vehicles, and motorized equipment needed to support the operation of the County's programs. Generally, a capital outlay item may be defined as an item valued more than \$10,000 with a life expectancy beyond one or two years, or \$5,000 if using grant funds. This definition is a recommended practice from the Government Finance Officer's Association (GFOA). The purchase of vehicles or equipment under \$50,000 is considered a capital outlay, although some pieces of equipment have a life expectancy of greater than ten years.

Capital outlay includes minor construction projects, landscaping projects, and facility repairs valued up to \$50,000. However, for purposes of budgeting, small projects may be combined into a capital project when

collectively they relate to an overall improvement program or project for a facility or system. For example, the installation of a play area, picnic shelter, parking lot and ball fields at a park comprise a capital project for the renovation of the park, even though individually a specific component may not meet the definition of a capital project/outlay.

Capital Improvement Program FY 2017-18 Budget

The FY 2017-18 Capital Improvement Plan Budget is a significant amount of the overall budget and represents projects that benefit the entire Douglas County community.

Douglas County types of capital projects in the following categories:

- ◇ Airport Projects
- ◇ Building/Facility Projects
- ◇ Leisure/Enhancement Projects
- ◇ Flood Control/Storm Drainage
- ◇ Technology Projects
- ◇ Transportation Projects
- ◇ Utility (Water/Sewer) Projects
- ◇ Vehicle/Large Equipment
- ◇ Town Projects

A total of 46 capital projects are budgeted for FY 2017-18 amounting to \$21,076,141. Five of the projects are planned for County Transportation varying from road reconstruction to roundabout installation. A budget of \$9,266,000 (44.0%) is planned for all County Transportation projects for FY 2017-18. A sum of \$5,700,000 is budgeted for County Utility Projects to complete nine planned projects including upgrades to water lines, wastewater treatment plants and wastewater SCADA as well as distribution and water system improvements.

The following table provides a list by major category of all the capital projects, it's FY 2017-18 budgeted cost.

Project Financing

The County uses several different funds to account for capital projects. The revenues received in each of the funds are restricted for specific purposes. Many of these funds have individual 5-year capital improvement plans to address short and long-term capital needs.

Funding for projects in the Capital Budget come from the variety of sources below:

The majority of funding for 2017-18 projects will be funded by dedicated taxes and reserves.

Current Revenues:	Funds from operating activities	2,679,350	12.7%
Dedicated Taxes:	Funds received from dedicated taxes such as Ad Valorem	1,260,196	6.0%
Grants:	Funds received from Federal/State grants	264,258	1.3%
Reserves:	Funds specifically reserved for capital projects. Reserves can include funds from all the other financing sources above and can accumulate over several years	5,735,900	27.2%
Debt Financing:	A loan with a promise to repay based on agreed terms	10,572,000	50.2%
Other:	Additional source of funding including Motor Pool User	564,437	2.7%

Debt Service

The Debt Service section provides an overview of the County's outstanding debt and schedule of debt repayment.

Summary of Indebtedness

The County utilizes both short and long-term debt in managing the financial business of the County. The County's short-term obligations consist of capital leases and notes. The long-term debt consists of tax-exempt debt issued to fund long-term capital improvement projects and to refund earlier debt issuances for similar projects.

The debt schedules in this section show how much debt service will be paid in the future, given the assumption that no new bonds will be sold. In reality, the County will most likely continue to use debt in the future in order to replace or improve infrastructure consistent with the County's Capital Improvement Plan, long range financial plans, and State and Local laws and regulations.

Debt Limitation

General obligation (G.O.) debt is comprised of bonds issued and backed by the full faith and credit of the County for the repayment of the bonds. This includes G.O. bonds, G.O. revenue bonds, and G.O. special assessment bonds. State statutes limit the aggregate principal amount of the County's general obligation debt to ten percent (10%) of the County's total reported assessed valuation. Based upon the assessed valuation for FY 2017-18 of \$2,958,570,553, the County is limited to general obligation indebtedness in the aggregate amount of \$295,857,055. The County has \$26,830,087 of general obligation debt outstanding as of June 30, 2017.

The following table presents a record of the County's outstanding general obligation indebtedness with respect to its statutory debt limitation.

Fund Summaries

This section includes a brief description and financial summary of each of the fifty-three funds that are used to account for Douglas County's financial resources and requirements.

Fund Types

General Fund

This fund is the County’s largest fund and is used to account for all financial resources except those required to be accounted for in another fund.

Funds: General Fund

Special Revenue Funds

Funds used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or for major capital projects) that are legally restricted to expenditure for specified purposes.

Funds: Stabilization, Nevada Cooperative Extension, Airport, Douglas County Water District, Solid Waste Management, Landscape Maintenance, State Motor Vehicle Accident Indigent, Medical Assistance to Indigent, Social Services, Law Library, Road Operating, Room Tax, Tahoe-Douglas Transportation District, Justice Court Administrative Assessments, China Spring Youth Camp, Western Nevada Regional Youth Center, Erosion Control, 911 Emergency, Senior Services, Redevelopment Agency, Gardnerville Administration, Genoa Administration, Minden Administration

Proprietary Funds (Internal Service)

Funds used to account for the financing of goods or services provided by one department or agency to other departments or agencies of a government, or to other governments, on a cost-reimbursement basis.

Funds: Risk Management, Dental Insurance, Motor Pool/Vehicle Maintenance

Proprietary Funds (Enterprise)

Funds established to account for the operations (a) that are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The Stabilization Fund (Fund 201) will be eliminated beginning FY 2018-19. All funds were transferred out of the fund in FY 2017-18 for inactivity to capital funds to support County infrastructure.

