

COVID may have kept our kids isolated and inactive

This program changes all that.

IMPACT REPORT 2020 - 2021

How We Reach Our At Risk Youth:

2 Community Centers
8 Parks

250 +
Volunteers

DID YOU KNOW?

With the restriction of movement due to the COVID lockdown, underprivileged children have an increased risk of being exploited and become victims of violence and abuse.

THE MAJOR ISSUE:

15.1 million school age children (more than a quarter of all youth) are alone and unsupervised after school. Even more due to COVID-19.

OUR GOAL:

Get our youth back in our centers and involved in programs & events!