Nevada Cooperative Extension Fund

The Cooperative Extension Fund is used to account for activities undertaken in the County by the UNR Agriculture Extension Office. This function is a community outreach education and research program working in conjunction with the University of Nevada and is authorized by NRS 549.020. The director is a State employee working through the University of Nevada, Reno. Other employees and operating expenses are provided under the County’s direction. Revenues are received from a dedicated Ad Valorem property tax rate of \$0.01.

Douglas County Water District Fund

The Douglas County Water District Fund was used to enhance water quality and to ensure adequate water resources in the county. Up until FY 96-97, revenues were received from a dedicated Ad Valorem property tax levy. Beginning in FY 15/16, revenues and expenditures are in the process of being re-allocated to the appropriate Water Utility Fund for their area.

Western Nevada Regional Youth Center

The Western Nevada Regional Youth Center (WNRVC) was created in FY 01-02 to provide regional detention and drug rehabilitation services for the counties of Douglas, Carson, Churchill, Lyon, and Storey. The counties have a dedicated county-wide property tax rate to provide funding to the center in order to support operations. The amount each county pays is based on a formula of the average of the three most recent years: 35% prior year bed usage and 65% school district enrollment. Prior to FY 06-07, revenues collected from the tax rate were passed-through to WNRVC via a Trust & Agency Fund. A Special Revenue fund was created in FY 06-07 to better account for the collection and distribution of the tax proceeds. The FY 17-18 tax rate is \$0.02.

911 Emergency Services

The 911 Emergency Services Fund was established by the County for the purpose of providing emergency 911 and non-emergency communications service. Revenues are received from a dedicated voter approved Ad Valorem property tax levy of \$0.0475 and from charges to the various user agencies. In FY 14-15 the 911 Surcharge fund was combined with the 911 Emergency Services fund. The 911 Surcharge Fund was established in FY 09-10 pursuant to NRS 244A.7641 through 244A.7647 to account for the charges to telecommunication providers, passed through to their customers. Funds are used to enhance the telephone system for reporting an emergency.

Park Residential Construction Tax Fund

Park Residential Construction Tax is received from a charges on new construction. The funds are dedicated for use with specific park districts to construct new park facilities. A budget is not always adopted for this fund. Typically, funds are held in a deferred revenue account until the Board approves a project. After approval funds are moved from the deferred account to the Park Residential Construction Tax Fund for expenditure.

Appendix

A resource for additional information on budget related items, including descriptions of revenue and expense categories, augmentations, transfers, fund balances, and personnel. Important statistical information about Douglas County is also included.

Major Revenue Categories

Property Taxes

Property taxes are levied against the assessed valuation of property within the County. Assessed Valuation is estimated at \$2,894,489,426 for FY 2017-18. Douglas County has numerous entities that receive property tax revenue based on assessed valuation and the established rate for the specific fund. A schedule of property tax rates for all entities within Douglas County is included in this section. FY 2017-18 property tax revenue for Douglas County, Douglas County Redevelopment Agency, and the Towns is estimated at \$31,729,094.

Room Taxes

A lodging tax of 10.0% is levied at each lodging establishment and is collected by the County. This tax is used for specific purposes defined in State Statutes, including promotion of tourism, parks and recreation, library, airport, debt service, and transportation projects.

Transient Lodging License Tax

A rental rate tax of 3.0% is levied at each transient lodging business. This tax is used to benefit Douglas County's Park and Recreation department and strengthen the economic health of Douglas County by the promotion of tourism. This tax was adopted August 1, 2010.

State Consolidated Taxes

The State combines the following revenue sources into one lump sum distribution: Sales taxes, comprised of SCCRT (State, City and County Relief Tax) and BCCRT (Basic City County Relief Tax), Motor Vehicle Privilege Tax, Real Property Transfer Tax, Cigarette Tax, and Liquor Tax. Sales within Douglas County are generally taxed at the rate of 7.10%. The sales tax is collected by the State, which places a portion of the sales tax equal to 1.75% (SCCRT) of taxable sales into a fund to be transferred to local governments, including the County. Fund are allocated to local governments on the basis of State Statute mandated formula.

Other Taxes

Other taxes include revenue collections from dedicated taxes for specific purposes. Gas and road taxes (for road operations and improvements) and the park residential construction tax (for park improvements) are the two main revenue sources in this category.

Licenses and Permits

Revenues from Licenses and Permits are received mainly from building permits, liquor licenses, franchise fees, and marriage fees. The General Fund receives almost all of the revenue in this category.

Gaming

Every gaming establishment in NV must pay fees. The State collects a license fee from all gaming establishments for table games (excluding card games), which is then distributed back to the counties. The County charges a license fee to operate slot machines and a fee for the number of slot machines in operation for gaming establishments within Douglas County.

Intergovernmental

State and Federal grants and payment in lieu of property taxes from the Federal Government are the main sources of revenue in this category.

Charges for Service

Revenue in this category comes from a variety of charges and fees for those who directly benefit from a County service. Fees from departments such as Community Development (i.e. planning and engineering), Assessor's Office, Sheriff, Recorder's Office, and Parks and Recreation are charged for specific services. Utility charges are the largest source of revenue in this category.

Fines and Forfeitures

Justice Court fines (i.e. traffic fines, forfeitures of bail, case-filing fees, and administrative assessment fees) are the primary revenue source for this category. The General Fund receives almost all of this revenue.

Miscellaneous

Interest earned on investments makes up almost all the revenue in this category. Other revenue sources classified here are relatively insignificant and are either difficult to estimate or are unanticipated. Enterprise funds include a revenue source labeled "depreciation add-back" that matches the depreciation expensed in the expenditure category titled "Other."

Transfers In

Transfers of revenue from one fund to another are made for a specific purchase or activity. The transfer in to a fund is shown as revenue. Transfers have the effect of artificially inflating the size of the budget, as they do not represent new revenue during the fiscal year. Information on County transfers is included in the Appendix.

Other Financing Sources

This category includes the sale of fixed assets and revenue from debt financing.

Major Expenditure Categories

Operating

Personnel Services

This category includes all direct payments to salaried or hourly personnel. Salaries and wages are determined through periodic compensation and classification studies, market studies, or negotiated agreements (for represented employees). Employee Benefits are expenditures for employees receiving medical, dental and life insurance, unemployment, Medicare, and retirement, are also included in this category. Employees receive benefits based upon the number of hours worked (i.e. full-time, part-time, seasonal) and their years of employment with the County.

Services and Supplies

This category includes expenditures for a broad variety of items needed by departments to perform planned services. Items such as office supplies, postage, fuel, tools, vehicle and equipment maintenance, contractual services, utility charges, administration and overhead charges, and many others, are included here.

Capital Outlay

This category includes all equipment having a unit cost of more than \$10,000 and an estimated life of more than one year. Section VI: Capital Budget of this document provides information on the County's capital budget, including a listing of capital projects planned for FY 16-17. More detailed information about capital budgets and capital project planning is included in the County's 5-Year Capital Improvement Program document that is typically updated annually.

Other

This category includes some grant expenditures and depreciation expenses. Depreciation has the effect of artificially inflating the budget as it does not represent an outlay of cash, rather simply a decrease in value of an asset. A small amount of cash is set aside for depreciation as a condition of certain grants.

Non-Operating

Capital Projects

Capital projects are large-scale improvements to the County's infrastructure, including utilities, transportation systems, parks, and buildings.

Debt Service

Repayment of funds borrowed to finance capital improvement projects is included in this category. Debt service includes principal and interest payments. Section VII: Debt Service provides additional information on the County's debt repayment schedule for all outstanding debt, including bonds, notes, and leases.

Distribution to Other Districts

Similar to the Transfers Out expenditure listed below, Distribution to Other Districts is used as a distribution of revenue within the same town or district.

Transfers Out

Transfers of revenue from one fund to another are made for a specific purchase or activity. The transfer out from a fund is shown as an expenditure. Information on County transfers is included in the Appendix.

Contingency

County funds that are operating in nature (focus on services and have mostly unrestricted revenues) are required by policy to budget a contingency between 1.5% and 3% of operating revenues. The contingency is budgeted for unforeseen events that may occur during the year. A discussion of contingencies and other reserves is included in the Appendix.

Depreciation

Depreciation has the effect of artificially inflating the budget as it does not represent an outlay of cash, rather simply the decrease in value of an asset. A small amount of cash is set aside for depreciation as a condition of certain grants.

Budget Augments

The County's budget may be amended or augmented by three methods: Purchase Order Carryovers, Administrative Carryovers, and by County Commission action. Under all instances where appropriations are increased, funds must be available to match the request. Augmentation of the County's budget is governed under NRS 354.615.

Purchase Order Carryovers

At the end of each fiscal year, the Finance Division reviews outstanding (open) purchase orders with the departments and determines whether the purchase orders should be carried forward into the next fiscal year, for example, if the goods or services have not been received by fiscal year end. When a purchase order is "carried forward," a department's appropriation increases in the new fiscal year by the amount of the purchase order. Purchase order carryovers are submitted to the Board of Commissioners as part of the augmentation process for approval. These funds are encumbered and reserves for encumbrances are noted in the audit.

Administrative Carryovers

At the end of each fiscal year, the Finance Division requests that each department review their budgets for items or programs for which expenditure is still outstanding. This may include a project that has been initiated, but not completed, or an item ordered, but not received. Administrative carryover requests are reviewed to determine the merit of the request and to ensure funding is available. All administrative carryovers are submitted to the Board of Commissioners as part of the augmentation process for approval. The approved carryover request increases the department's budget appropriation in the new fiscal year. Funding comes from the adjusted opening fund balance (e.g. prior year savings & over budget revenue).

County Commission Action

Throughout the year, the County Commission considers departmental requests for additional appropriations to fund activities not included in the adopted budget. When requests are approved, the department's appropriations are increased. Funds may be transferred from contingency accounts or from appropriated reserves. If the action uses new or increased revenues, a formal augmentation must take place.

Augmentation Process

If anticipated resources actually available during a budget period exceed those estimated, a local government may augment a budget as follows:

- a. If the augmentation is for appropriations of a fund to which Ad Valorem taxes are allocated as a source of revenue, the governing body shall, by majority vote of all members of the governing body, adopt a resolution reciting the appropriations to be augmented, and the nature of the unanticipated resources intended to be used for the augmentation. Before the adoption of the resolution, the governing body shall publish notice of its intention to act thereon in a newspaper of general circulation in the County for at least one publication. No vote may be taken upon the resolution until 3 days after the publication of the notice.
- a. If the augmentation is for any other fund, the governing body shall adopt, by majority vote of all members of the governing body, a resolution providing therefore at a regular meeting of the body.

A budget augmentation becomes effective upon delivery, to the State Department of Taxation, an executed copy of the resolution providing for the augmentation. The Amended Budget, as shown in the County's financial audit,

reflects all changes in budgeted revenues and appropriations. The County's budget is generally augmented three times during the fiscal year (October, February and June). The augmentation in October primarily covers purchase orders and projects carried over from the prior fiscal year. The February augmentation makes adjustments in opening fund balances or other areas as provided for in the final audit. The June augmentation incorporates changes to the budget that have been approved during the year.

Budget Transfers

A transfer is the movement of appropriations from one line item to another. There are two separate types of transfers: Adopted (interfund) and budget (intrafund).

Interfund Transfers

- a. **Adopted Transfers** - Adopted transfers are planned budget transfers from one fund to another (interfund). Necessary transfers are determined during budget development and are part of the adopted budget. Transfers-In are shown as current revenue while Transfers-Out are shown as a non-operating expenditure within specific funds. Transfers-In must always equal Transfers-Out. Transfers artificially inflate the size of the County's budget because they do not represent new revenue, but simply the transfer of budget from one fund to another.

- a. **Non-Adopted Transfer** -Approval from the County Commission is required for all interfund transfers that are deemed necessary during the fiscal year. These would be included as part of the budget augmentation process. FY 16-17 adopted transfers are shown on the following page.

Budget transfers are transfers of budget appropriations within the same fund and the same department or division. They do not change the fund's total budget or department's total budget. Budget transfers are needed because changes to planned operations or activities occur throughout the year. Budget transfers can occur when necessary and do not require formal approval by the County Commissioners.

Fund Balances, Reserves, & Contingencies

This section contains information about fund balances, reserves and contingencies and explains why the County's budget includes these accounts. A listing of all funds that maintain these accounts and the amount set aside is included.

Fund Balance

The fund balance in each fund is the difference between all the revenue the fund has received and all the expenditures the fund has made since the fund was created. The fund balance represents a one-time resource available at the time the budget is adopted.

In order to maintain the County's credit rating and meet seasonal cash flow shortfalls, the County has established a minimum fund balance of 8.3% of estimated annual operating revenues for the General Fund and Special Revenue funds (i.e. Airport, Social Services, Road Operating, Room Tax, etc.). The fund balance is exclusive of reserves not anticipated to be readily available for use in emergencies or unforeseen events.

Reserves

This reserve is the County's unrestricted fund balance. There is no reserve level established for this account, although it is recommended that these reserves are intended for specific needs, such as planned capital projects.

Contingencies

These reserves are appropriated in each major operating fund's budget. They are established to provide for non-recurring, unanticipated expenditures or to meet unanticipated increases in service delivery costs. Like the fund balance, contingency is also exclusive of reserves not anticipated to be readily available for use in emergencies or unforeseen events. Contingency balances are set by policy to be between 1.5% and 3% of operating expenditures within the General Fund and Special Revenue funds. Although appropriated, Commissioner Approval is required to expend from contingencies.

Authorized Full-Time Personnel

This section provides detailed information about the personnel resources the county utilizes to provide services to the community. A personnel calculation method called Full-Time Equivalent or FTE is used to determine staffing levels. This method provides a common denominator when comparing County staffing levels from one year to the next and when comparing Douglas County’s staffing levels with other local governments.

The FTE Method

The County utilizes many part-time and seasonal employees each year. By using the FTE method, the focus is not on how many total employees, but how many full-time equivalent employees. Full-time equivalent is based on 2,080 hours a year (52 weeks times 40 hours a week). Part-time and seasonal hours are converted to FTE by dividing the number of hours worked by 2,080. For example, if an employee works 25 hours a week the FTE calculation is as follows:

$$25\text{hrs/wk} \times 52\text{wks} = 1,300 \text{ hrs} \div 2,080 = .625 \text{ FTE}$$

FTE by Fund – All Funds

Change in FTE in the General Fund is due to added positions in the District Courts Departments, Community Development, the District Attorney’s Office and Alternative Sentencing. China Spring Youth Camp increased in FTE due to State Legislation. Other changes in FTE are a result of the planned opening of the new Community and Senior Center, as well as new FTE allocations between Enterprise Funds. The change in the Towns FTE is based on the addition/elimination of positions.

Douglas County Statistics

This section provides important statistical information about the county in several different areas.

Property Tax Base and Tax Roll

The Douglas County Assessor’s Office has reported the assessed valuation of property within the county to be \$2,894,489,426 for the fiscal year ending June 30, 2018. This represents a 2.704% increase over FY 2016-17’s assessed valuation of \$2,818,434,535. Property assessments are adjusted annually by a formula, and property is physically reappraised for assessment purposes every five years, with a portion of the property physically reappraised every year. State law requires that property be assessed at 35% of taxable value. This percentage may be adjusted upward or downward by the State Legislature.

“Taxable value” is the full cash value in the case of land and the replacement cost, less straight-line depreciation, for improvements to land. Taxable personal property is valued less depreciation in accordance with the regulations of the Nevada Tax Commission, but in no case in excess of the full cash value. Depreciation of improvements to real property is calculated at 1.5% of the cost of replacement for each year of adjusted actual age up to a maximum of fifty years. Adjusted age is actual age adjusted for any addition or replacement made valued at ten percent or more of the replacement cost after the addition or replacement. The maximum depreciation allowed is seventy-five percent of the cost of replacement. When a substantial addition or replacement is made to depreciable property, its “actual age” is adjusted. The following table provides a recent record of the assessed valuation in the county.

Per Nevada Revised Statutes, all property owners of real or personal property in Nevada may appeal their assessments to various Boards of Equalizations. All secured property must be appealed by January 15 to the County Board of Equalization. At that time the Board will hear appeals based on comparable sales, adverse factors effecting value, fair economic expectancy, errors or any combination of these.

All owners of properties valued after December 15 can appeal directly to the State Board of Equalization. Also,

those who appeal to the County Board of Equalization and do not agree with the decision can then appeal to the State Board of Equalization. Contact the Assessor’s Office for further information and for appeal forms.

In Nevada, county assessors are responsible for assessments in each county, except for property centrally assessed by the State. County treasurers are responsible for the collection of property taxes and forwarding the allocable portions thereof to the overlapping taxing units within the counties. The county’s tax roll collection record appears in the following table.

Taxes on real property are due on the third Monday in August, unless the taxpayer elects to pay in installments on or before the first Monday in August and the first Monday’s in October, January, and March of each fiscal year. Penalties are assessed if any taxes are not paid within 10 days of the due date as follows:

- 4% of the delinquent amount if one installment is delinquent;
- 5% of the delinquent amount plus accumulated penalties if two installments are delinquent;
- 6% of the delinquent amount plus accumulated penalties if three installments are delinquent; and
- 7% of the delinquent amount plus accumulated penalties if four installments are delinquent.

In the event of non-payment, the County Treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties and costs, together with interest at the rate of 10% per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two-year redemption period, the County Treasurer obtains a deed to the property free of all encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien and any assessments by local governments for improvements to the property.

The following chart represents the ten largest taxpayers based on property-owning taxpayers in the county and the respective assessed values of the property for FY 17-18. No independent investigation has been made of, and consequently there can be no representation as to, the financial conditions of the taxpayers listed, or that such taxpayers will continue to maintain their status as major taxpayers based on the assessed valuation of their property in the county.

Article X, Section 2, of the Constitution of the State of Nevada limits the total taxes levied by all overlapping governmental units within the boundaries of any county (i.e., the county, the county school district, the State, and any other city, town, or special district) to an amount not to exceed five cents per dollar of assessed valuation (or \$5 per \$100 of assessed valuation) of the property being taxed. Further, the combined overlapping tax rate is limited by statute to \$3.66 (.02 cents for the State) per \$100 of assessed valuation in all counties of the State. However, State statutes provide a priority for taxes levied for the payment of general obligation bonded indebtedness. In any year in which the proposed tax rate to be levied by overlapping units within a county exceeds any rate limitation, a reduction must be made by those units for purposes other than the payment of general obligation bonded indebtedness, including interest thereon. State statutes limit the revenues local governments may receive from Ad Valorem property taxes for purposes other than paying certain general obligation indebtedness that is exempt from such Ad Valorem revenue limits. A local government's operating rate (except for the school districts) is generally limited as follows:

1. The assessed value of property is differentiated between property existing on the assessment rolls in the prior year (old property) and new property.
2. The property tax revenue derived in the prior year is increased by no more than 6% and the tax rate to generate the increase is determined against the current assessed value of the old property.
3. The tax rate is then applied against all taxable property to produce allowable property tax revenues.

This cap operates to limit property tax revenue dependent upon changes in the value of old property and the growth and value of new property. A local government may exceed this property tax revenue cap if the proposal is approved by its electorate at a general or special election, or by the Nevada Tax Commission for short-term public safety debt service. In addition, the Executive Director of the Department of Taxation will add to the maximum allowed revenue from Ad Valorem taxes the amount approved by the legislature for the costs to a local government of any substantial programs or expenses required by legislative enactment. In the event sales tax estimates from the Nevada Department of Taxation exceed actual revenues available to local governments, Nevada local governments receiving such sales tax may levy a property tax to make up the revenue shortfall.

State statutes permit counties to levy a capital improvements property tax, which is exempt from the Ad Valorem revenue limitation, discussed above. This tax is limited to 5 cents per \$100 of assessed valuation. Douglas County is levying this tax. School districts levy \$0.75 per \$100 of assessed valuation for operating purposes.

School districts are also allowed an additional levy for voter-approved pay-as-you-go tax rates and voter-approved debt service. The Nevada Tax Commission monitors the impact of tax legislation on local government services.

*Figures are per 100 dollars of assessed valuation

In addition, the Nevada State Legislature passed legislation in 2005 that caps individual taxes collected by a set percentage of taxes collected from the previous year. If the parcel is a primary residence, the taxes for that parcel cannot increase more than 3% of the taxes paid in the previous year. If the parcel is not a primary residence, the taxes are capped at 3%. The new assessed value is not capped the first year it is added to the roll. New assessed value is capped in the subsequent years according to the type of ownership. The taxes levied on a parcel but cannot be collected because of the tax cap are the abated taxes. For FY 17-18, we will abate \$7,178,392 in secure taxes for Douglas County as a whole.

A large portion of the county work force is employed by the resort industry (hotels, gaming and recreation), which is labor-intensive. This industry comprises a significant number of the largest employers in the county. However, as the following table demonstrates, local government agencies are also major employers in the county. No independent investigation has been made of and consequently no assurances can be given as to the financial condition or stability of the employers listed on the next page or the likelihood that such entities will maintain their status as major employers in the county.

Sales Taxes

As mentioned in Section III: Budget Overview, the County receives revenue from a Statewide sales tax of 6.5%. The sales tax is collected by the State and distributed to local governments on the basis of a formula. Prior to the distribution of the 6.5%, each business takes a collection allowance of 1.25% of their taxable sales and the State takes 1% of all sales as a General Fund commission. These collection allowances are intended to help cover the cost the businesses and the State incur collecting, accounting for, and remitting the sales tax. Douglas County voters approved an additional 0.25% tax in November of 1998 for parks, recreation, airport, and senior services. The 1999 State Legislature wrote the additional tax into law. During the 2009 Legislative session a 0.35% tax for State General Fund was also added. This brings the total sales tax rate to 7.10%.

Different forms of legal gaming have been authorized by many states. Other states may yet consider authorizing gaming in one form or another. The different forms of gaming range from casino gaming and riverboat gaming to lotteries. As presently operated, lotteries offer customers a considerably different gaming product than that offered in Nevada. The county cannot predict the impact on the State's or the county's economy of legalization of state lotteries and casino gaming in other states.

County Transportation

U.S. Highway 395 connects Minden to Carson City and Reno to the north and US Highway 50 is the link to Lake Tahoe to the west. The Southern Pacific Railroad crosses the State. Amtrak passenger service is available from Reno. Major trucking lines serve the area. Greyhound provides local and transcontinental bus service. Gray Line provides a charter service and lectured sightseeing tours. Douglas County operates a general aviation airport providing private & charter air service and car rentals. Similar services are also available from the South Lake Tahoe and Carson City Airports. International and interstate air carriers are available from Reno.

County Utilities

Water - Water in Douglas County is principally derived from Lake Tahoe water in the Tahoe Township and ground water in the East Fork Township. A minor amount of ground water is also used to supplement lake water in the Tahoe Township. Water for drinking purposes within Douglas County is supplied by numerous entities, both public and private. Public entities include general improvement districts, a special water utility district, a town, and Douglas County. Private entities include privately owned water companies, a nonprofit homeowner's association, and a nonprofit town water company.

Sewer Service - Wastewater collection and treatment is provided by special districts and Douglas County. The Tahoe Township is entirely sewerred. Wastewater generated in the Tahoe Township is treated by Sewer Improvement District No. 1 and subsequently exported from the basin due to environmental considerations. It is used for irrigation of ranch land in Carson Valley. Wastewater generated in sewerred areas of the East Fork Township is treated and disposed of by the Minden-Gardnerville Sanitation District for the Town of Minden, Town of Gardnerville, and Gardnerville Ranchos subdivision. A plant owned and operated by Douglas County serves the North Valley area. Indian Hills General Improvement District provides wastewater service in the Northwest portion of the Carson Valley. The balance of residential development in Douglas County is served by individual sewage disposal systems.

Power & Telephone - NV Energy Company provides electricity, Southwest Gas provides natural gas service, and telephone service is provided by Frontier Communications for land lines and many providers for cellular service.

Glossary

Alphabetical list of terms used throughout the document defined; a brief dictionary.

The following are definitions and explanations of terms that are used throughout the budget document or that may aid in understanding the county's budget.

Abatement - Property tax levied on a parcel but cannot be collected due to the cap on taxes.

Account - A systematic arrangement of items, showing the effect of transactions on a specific asset, liability, equity, revenue or expenditure.

Accrual Basis - The basis of accounting under which expenses are recorded as soon as they result in liabilities for benefits received and revenues are recorded when earned, despite the possibility that the receipt of the revenue or the payment of expenses may take place, in whole or in part, in another accounting period. This basis is used for proprietary (enterprise and internal service) funds.

Ad Valorem Tax - A tax based on the assessed value of taxable property.

Adopted Transfers - Planned budget transfers from one fund to another (interfund). Necessary transfers are determined during budget development and are part of the adopted budget.

Appendix - A resource for additional information located at the end of a document.

Appropriation - An authorization by the County Commissioners to make expenditures and to incur obligations for a specific purpose. An appropriation is usually limited in amount and in the time when it may be expended (i.e., fiscal year). Multi-year appropriation authority may be established for capital projects and other special purpose funds. The appropriation authority will remain in effect until the project is closed.

Appropriation Resolution - The official enactment by the legislative body (Board of County Commissioners) establishing the legal authority for officials to obligate and expend resources.

Assessed Valuation - A valuation set upon real estate or other property by the County Assessor and the State as a basis for levying taxes. Assessed valuation in Douglas County is based on 35% of appraised value as determined by the County Assessor's Office.

Assessments - Charges made to parties for actual services or benefits received. These are considered Direct Benefit Charge Revenues to the county.

Basic City County Relief Tax (BCCRT) - This tax is ½% of the 6.85% statewide sales/use tax rate. In-state sales are distributed to the county where the sale was made and out-of-state sales are distributed to the counties and cities based on a population formula.

Bond (Debt Instrument) - A written promise to pay (debt) a specified sum of money (called principal or face value) at a specified future date (called the maturity date) along with periodic interest paid at a specified percentage of the principal (interest rate). Bonds are typically used to finance long-term capital improvements.

Budget - A plan of financial operation listing an estimate of proposed appropriations or expenses for a given period (typically a fiscal year) and the proposed means of financing them (revenue estimates). The budget is also used for control and reporting of data to management. Upon approval by the Board of Commissioners, the adopted budget resolution is the legal basis for expenditures in the budget year.

Budget Augmentation - A procedure for increasing appropriations of a fund through the addition of previously

unbudgeted resources. For example, a capital project budget account may be augmented when an unbudgeted grant comes in. Board of Commissioners approval is required to augment the adopted budget.

Budget Calendar - A schedule of key dates or milestones which the county follows in the preparation and adoption of the budget.

Budget Message - A general discussion of the proposed budget as presented in writing by the County Manager to the Board of Commissioners. The message contains an explanation of the principal budget items and summaries, major issues impacting the Budget, and challenges facing the county.

Budget Overview - A general review/summary of annual budget development and evaluation process.

Budget Transfer - A movement of appropriations from one line item to another.

Budget Year - The fiscal year for which a budget is adopted. The County's fiscal year is July 1 to June 30.

Capital Budget - A plan of capital expenditures and the means of financing them. The Capital budget is part of the county's overall budget and is based on the Capital Improvement Program.

Capital Project - A permanent addition to the county's assets, including the design, construction, or purchase of land, buildings, or facilities, or major renovations of the same.

Capital Improvement Program (CIP) - A plan of proposed capital improvement projects with single- and multiple-year capital expenditures, generally for at least a five year period. The CIP is updated annually.

Capital Outlay - An operating budget category which includes equipment having a unit cost of more than \$3,000 and an estimated useful life of over one year.

Carryover - A budget adjustment to account for encumbered funds that were not expensed within the prior fiscal year.

Charges for Service - Various operating fees assessed for specific goods or services delivered.

Cigarette and Other Tobacco Products Tax Revenue - This tax made up of 90 mills per cigarette and 30% of other tobacco products manufacturers wholesale price. Of this, 5 mills per cigarette is distributed to eligible local governments (less administrative fee).

CIP - see Capital Improvement Program

Contingency - An appropriation of funds to provide for unforeseen, emergency expenditures or anticipated expenditures of an uncertain amount. The Board of Commissioners must approve the use of any contingency appropriations.

Cost Allocation - A costing of county services to identify the full cost of government services. Funds and departments are charged for the goods or services received from another fund or department.

Current Revenues - Those revenues received within the present fiscal year. Beginning fund balance is not considered current revenue.

D.A.R.E. - see Drug Awareness Resistance Education.

DCSD - Douglas County School District

Debt Service – Payment of interest and repayment of principal to holders of the county's debt instruments.

Debt Service Fund - A fund to account for the accumulation of resources and the payment of principal or interest on general long-term debt.

Department - An organizational unit which has the responsibility for providing programs, activities, and/or functions in a related field.

Depreciation - Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence. The county accounts for depreciation in proprietary funds by identifying that portion of the cost of a capital asset that is charged as an expense during a particular fiscal year.

Distribution to Other Districts - An expenditure category accounting for transfers of revenue within the same town or district.

Drug Awareness Resistance Education (D.A.R.E.) - An educational program to prevent or reduce drug abuse and violence among youth. The D.A.R.E. program offers preventive strategies that focus on the development of social competence, communication skills, self-esteem, empathy, decision-making, conflict resolution, sense of purpose and independence, and positive alternatives to drugs and violence.

Enterprise Fund - A fund established to account for operations: a) which are financed and conducted in a manner similar to the operations of private business enterprises, where the intent of the governing body is to have the expenses (including depreciation) of providing goods and services on a continuing basis recovered primarily through charges to the users.

Expenditure/Expense - Under the accrual basis (expense) or the modified accrual basis (expenditure), the cost of goods delivered or services rendered, whether paid or unpaid, and the retirement of debt.

Financial Audit - A systematic examination of resource utilization concluding in a written report. An audit of the county is performed each year by an outside, independent auditing firm.

Financial Condition - The county's ability to pay all costs of doing business and to provide services at the level and quality that are required and desired for the health, safety, and welfare of the community.

Fines and Forfeitures - Justice Court fines including traffic fines, forfeitures of bail, case-filing fees, and administrative assessment fees.

Fiscal Policies – Board of County Commissioners and administrative policies established to govern the county's accounting, investment management, revenue collection, debt, financial management, budgetary, and fund maintenance practices and procedures to ensure the long-term viability of the county's resources and services.

Fiscal Year - A twelve-month period of time to which the budget applies. For Douglas County, it is July 1 through June 30.

Full-Time Equivalent Employee (FTE) - The conversion of part-time positions to the decimal equivalent of a full-time position based on 2,080 hours per year (52 weeks times 40 hours/wk).

Fund - An independent fiscal and accounting entity having a self-balancing set of accounts recording cash and other financial resources together with all related liabilities and residual equities or balances, or changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with specific regulations, restrictions or limitations.

Fund Balance - The excess of assets over liabilities and reserves in a governmental fund.

Fund for Capital Projects - A fund created to account for all resources used for the acquisition or construction of designated fixed assets by a governmental unit except those financed by a proprietary or trust fund.

GAAP - see Generally Accepted Accounting Principles.

Gaming Revenue - Revenue generated from license fees from gaming establishments for table games (excluding card games) and slot machines.

General Fund - The primary fund of the county used to account for all revenues and expenditures of the county not legally or otherwise restricted as to use.

General Obligation Bonds - Bonds issued and backed by the full faith and credit of the county for the repayment of the bonds.

Generally Accepted Accounting Principles (GAAP) - Accounting standards for compiling financial statements

Glossary - Alphabetical list of terms used throughout the document defined; a brief dictionary.

Government Services Tax (GST) - Motor vehicle tax collected by the Department of Motor Vehicles, based on the value of a motor vehicle at the time of registration. The GST is distributed back to the county of origin per NRS 482.180 and 482.181

Grant - Contributions or gifts of cash or other assets from another governmental entity to be used or expended for a specific purpose, activity, or facility.

GST - see Government Services Tax

Indirect Cost - A cost incurred in the production and/or provision of a service that usually cannot be directly associated with any one particular good or service, but rather results from general productive activity. Examples include the salaries of supervisory and administrative personnel, occupancy and maintenance of buildings, and utility costs.

Intergovernmental Revenue - Revenues received from another governmental entity, including Federal and State grants.

Internal Charges - Various, specific charges set to recover the cost of providing goods and/or services to particular funds or departments within the organization.

Internal Service Fund - A fund used to account for the financing of goods or services furnished by a designated department or agency to governmental units within its own organization or to other departments or agencies on the basis of reimbursement for costs.

Investment - Securities purchased and held for the production of income in the form of interest, dividends, or base payment.

Licenses and Permits - Building permits, liquor licenses, franchise fees, and marriage fees.

Liquor Tax Revenue – This tax is made up of a tax charged by the content volume and other fees. Liquor tax is estimated to increase due to past trends.

Long-Term Debt - Debt which is legally payable from general revenues and is backed by the full faith and credit of a governmental unit. The term includes debt instruments such as property tax and revenue bonds, notes, and lease agreements.

Long-Range Financial Plan - A course of action set forth by the Commission consisting of several financial components to be implemented over time to provide for the fiscal stability of the county.

Long-Term Goals - Statements of high aspirations, usually representing an end result or condition toward which efforts are directed, i.e., meeting the needs of the county as set forth by the elected officials through policy directives.

Manage the County's Checkbook Exercise - An on-line forum in which residents allocate a mock budget amongst set priorities. A method of engaging community in the budget process and getting community feedback.

Master Plan - A comprehensive plan, normally covering a 5-10 year period, developed to guide delivery of specific services, to identify future needs and challenges, and to identify future infrastructure needs.

Miscellaneous Revenue - Interest earned on investments and difficult to estimate or unanticipated sources.

Modified Accrual Basis - The basis of accounting under which expenditures other than accrued interest on general long-term debt are recorded at the time liabilities are incurred and revenues are recorded when they become measurable and available to finance expenditures of the fiscal period.

NV Department of Transportation (N.D.O.T) - A NV state department responsible for the planning, construction, operation and maintenance of the 5,400 miles of highway and over 1,000 bridges which make up the state highway system.

NV Revised Statutes (NRS) - the current codified laws and governing statutes of the State of NV.

N.D.O.T. - see NV Department of Transportation.

Non-Adopted Transfer– Interfund transfers that are deemed necessary during the fiscal year, included as part of the budget augmentation process.

Non-Restricted Revenues - Revenues received by the county that can be expended for any governmental activity.

NRS - see NV Revised Statutes

One-Time Revenue - Revenue that cannot reasonably be expected to continue, such as some Federal grants, interfund transfers, or the use of reserves.

Operating Budget - The appropriated budget supporting current operations.

Operating Funds - Resources derived from recurring revenue sources used to finance ongoing operating expenditures and pay-as-you-go capital projects.

PBB - see Priority Based Budgeting

Personnel Services - A budgetary category encompassing all salaries, wages, benefits, and other miscellaneous costs associated with personnel expenditures.

Priority Based Budgeting (PBB) - A process for allocating financial resources that provides for the comparison and prioritizing of existing programs and services relative to each other and the need for new programs and services.

Property Taxes - Taxes are levied against the assessed valuation of property within the County.

Purchase Order - A document issued to authorize a vendor or vendors to deliver specific merchandise or render a specified service for a stated estimated price. Outstanding purchase orders are called encumbrances.

Quartile Ranking - The Quartile Ranking is based on the Priority Based Budgeting model, scoring each program against community priorities as adopted by the Board of County Commissioners. Programs rated in quartile 1 and 2 are a closest match to achieving the County's Strategic Goals, while programs in quartile 3 and 4 are considered less likely to match the County's Strategic Goals.

Real Property Transfer Tax (RPPT) - This tax is \$1.95 per every \$500 of value on real property transfers.

Reserve - An account used to indicate that a portion of the fund equity is legally restricted for a specific purpose or not available for appropriation and subsequent spending.

Restricted Revenues - Revenues received by the county that must be expended in specific areas or for specific purposes. For example, State gas tax revenues may only be used for road maintenance or road improvement projects.

Resources - Total dollars available for appropriations including estimated revenues, fund transfers, and beginning fund balances.

Retained Earnings - An equity account reflecting the accumulated earnings of a proprietary (internal service or enterprise) fund. In this budget document, the balance derived excludes asset depreciation expenditures. When depreciation is charged to user organizations, as in internal service funds, the cash balance remaining (ending retained earnings) therefore represents the asset replacement reserve being accumulated.

Revenues - Monies received or anticipated by a local government from either tax or non-tax sources in support of a program or services to the community. It includes such items as property taxes, fees, user charges, grants, fines, interest, sales tax, etc.

Revenue Estimates - A formal projection of revenues to be earned from a specific revenue source for some future period (typically one fiscal year).

Room Tax - A County collected, occupancy and lodging tax of 10.0% levied at each lodging establishment, used for specific purposes defined in State Statutes, including promotion of tourism, parks and recreation, library, airport, debt service, and transportation projects .

Salaries and Benefits - A budget category that accounts for full-time and limited service employees, overtime expenses, and all employee benefits.

SCCRT - see Supplemental City-County Relief Tax

Services and Supplies - A category of operating expenditures which includes such items as contractual services, charges for service, office supplies, maintenance fees, etc., which are ordinarily consumed within a fiscal year.

State Consolidated Tax - The combination of various taxes collected by the State of NV which is distributed to local governments on the basis of State Statute mandated formula.

Strategies - Describes in general terms those actions or activities that will be expedited to achieve the fiscal year goals and objectives.

Supplemental City-County Relief Tax (SCCRT) - The SCCRT tax is the County's guaranteed portion of CTX revenue. This revenue is 1.75% of the 6.85% statewide sale/use tax rate and is distributed back to the County based on a statutory distribution formula. The first tier formula factors In and Out of State tax collections, Consumer Pricing Index (CPI), and population. This tax will change depending on the change of the three factors mentioned above, in the prior two fiscal years. Change in SCCRT distribution is the difference in State tax collections or the difference in population and CPI, whichever is the lowest.

Taxes - Mandatory charges levied by a governmental unit against the wealth of a person, natural or corporate, for the common benefit of all. The term does not include charges made against particular persons or property for current benefits and privileges accruing only to those paying such charges, such as licenses, permits and assessments, nor does it include water, sewer, garbage or other service or use fees furnished through municipally operated utilities.

Tax Rate - The amount of tax stated in terms of a unit of the tax base. In Douglas County the tax rate means the dollar amount levied per \$100 of assessed valuation.

Transfer - Amounts distributed from one fund to finance activities in another fund. Transfers are shown as an expenditure in the originating fund and as a revenue in the receiving fund.

Transient Lodging License Tax (TLLT) - A rental rate tax of 4.0% levied in Tahoe Township and 3.0% at

remaining transient lodging business, used for County's Park and Recreation department to strengthen the economic health and promotion of tourism. This tax was adopted July 1, 2017.

Trust and Agency Fund - Fund used to account for assets held by a governmental unit as a trustee or an agent for persons, private organizations, other governmental units, other funds or any combination of them. The term includes an expendable trust fund, a non-expendable trust fund or a pension trust fund. The county maintains trust funds for some special districts, the School District, and specific State revenues to be dispersed according to each respective agency.

Unfunded Liability - A liability that has been incurred during the current year or a prior year that does not have to be repaid until a future year, and for which reserves have not been set aside. It is similar to long-term debt in that it represents a legal commitment to pay at some time in the future.

User Fees and Charges - The levy and payment of a fee for direct receipt of a public service by the person benefiting from the service (i.e. fees for recreation programs, charges for water & sewer services).
